

IF WE WALKED ON OUR HANDS!

Suppose the entire human race walked on its hands instead of on its feet? What funny-looking hands we would have in a few years. Take a look at your hands and study them carefully. What a wonderful piece of workmanship! Then look at your feet.

The foot was originally as delicately built as the hand. It contains just as many bones, muscles and nerves. It is the abuse of the foot that has made it stiff, awkward and almost useless, excepting to walk on.

Proper treatment of the foot will restore much of the beauty and flexibility it naturally possesses.

There are many beautiful human hands, but very few beautiful human feet.

Think that over.

ST. ANDREW'S SOCIETY MEMBERS TO CHURCH

Without their president, who is in the trenches in Flanders, members of St. Andrew's Society marched out yesterday afternoon and attended divine service in St. John's Presbyterian church. Rev. J. H. Anderson, chaplain-elect, conducted the service, and was assisted by Rev. F. W. Thompson and Rev. Gordon Dickie. The church choir led in the praise service and Miss Thorne sang very sweetly as a solo, Jesus, Lover of My Soul.

Before the sermon, Rev. Mr. Anderson welcomed to the church the members of the society for the first time in their history. Rev. Mr. Anderson also referred to the fact that Captain Alex. McMillan, president of the society, stood high among the people of the world.

of a former president, Adam Jack, who died in office in 1885.

Rev. Mr. Anderson took as his subject, The Lord Reigneth. He proceeded to show the relation of thought of the text to the history of the Hebrew people, and then to speak of the world struggle of the present time.

A striking feature of this new campaign is the complete dissimilarity to that of France and Flanders. There are no lines of elaborate trenches. The latter consists of shallow ditches at the brow of the hill, and at any convenient spot. They are only a few yards long. They are broken and the shrub-covered ground provides an excellent cover. Little concealment is required as the enemy is unopposed with weapons. The French positions are held with great pride, though it should not be forgotten that fighting in this campaign is as yet in the nature of a maneuver for position until the definite advance begins.

I also visited the extreme right of the position here at Grandets. That was carried a few days ago by a brilliant French dash, and strong positions beyond the village were taken and consolidated immediately after. During the last day or two fighting on the Cherna front has been more severe than elsewhere. A fierce combat in the gorge of the River Raydheke, a tributary to the Danube, marked the further point of the French advance from the direction of Drenovo, on the right bank of the Cherna. The French, however, hold a strong position in the gorge and at an important bridge head at Topyrsk. This is a controlling point of the communication between a strong French position on the heights of Cherna, facing Grandets, and the on-line-Nish Railway, and a dominating route towards Vele. Today light infantry units are posted on the heights, which makes a strong position though open to fire from heights in the possession of the enemy.

Military Wrist Watches

The most reliable and most substantial military wrist watch of today is "THE WALTHAM". It is neatly cased and well strapped, has a very bold dial and heavy hands, and set in silver case and buckle from \$10 to \$15; and in gold filled case and buckle from \$15 to \$20. Above watch can be supplied with luminous dial and hands; also in 14k solid gold cases. This watch is a leader with us and is commanding rapid sales.

FRENCH VICTORY IN THE BALKANS

Visit to Battlefield Proves It Greater Than Reported

BULGAR LOSSES WERE HEAVY

Soldiers of King Ferdinand No Match For General Sarraill's Troops--French Position Good

(By George Renwick)

French Headquarters, Near Strumitsa Station, Nov. 20.—With the permission of General Sarraill, in command of the French troops in the Balkans, I have spent an interesting day at the French front on Belashitsa mountains in the north part of the so-called Dorian enclave in Southeast Serbia. It is a picturesque corner this. It is a picture of the Kruscha mountains to the east, and the Payk plateau in the south, and these are Greece. At the breakfast time General Sarraill received me and placed an officer and motor car at the disposal of a small party, so that we might visit the French position in the right of the line in this part of the country. We sped along past camp after camp. Here were the French, there the British batteries were hidden in corners, and activity was every where.

The first place to be visited was Hill No. 100, which the French took a few days ago after a severe fight. The tower of eminence was pockmarked with shell holes and shrapnel bullets could be picked up by the handfuls. From there we crossed the Bulgarian artillery fire zone to reach Hill No. 516, which dominates the surrounding region. "In single file," cried out the officer to the little party and just at that moment the enemy's shrapnel began to scream overhead and burst on the brow of the hill to the south. The aim was wide and the range was too long for the shells found a harmless billet on the vacant bare hillside.

Hill No. 516 was much as it was when the French a few days ago put the Bulgarians out of their position there. The hill having been thoroughly searched with heavy shell fire, the French took it with a splendid rush, and their losses were well under 100. The Bulgarians, at the lowest estimate 600 men. One trench, a half dozen yards long, had 50 of the enemy's dead lying in it. Many dead were found on top. Rifles were abandoned by the hundred and cartridges by the thousand. The French had several attempts to retake the hill, but were easily repulsed.

Disastrous for the Bulgarians.

A striking feature of this new campaign is the complete dissimilarity to that of France and Flanders. There are no lines of elaborate trenches. The latter consists of shallow ditches at the brow of the hill, and at any convenient spot. They are only a few yards long. They are broken and the shrub-covered ground provides an excellent cover. Little concealment is required as the enemy is unopposed with weapons. The French positions are held with great pride, though it should not be forgotten that fighting in this campaign is as yet in the nature of a maneuver for position until the definite advance begins.

I also visited the extreme right of the position here at Grandets. That was carried a few days ago by a brilliant French dash, and strong positions beyond the village were taken and consolidated immediately after. During the last day or two fighting on the Cherna front has been more severe than elsewhere. A fierce combat in the gorge of the River Raydheke, a tributary to the Danube, marked the further point of the French advance from the direction of Drenovo, on the right bank of the Cherna. The French, however, hold a strong position in the gorge and at an important bridge head at Topyrsk. This is a controlling point of the communication between a strong French position on the heights of Cherna, facing Grandets, and the on-line-Nish Railway, and a dominating route towards Vele. Today light infantry units are posted on the heights, which makes a strong position though open to fire from heights in the possession of the enemy.

OLD-TIME REMEDY MAKES PURE BLOOD

Purify your blood by taking Hood's Sarsaparilla. This medicine has been and still is the people's medicine because of its reliable character and its wonderful success in the treatment of the common diseases and ailments—scrofula, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling, general debility.

Hood's Sarsaparilla has been tested forty years.

69TH BATTALION OFF FOR ST. JOHN

Soldiers of Other Units Cheered Departing Comrades at Station

MANY FAREWELLS SAID

Corps Made Good Showing--Will Have Better Facilities for Training, Says Lieut.-Col. Danereau

(Montreal Gazette).

Looking to the future, the men of the 69th French-Canadian Battalion, under command of Lieut.-Col. Danereau, marched from their barracks on Guy street to the Bonaventure station and boarded two trains for St. John, N. B.

The first section of the battalion fell in at the barracks at 10 o'clock, and headed by the regimental band, marched along St. James street to the station. Lieut. Danereau was in active command of this section, while the second section of the battalion, which fell in half an hour later, was commanded by Major Bissonette.

Along the line of route, and particularly about the station, were several thousand men, women and children, waving farewell to the departing soldiers, and cheering lustily at intervals. Owing to the completeness of the arrangements made by the police, of whom there were 100 under command of Inspector Belanger, and of a detachment of the Composite Battalion with fixed bayonets at the entrances to the station and guarding the inner gates from the station to the platform, there was but little confusion or crowding. The men marched in quietly, but once inside responded heartily to the cheers raised in their honor. Groups of soldiers from other battalions stationed in the city were prominent by their numbers, fully 1,000 soldiers other than those of the 69th being present in and about the station to give their comrades greeting.

The arrangements made were well-nigh perfect, and made the entraining a comparatively easy matter. From the lower floor to the platform leading to the trains were stretched strong ropes, and these were guarded by the men of the 69th Battalion, pulling off completely from the soldiers those who had no business inside the ropes.

Lieut.-Col. Danereau, expressed himself as well pleased with his men as he was about to board the train. "I am well satisfied with the boys, and think they look alright," he remarked. He added that he expected that the troops of the 69th would be much better at St. John than in Montreal, and the change would be much better for the men.

As the trains pulled out, cheers broke from the crowds inside and outside the station, and were responded to heartily by the soldiers. "For they are jolly good fellows" was started as each train pulled out, and joined in heartily by all.

"I am just back from the war, and I was a soldier of the 69th," remarked a returned soldier who stood by watching the 69th depart.

WAR NEWS IN SUNDAY CABLES

London, Nov. 28.—The greater portion of what seems of the Serbian northern army is said to have crossed into the mountains of Albania and Montenegro, where the Serbians are continuing with the aid of King Nicholas' troops and supplies to manœuvre for position until the Adriatic, to offer stern resistance to the Austro-German and Bulgarian invaders. Like the Bulgarians, however, the Serbians hold only a fringe in their country, which widens as they advance. The Montenegrins, corner, of which Monastir is the centre.

For some reason, variously explained, the Bulgarians have halted their march on that city. It is said, in some despatches, that having re-occupied part of Macedonia, largely inhabited by their fellow-nationals, the Bulgarian people and government are disinclined to push any further west, and on this point are in disagreement with their Austro-German allies, who are determined to drive not only the Serbians and Montenegrins, but the French and British troops, out of the Balkans.

While at the present time they have largely superior forces, the task may prove a difficult one. Winter has set in at an unusually early date, and the natives predict that it will be severe. Snow fell at Saloniki Saturday, for the first time in eight years, which is taken as a sign that in the mountains of the peninsula there will be a very heavy snowfall. During the latter part of the week almost continuous storms compelled the suspension of operations, forcing the French and British time to bring up reinforcements, which are being landed at Saloniki daily, and concentrate their positions.

The Austro-Germans have also had to divert part of their armies down the Danube to the Rumanian border. Rumania having refused the German request for the opening of the Danube throughout its entire length, to enable the German to send supplies to Bulgaria and Turkey. Rumania insisted that armed ships must not pass Baki which is on the Danube at the Rumanian-Bulgarian frontier.

With the concentration of the Rumanians, too, the attitude of Rumania is becoming daily more hostile, and the Austro-Germans, fear-

PHILIPS, Douglas Ave and Main Phone M. 547

Ing aided Bulgaria in her campaign against Serbia which is now cleared, is called upon to protect her against Russian warships, including new dreadnoughts, have again been seen off the Black Sea coast of Bulgaria, but there is no news of any landing or movement of troops.

On both the eastern and western fronts the artillery, at was the case last winter, is doing the heaviest part of the work, and it appears doubtful whether either side will attempt an offensive for the present. Italy on the other hand, pushing her efforts by winter, is pushing her offensive action, and the Austro-German hold of Gorizia and Rovereto daily more uncertain, if, indeed, Gorizia has not been captured at Saloniki, reported.

The Turks have again been showing activity in Gallipoli and claim minor successes against the Allies. However, no big action has been fought.

German anxiety over Rumania is matched by that of the Allied powers with regard to Greece. Last week it was believed that all differences between Greece and the Allies had been surmounted, but it was found necessary to send another

note to Greece, the reply to which is pronounced Monday. The Allies now demand not only assurance of the safety of their troops, but adequate railway facilities for their transport, the withdrawal of Greek troops from the vicinity of Saloniki and the policing of Greek waters against German submarines.

London, Nov. 28.—A Russian despatch from Rotterdam says the British steamer Balgownie, which has arrived there from London, reports that she was attacked yesterday near the Nord Hindur light ship by three German aeroplanes and machine gun and rifle fire, as well as a direct hit against the steamer for twenty minutes, but she was not damaged.

Tonnage Loss in Mediterranean.

Berlin, Nov. 27.—Foreign ships with a total tonnage of 119,028, have been sunk by submarines in the Mediterranean Sea up to date, according to an official statement issued here, denying the report from Petrograd that the German cruiser Frauenlob has been sunk by an allied submarine.

Submarine in Role of Rescuer.

New York, Nov. 28.—A Turkish submarine stopped the British passenger ship Barullos in the Mediterranean, and after 25 had been drowned, assisted in rescuing many of the 250 passengers who had gone overboard in a panic, said Eleanor Franklin Egan, an eye-witness, who arrived today on the steamship New York.

SAN FRANCISCO BOSS FREED FROM PRISON

San Francisco, Nov. 28.—Abraham Ruef returned here from prison and exile to spend Thanksgiving Day with his aged, invalid mother and to resume a life of freedom interrupted by conviction of attempted bribery in the famous graft trial of 1906-07.

A few friends made in the days when Ruef was a dominant power in San Francisco politics, met him and took him to see his mother. His father died while the son was serving a four year term in San Quentin Penitentiary.

Ruef's exile expired three days ago. It was at his request that his parole be granted so that he remain in Mendocino county for 90 days after his release, August 28. He feared his presence here in the municipal campaign might revive enemies of the old days when Ruef was "boss" and involve him in accusations of renewed political activity.

Ruef served four years, five months and 17 days in his 14 year term in San Quentin, when being granted a parole. He spent three years in the San Francisco jail prior to his removal to San Quentin.

COULD NOT BEND DOWN COULD NOT WALK STRAIGHT BACK WAS SO BAD.

The back comes from the kidneys, and unless the kidneys are carefully watched and properly regulated many serious troubles may follow.

Doan's Kidney Pills will cure all forms of kidney trouble, and cure the kidneys so that they will stay cured.

Mr. J. A. Lubimicki, Dauphin, Man., writes: "It is my pleasure to write you in regard to Doan's Kidney Pills which I have been using for some time for kidney trouble, which used to affect my back so that at times I could not bend down nor could I walk straight. I learned about your pills from your Almanac, and I bless the happy hour I thought of buying this medicine. One time a druggist persuaded me to buy —s Kidney Pills, saying they were just as good, in fact he guaranteed they were. I yielded to his advice, and what was the result? I had bearing down pains in my back for two days, so I took the balance of the pills suited to the drugstore and told him to give me Doan's Kidney Pills as they would stop the pain in twelve hours at the outside. He told me he was sorry I did not use more of the pills, and lengthen the time to a week. I told him there was no need of waiting with Doan's Pills; they go right to the spot. No substitute for me. Doan's Kidney Pills are 50c per box, 3 boxes for \$1.25. See that our trade mark, "The Maple Leaf," is printed on both the label and wrapper.

"Doan's" are manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Had No Ambition To Do Her Housework.

System Was All Run Down.

Mrs. Herbert Doherty, Beaver Brook, N.B. writes: "I have used some of your Burdock Blood Bitters, and found it to be a great medicine. My system was in a run down condition for over a year. I suffered with bad headache, and did not seem to have any ambition to do my housework. In the morning I could not half eat, and what I did eat did not apparently seem to do me any good. After using four bottles of Burdock Blood Bitters I was an entirely different woman. I cannot recommend B.B.B. too highly to people suffering the same as I was."

The blood reaches every portion of the body to distribute nutriment, and remove effete matter and waste products, clearly then, any influence, good or bad, affecting the blood, must necessarily affect the entire system for good or evil as the case may be. To this fact is due the wonderful efficacy of Burdock Blood Bitters in removing every form of disease. It at once strikes to the root of the trouble, and quickly restores the depleted system to a condition of vigorous health.

B.B.B. has been on the market for the past forty years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
