RIDICULES THE TERMS OF TREATY

Hungarian Statesman Says There Are Many Absurdities

Delegation Requests Extension of Time Until Feb. 12 for Delivery of Reply—Large British Credit for Austria.

Budapest, Jan. 27.—Count Albert Apponyi is writing Hungary's answer to the terms of peace. He said today there were many clauses which were impossible of fulfillment. "There are sixty absurdities in the proposed treaty. One of these takes away all our wood and iron ore, while another demands that we give wood and ore to the Austrians. What affects our people most is the loss of territory. As for the economic conditions, we know we can never fulfill them so they cannot matter so much."

Murder Of Boston Policeman Believed Result Of Gang Plot

New York and Boston Thugs Said to Be in It

(Special to Times.) Boston, Jan. 28.—That the murder of Patrolman Clancy in a Charlestown dance hall by a thug was the result of a gang plot which rivals in its machinations the famous New York gunmen murders was borne out yesterday by detectives working on the case. Several New York city and Brooklyn hoodlums are in Boston working with local leaders of the underworld. Several of them were at the dance, which culminated in the death of Clancy. The police are working on the theory that Joseph Sammarco, alias Joe Nap, who confessed to the killing of the policeman and who is now being held without bail for the murder, had fraternized with several of the New York criminals. Stories of successful silk robberies as well as several burglaries in the last few weeks, in which the perpetrators were not apprehended, resulted in the New Yorkers coming here to combine forces with the local thieves. Emboldened by success they disregarded the taking of human life, but over-reaching themselves in the shooting of Clancy. The police hope to break Sammarco down to the point that he will tell who the New York men are so that they may connect them with the killing of the policeman. It is said the plot to get Clancy was hatched several weeks ago.

RESTAURANTS RAIDED

Dozens of Boston's all night restaurants were the scene of great police activity early this morning.

Dutch officials reiterated to the Associated Press their assurance that no efforts, to their knowledge, have been made by either the German government or the Allies to deal directly with the former emperor with a view to bringing about his surrender. The Dutch press is beginning to show some signs of alarm in consequence of Holland's refusal to grant extradition, but it is learned that the government is "tranquil and determined to stick to its attitude."

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to the Times reporter, "when I started out in politics an' I heard him make a few speeches I said he'd be primer of Canada some day. But I guess he's gone to chop wood an' things like that—'poor boy'—ain't he?" "He is acting premier," said the reporter, "but I had not heard he was anything more—as yet." "Yes, but see here," said Hiram. "Every day or two we read about some feller resignin' or gettin' sick an' goin' away—some of the other ones takin' over his job. Bimeby they'll be all gone but George—an' he'll be like the Antipater of all the Russias—yes, sir. Per George won't give up. I remember when he was a young feller. They said he was no good because he didn't like to chop wood an' things like that—but when he got 'gin' in school he showed 'em a thing or two. An' now he's set 'em up there in Ottawa tellin' all the other fellers they kin' run along an' play—an' he'll keep things movin'. Don't it beat all? Our Elias Foster—the feller that used to tend grand lodge an' make us shut up when he went after the ram sellers. An' now he's Sir George, too. I walked five mile one time to hear him speak—an' I'd do it yik—whether I voted for him or not. I s'pose he takes the pulse of his colleagues every mornin' and tells 'em whether to hang on or go south—well—he has a doctor's degree or two, I guess—so it's all right. But don't it beat all?"

The council will be replaced by lot from other judges on the panel.

Canon Kuhnring, rector, united in marriage Miss Mary Merritt, daughter of Mr. and Mrs. Joseph F. Merritt, King street east. PAISH MEETS THE CHICAGO BANKERS

Chicago, Jan. 28.—Sir George Paish, British financier, conferred yesterday with Chicago bankers in regard to the European loan he is said to be seeking in this country. Following the conference, James B. Forgan, chairman of the board of directors of the First National Bank, said: "Sir George did not talk of such an absurd loan as was reported from the east. Such impossible figures as either \$18,000,000,000 or \$34,000,000,000 were not mentioned. Money conditions are not favorable for such a loan to Great Britain or Europe at this time. So long as prices that yield six and seven per cent, will be hard to attract money abroad."

CUT HEALTH ESTIMATES BY \$2,600

Hampton, Jan. 28.—Practically the only business done at this morning's session of the Kings county municipal council was a reduction of the board of health estimate from \$5,600 to \$3,000. This decision was arrived at after considerable discussion in which the fact that the legislature appointed the officers and the municipality paid the bills was criticized. It was said that the only remedy was an amendment in the act.

AFTER BAXTER AND McLACHLAN

Phalen Union of Mine Workers for Recall

Dissatisfied With Two Labor Leaders in Cape Breton Over Acceptance of the MacKinnon Agreement. (Canadian Press.) Halifax, N. S., Jan. 28.—The Halifax Herald publishes today the following dispatch from its Sydney correspondent: "Nothing less than the complete downfall of at least two members of the labor triumvirate which has for so long dominated the miners of Cape Breton, will satisfy the members of the Phalen local union. The Phalen local union, which has begun to put in motion the machinery provided for the recall of Robert Baxter and J. B. McLachlan, and the election of new district officers in their places. 'McLachlan and Baxter must go' was the slogan tonight of every Phalen man spoken to by the Halifax Herald. The hostility indignity was based entirely upon the leaders' failure to secure more favorable terms during the recent negotiations which ended in the adoption of the MacKinnon agreement. Silby Barrett, district international board member, seems to have escaped the general wrath, partly because he is at present at international headquarters, but principally because he is an ardent supporter of the 'bitter enders' and 'last cent' faction among the miners. The United Mine Workers' rules provide that at any time one-fifth of the membership of any district becomes dissatisfied with the district officers, they may call a convention, which shall arrange for the recall of the leaders and a new selection to choose others more in line with sentiment in the district. It is of this rule that the Phalen men are availing themselves, and they are enough men to authorize such a convention, and the recall of McLachlan and Baxter, so that new officers may be elected in their places. 'We want the fourteen per cent. raise given the Americans,' they declare. And then they say, 'we also want whatever the American commission may award the men in the central competitive fields. If the Americans get thirty-one per cent, we want thirty-one per cent, too. 'The Phalen men are not disposed to support 'levelling up' agreement, is denounced in all quarters as 'no good.' It is announced that the annual district convention, which has always hitherto been held in Sydney, will this year be held at Truro, probably in February. There is unbelievable sentiment among the Phalen men against such a convention, and the recall of McLachlan and Baxter, full extent of this movement among the erstwhile followers, they would not have left the district so soon after the Sunday meetings. Phalen and Caledonia locals, numbering approximately 1,500 men, have already rejected the agreement, and tonight the halcyon local 600 strong, is expected to follow their lead.

MARCONI SPEAKS OF MYSTERIOUS SIGNALS RECEIVED

London, Jan. 28.—Interviewed yesterday regarding mysterious signals, described by him on Monday, Marconi said: "They are sounds. They may be signals, but we do not know. They are not what operators call 'atmospheric' and we have nothing to guide us at present as to how to get them unless we set up a special wave length, very much greater than the wave length ordinarily used. Sometimes there may be a long wait before we hear anything, or we may hear these sounds in twenty minutes or half an hour. They occur when we are using a wave length of approximately 100 kilometres, which is three or four times the length used for commercial purposes."

Montreal, Jan. 28.—Although two deaths resulted from "flu" yesterday, Dr. Boucher, medical health officer, said that there need be no alarm as there was nothing to indicate an epidemic was developing here. Dr. Boucher desires doctors immediately to report any cases of influenza to the health department without waiting to send in a batch "all one time." New York, Jan. 28.—Jeff Davis, acknowledging "King of the Hobos," today lent his services to Health Commissioner Copeland in an effort to help stamp out the epidemic of influenza. Accompanied by a health department inspector, he made a tour of the cheap lodging houses along the Bowery and lower east side and admonished the "guests" to obey the ordinance forbidding expectorating and smoking. "Use lots of soap and water and you won't get the 'flu,'" the assembled lodgers were told by the king.

MORE PAY FOR RAILROAD MEN

Drive at Washington Before March 1, is the Announcement.

Washington, Jan. 28.—The railway union, representing more than 2,000,000 workers, are to make a drive upon the railroad administration for higher wages and a final adjustment of working conditions before March 1, when the railroads are returned to private control. W. G. Lee, president of the railway trainmen, has asked the Director-General of waiting on the administration cost of living campaign. Last August they agreed to let their demands rest pending a showing as to whether living costs could be brought down to stop the upward trend of wages. The unions, it is said, are prepared to demand a final answer and are prepared to enforce their demands if possible. The shopmen took a strike vote several months ago, in which the membership authorized the executives to call a strike if the wage demands were not granted. A delegate on behalf of the railroad employees, farmers' organizations and the American Federation of Labor, called retention of the railroads by the government for not fewer than two years.
