FILIBUSTERS CAPTURED. Dauntless and Maby Taken by U.

Chicago, Oct. 22 .- A special to the Record from Jacksonville, Fla., says: The United States cruiser Raleigh at 5 o'clock yesterday morning discovered the steamer Dauntless taking on a cargo of coal from the steamer R. L. Maby of Mosquito Inlet. As the warship bore opposite directions and the Raleigh opened fire, dropping a solid shot across their bows as a signal to stop. The Daunt-lers heaved to, but the Malby ran into Mosquito Inlet and anchored opposite New Smyrna. The Raleigh took the Dauntless in tow and sent an officer after the Maby. The two prizes were towed up the coast to the St. Johns bar and were anchored inside the river with the cutter Boutwell alongside. The Daun'less had just arrived from the south and is supposed to have been preparing to carry another expedition to Cuba. The Maby has been acting as a

During the year ending the first of this month \$2,300,000 in gold bullion have been taken from the mines, the greater part being the product of low grade ores, much of which yielded less than \$4 to the ton. Almost any low grade of gold ores can now be worked at a profit there. Confidence in Alaska as a goldproducing country increases with the development of her resources. A number of gold bearing quartz ledges and placer deposits have been discovered in the Sitka district, and several are under deposit with good prospects. The gold placers of the Yukon region continue to attract the attention of gold miners and fortune seekers, but no rich discov-
