A CLEAN-UP NECESSARY

Some startling evidence has been prought out before the select committee of the House that is endeavoring to unravel the mystery in connection with the notorious Columbia & Western land steal, but if the ministers care to take the trouble to ascertain public opinion they will find out that there is a practically unanimous conviction that less than half has yet been told.

The base in the revelations continued to probe in-work was good, and the fielding, what there to the records of the government aroused tripidation and alarm. Hence the contradictory nature of the orders in council, and finally the introduction of

the so-called repudiation measure, Now it is quite impossible to believe that Colonel Prior when he entered the government was not made acquainted with the attempted deal in all its ramifications. During the period of his occupancy of the post of Minister of Mines he must have become thoroughly acquainted with the facts. There are men in public the Nanalmo players who plays one game life who have proved themselves valiant guardians of the patrimony of the people. Abuse and ridicule have been showered upon them by the patricts at terred from the purpose to which they had set themselves. They stood to their guns and their fire was so well directed that to-day the world beholds such a mass of corruption as has not been laid bare in other parts of the British dominions. It is true there has been only too much wrong-doing in connection with politics in other parts of Canada, but lust of office and not greed for personal enrichment has been at the bottom of most of it. In our case, we are sorry to say, the evidence thus far brought out indicates that some of the ministers and their friends hoped to carry off so rich a prize as would have rendered public opinion a matter of indifference to them during the course of their lives. Mr. Oliver has not sat at the feet of doctors learned in the law, but he is gifted within a large fund of common sense and with such inellectual penetration as enabled him to see through the great cloud of dust the ministers raised in the hope of screening their acts from scrutiny. No doubt he received a great deal of valuable assistance from his friends on the opposition side of the House. But Mr. out the first particulars of the notorious about according him due credit therefor.

If the Premier wishes to appear in the affair in a light which will afford the people the only satisfaction they can gain from it, he should now afford the member for Delta all the assistance in his power in bringing out the truth. Inwill insist upon this. As the matter province needs it.

It will now be in order for the C. P. R. to take a hand in the great political controversy of the day. It is not cuite clear what the company was going to getout of the land deal in its final development. That is what deepens the mys-" tery in connection with the whole affair. That corporation is not in the business of engaging officers to intrigue in its name for their own personal aggrandizement. Yet the C. P. R. is involved in the scandal and is bound to vindicate its character. Sir Thomas Shaughnessy will surely be heard from now that the stopper has been taken out of the cdorous jar and the smoke of the vile business is in the air.

The people of British Columbia might have seen whither they were drifting years ago. We surmise that at last they will be thoroughly aroused. An election cannot be deferred very long. There will be a keen scrutiny of records by the electorate and woe and lamentation among politicians of a certain class. There have always been too many of a certain class in our legislature.

There are evidently states that have sunk to lower political depths than we have in British Columbia. A Wisconsin legislator says he is in possession of evidence that would send half of his colleagues to the penitentiary. It is surmised that within a few days we shall know where some of our legislators cught to be.

A few days ago the Premier said newspapers should be restrained from "holding the members up to ridicule." The to obloquy, and they will be until they
