DEMAND OF RAILROADS That their grievances against

Should receive immediate consideration proves stumbling block.

NEW YORK, July 22.—The demand of the easten railroads that their grievances against the men should receive immediate consideration, was the chief stumbling block before the Federal Board of Mediation and Conciliation to-day in its efforts to harmonize the railroad managers and their con fuctors and trainmen. The board this morning received a committee of twelve representing the two labor organizations, and it is believed that the managers at a final conference last night with the mediators had refused to withdraw their demands.

At last night's meeting it is understood

their demands.

At last night's meeting it is understood that the mediators reported to the representatives of the railroads that the employees would not consent to have the counter demands of the roads arbitrated along with the original demands of the conductors and trainmen for better pay and working conditions. The managers insisted that their grievances be incorporated and working conditions. The managers insisted that their grievances be incorporated in the articles for arbitration on the ground that if they were not considered at this time they could not be taken up again during the continuation of any award made by the Board of Arbitration.

The work of the mediators, apparently, has not passed the preliminary stage, and it may be several days before they attain any definite results.

Frank Ferguson, aged II, son of George Ferguson, employed with the Moneton Tramways, Electricity and Gas Company, was drowned yesterday afternoon in Hall's Creek, Moneton. In company with ten or twelve young lads ranging from ten to 15 years of age, young Ferguson was playing around the creek which was grently swoolen by the recent rains. Ferguson was on a pole extending out over the creek and fell off into eight feet of water. He was c rried down the stream about eighty feet by the strong current before he sank. His companions, who could swim, made every effort to save him, but they were unsuccessful.
