were obliged to search about and take galleries in two of them, three large

sament of being refused admission until they had duly provided themselves with tickets. The members of the Commission received His Honor, who, accompanied by them and distinguished visitors-including Lt.-Governor Haviland of P. E. I., Sir Leonard and Lady Tilley, Senator Dickey and ladies and others-proceeded to the east gallery of the new building, where the following address was read and presented by Hon. David McLellan, Provincial Secretary, and President of the

can Wilmot, Lieutenant Governor of the Province of New Brunswick, etc.,

The Commission to whom has been entrusted the duty of organizing and holding in the City of St. John a Dominion and Centennial Exhibition, embracing agricultural, manufacturing, industrial and other xhibits from all parts of the Dominion.

Provinces of the Dominion are represented in this Exhibition in triendly rivalry for pre-eminence in their respective departments of industrial pursuits.

floor and galleries, which run entirely around the building projecting 15 feet from the walls. The new building ments of industrial pursuits.

It is peculiarly appropriate that this Exhibition should, this year, be held in this city. One hundred years ago, a company of men devoted to king and country, landed upon the present site of the City landed upon the present site of the pard is excellent, every attention having been given to secure proper eare of the cattle during exhibition week. A rocky shore. It is to-day the home of a progressive and energetic people. We may learn of our progress during the cen-

selves. A native of New Brunswick and for many years a resident of this city, you have ever taken an active interest in public affairs, and have watched we believe floor of the Centennial building is on a stables or horses, in which 34 animals lic affairs, and have watched we believe with pleasure the material and social progress of this Province and the Dominion level with the main floor of the old of horses for which accommodated. The total number consists of about 200 men and 50 teams.

Honor to declare this Exhibition open to the public.

His Honor replied as follows:

CHATHAM. OCTOBER 4, 1887.

The Exhibition.

[From our own correspondent.]

St. John, Oct. 1st.

Yesterday did not promise well as the eve of a great exhibition-opening, and much anxiety was manifested by the citizans of St. John as well as the eve of St. John as well as the eve of St. John as well as the eve of a great exhibition opening.

His Honor then, with the assistance

from the shadow of the preceding day.

At midnight on Sunday night the rain was not keard, save by the few nearest fell in torrents, but the morning to His Honor, owing to the continued brought us a sky flecked with white noise of workmen, each period being clouds upon a blue background, giving emphasized by the blows of hammers promise of a fair day. Early visitors and a running fusitade of conglomerate to the Exhibition buildings and grounds sounds keeping time with words as found work going forward with a will. they fell from the lips of the two dis-The Secretary's assistants, and mem- tinguished readers. This, however, bers of the Commission, including mem. though seemingly out of place was apbers of the Local Government present, were doing their best to attend to the wants of exhibitors, while the latter, the determination of individuals to push with their assistants, were doing their forward their part of the work to the best to put their exhibits in order. So opening condition, regardless of what far, I am not in a position to say where others were doing. As the machinery the fault lies, but there is evidence of started, the steam whistle screamed the want of a strong and competent and the first gun of the shore battery organizing head. Many who had for- salute boomed over the hills announwarded exhibits could not find them without much unnecessary delay, had commenced. As the shore guins though they were in the building. In ceased the Garnet ran up the American many cases the duty of allotting space flag to the main royal and saluted it, o exhibitors who had made their entries the Alliance returning the compliment. Before proceeding further it may

The outside finish of the building is comparatively plain, the large semiis 526. There is no scarcity of hay because they might float at high water. The true test of such a proposition would be for someone to endeavor to because they might float at high water. would be for someone to endeavor to charter, say a vessel drawing fifteen or twenty feet of water to load and discharge at the Point! The argument that vessels drawing twenty or more feet pass over "the Lump" at the entrance of the river, on which there is phires. '16 feet" of water, (there is really 171 ft.) does not apply in the "deep water terminus" argument, unless the Advocate wishes to emphasize the fact that ocean-going vessels cannot ston at Wilson's Point. Our position is not only that they cannot do this, but they cannot get there at all, to say nothing of passing, as they do over the "Lump."

The Late David Main.

In the course of a sermon delivered in the Presbyterian Church at St. Stephen on Sunday 23 ult., Rev. Mr. Love thus referred to the late David Main, editor of the St. Croix Courier.

ganized than any other department, although all departments are working better David Main, an affectionate husband and ever held in the Maritime Provinces. In agricultural products we have seen a greater volume of exhibits, but none so fiue in quality. The apple exhibit is the high order of merit.

An attractive feature of the show in

writer and speaker on all subjects.

Washion Hints.

Among new imitation laces that pro mise to be favorities are the imitation Valencienues laces, which this year are closer copies of the real, both in design and lor, than ever before. This lace being used largely for trimming fine underclothing and summer dresses. Another new imitation lace is that copying the Alencon lace. To the Frenchwoman belongs the praise or blame, whichever it should be, of introducing the fashion of

wearing imitation lace. Black silk, always popular, is out in a variety of textures, There are the heavy colored Ottoman silks and the thickly corded Autwerp silks for dresses and outside wraps, perhaps the most fashionable of all. Brocades and velvets are, as has before been told, all the rage.

A new dress fabric, designed for bridal toilets and evening wear is of silk gauze overlaid with designs in velvet. These come in silver white for brides and in delicate colors for evening toilets. While 100 Cases Martell Brandy, on the subject of bridal dresses it should be told that all fabrics, whether of silk, satin, or velvet, designed for this purpose are finished so as to show silver, which distinguishes them from the cream-white in vogue last season.

Dresses of cashmere and silk remai popular, and cloth dresses so much worn last spring continue in style. Cloth dresses will again be made by tailors, giving what is termed tailor-made suits. Grey is a favorite; so is blue. By-the bye modistes assure their early patrons that a little latter on in the season it will not be an unusual sight to see a blue woo dress elaborately trummed with red braid A dress that promises to have a run during the autumn is of Indian cashmere in some plain color. It is made with satin or velvet waistcoat shirred at the waist, velvet revers, collar and cuffs.

velvet bands. For trimmings galloon will be largely used : chenille will play its part and gill The Advocate argues that because the and silver cords find places. Velvet, both velvet fringe and velvet ribbons with 576 Cases, qts. and pts. bons designed for bonnet strings are little wider than those of last seas
