SPORTING MATTERS

THE RING

McLeod and Beansey.

The Montreal Star says: "Beth McLeod of St. John, N. B., and Louis Beansey, the local water-weight will come together next Monday night in a fifteen-round battle. It should be the best fight yet seen here, as both are hard hitters and can take plenty of punishment. McLeod gave hard fight in a six-round bout a year ago, but if Beansey is in good condition, and he says he never felt better in his life, McLeod will have to come to stop him in 15 rounds. Beansey can hit a terrific punch, and as they are to fight with one arm from the boy from down by the sea, he will have to keep on the jump to avoid a knockout. Kid Barrett and Young Lepore will meet in a ten-round contest. The fight will be a local affair, and will meet Jack Strachan, of Glasgow, in a six-round bout. It is expected that the fight between Lepore and Barrett will be fast and interesting."

ROLLER SKATING

GOOD ROLLER RACING.

A large crowd of spectators and skaters were present at the Queen's Rollaway on Saturday evening, and saw one close and interesting race and a part of a race that would have been just as exciting as the first one, but for Olive falling early in the contest. The first event was a one mile contest between Alward and Wilson, the old time rival. After Manager Munde had introduced Morris Wood to the audience, Mr. Wood, who had kindly consented to act as starter, instructed the men to take their places. At the flash of the pistol both men got away together, and for several laps it was a close and exciting race, but gradually Alward began to forge ahead, and finished about twenty feet ahead, time, 2:14. There was to have been a second race with Olive and Hunter as contestants, but Olive insisted on starting from opposite sides and Hunter from scratch. The result was that neither of the boys would give in, so Alward offered to skate Olive a half mile, which was at once accepted. Both men got away together and for three laps were on even terms, when Olive fell and retired and Hunter finished the race. No time was taken. The officials were: Morris Wood, starter; Harry Ervin and E. McCaw, judges; Wm. Campbell and B. Alward, scorers; A. K. Munde, timer. Fred Logan was hand introduced one of the races, but was unable to be present.

WOOD AND BELVEA TIE.

The result of the match race between Morris Wood and Hilton Belvea in Victoria Rink on Saturday night was a dead heat. The race was an exciting one, and considering the heavy condition of the ice the time made, 1:24.5, was very good. The men started from opposite sides of the rink, and Wood immediately took the lead. Before the first lap was completed Wood was about an eighth of a lap ahead. Belvea kept plodding away, and his steady work soon showed up, and before the sixth lap he was on about even with Wood, who then started on a sprint. Belvea also increased his speed, and the men crossed the finish line on even terms. There was a large crowd present to see the race, and they were pleased at the good showing made by Belvea.

THISTLES DEFEAT MONCTON.

The Thistles will retain possession of the McLelean trophy, having defeated the Moncton curlers on Saturday night by a margin of sixteen points. A large crowd of enthusiasts, both men and women, not to mention the very youthful followers of the "roarin' game," were present, and cheered lustily when a good play was made. The ice was

somewhat sticky at the commencement of play, but towards nine o'clock the weather set in cold and the ice was in perfect condition. Play was very even up to the fifteenth end, when the Thistles secured a lead which fairly well assured them of victory. There were few high runs in the evening, the highest being five, scored by J. Mitchell's rink of the Thistles. Moncton's highest end was four, made by Skip Rippey's rink. At the conclusion of the game the Thistles gave an informal supper to the visitors, who left for home on the midnight train. The following are the rinks and the scores:

Table with 2 columns: Rink Name and Score. Includes Moncton, No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, No. 9, No. 10, No. 11, No. 12, No. 13, No. 14, No. 15, No. 16, No. 17, No. 18, No. 19, No. 20.

Frederickton is the next in line to play for the cup, but it is hardly likely to be a match which will come off this year. By winning Saturday's match the Thistles have added another victory to an unbroken string of fourteen games played at home and abroad this winter, not counting the Montreal Bonsel, in which they won the Granite cup.

HE LIKED SUGAR.

A True Story About a Clever English Pug Dog. The story that I am going to tell you is about a pug that lives down in Devonshire. This pug was a father pug who had six pups and two baby pups. Papa pug was very fond of sugar, and his taste was shared by the rest of his family. One morning when he was in the kitchen, he saw a little boy who was carrying a tin of sugar to the stores for cook the mistress of Mr. and Mrs. Pug was suddenly called out of the room, and he was left only the outer store cupboard open. It was quite a quarter of an hour before he was able to return, and he was very surprised on reaching the door to see the whole family of pugs, minus papa, standing near the cupboard, with a very expectant look upon their faces. Just inside the cupboard stood Mr. Pug. And what do you think he was doing? Handling out lumps of sugar in turn to each member of his waiting family, says Home Chat. His mistress was very amused. She pretended to be very cross with him, but she really thought him a very clever doggie. I thought so, too, when I was told the story, and I expect you will all of you agree with me.

A WOMAN TO BLAME FOR ALL THE TROUBLE

Hungarian Politics Develop Serious Scandals

Members of the Cabinet in Correspondence With a Female Who is Regarded as a Danger to Public Morals.

VIENNA, March 9. — Hungarian politics have now sunk to so low a level that it would be preferable to hold the country under a military dictatorship than not probable that from the scandal by which they are characterized developments of a most important nature are in the air. There is a difference of opinion, not to say hostility, between members of the cabinet and it has reached such a point that Count Andrássy, Minister of the Interior, with the support of his own party of the Clericals and a large section of the Independent party secured the adoption of a motion brought forward by M. Zoltan Lengyel notwithstanding opposition of a majority formed by M. Kossuth, Minister of Commerce, and another section of the Independent party. The new Minister of Justice, M. Gombosi, a protegee of Count Apponyi, and a member of the Independent party voted with Count Andrássy. It will be remembered that the chief adherent of the resignation of M. Polonyi, the late Minister of Justice, was the publication by M. Zoltan Lengyel in the form of a letter which M. Polonyi had written to a Hungarian lady of doubtful antecedents formerly living in Vienna and supposed to possess certain relationships with personages of the court. Immediately after the publication of the letter M. Polonyi stated that Count Julius Andrássy and Count Albert Apponyi had known of his correspondence with the lady in question. M. Polonyi also declared that he had not approved of M. Polonyi's methods of securing information from the court. Andrássy assumed therefor an attitude of hostility towards M. Polonyi and let it be known that he would not continue to sit in the same cabinet with him. The adherents of M. Polonyi therefore regarded Count Andrássy as the chief enemy of the cabinet.

A NAVAL REBUKE.

Two Admirals, a Captain and a Fool in Manila Bay. When Dewey's fleet was at Manila the late Admiral Chichester was then a captain. On one occasion Admiral Chichester, the German, sent out the Irene on an unneeded errand and without the customary notification and with the commanding of the blockade fleet. Admiral Dewey had suffered, he thought, sufficiently from that sort of thing, and so the admiral sent a vessel across the harbor's bows and notified her captain that she would not be permitted to depart without a statement as to her destination. It was not Admiral Chichester's mission to quarrel with both the American and the English fleets on this critical occasion, so he sought to find out Captain Chichester's purpose in case of a collision. Going on board Chichester's ship, he angrily exclaimed, "Did you see what Dewey did to my ship?" "Yes," replied Chichester. "What would you have done if it had been an English ship?" Chichester, conveniently assuming that the Irene's captain had sailed, without orders, from Dieppe, "I'd have put my captain in arrest, and then I'd have gone on board the Olympia and apologized to Admiral Dewey for having sent a fool in command of one of my ships."

MOTORING DOCTORS HAVE DIRTY HANDS

PARIS, March 9—An eminent Paris physician has just written a paper about country doctors who use motor cars and has exhaustively considered the problem of black and oily hands resulting from occasional repairs. The doctor says there is no help for this, and that it does not matter. He has microscopically examined some of the black grease and has found that it harbored no evil germs. He therefore pronounces the dirty hands to be hygienically clean.
