EARTHQUAKE.—Several very smart shocks [of] earthquake have recently been felt in the Islan[ds] St. Thomas, St. Croix, and Porto Rico, but h[ap]pily without any serious damage.

18TH OF MAY.—To-Morrow, (Saturday,) 18th instant, will be the Anniversary of the landing of the Loyalists in this city 61 years ago.—Where are the sons of these noble souls, (who sacrificed all in their attachment to the institutions of their Father Land,) that some public demonstration is not made by them to commemorate the event:—the same feelings actuate them, and though they may be but few, their commemoration will be the more creditable.

MUSICAL.—The public will shortly have the gratification of hearing and seeing, what in all other places is considered a rare musical treat, by the celebrated Masters HUGHES and their Sister, who are expected to arrive here next week. Their performances have attracted large and fashionable audiences in every place visited by them; and if we may judge of their abilities by what accounts we have seen, those who honor them with a visit will not be disappointed. See advertisement.

GOODMAN'S WRITING.—The astonishing improvement made by the pupils of Mr. Goodmane in their style of writing, induces us to call public attention to his advertisement. A few lessons from Mr. G. changes the worst hand writing to a free business-like style, which those who are desirous of acquiring can now speedily attain.

Useful Hints to Shopkeepers.—A Pamphlet under this title was published last week, which [we] believe is of great service to Shopkeepers, &c.—It is f[or] sale at the Bookstore of Mr. William Reynolds.

A Monster Concert.—At Brandenburg, in Germany, a national anniversary was recently celebrated by a concert, in which 72 Philharmonic societies participated, numbering 11,000 members. Among the pieces executed was the "Hunters Chorus" of Mendelshon, with the accompaniment of 600 horns!

The island of Hayti appears to be in a complete state of insurrection; the town of Aux Cayes has been taken by the insurgents, and the most relentless butchery and outrage committed on the inhabitants. The mulatto people are flying for protection to the Land of Liberty, (where the British Flag floats the breeze) as fast as conveyances can be procured to Jamaica.—These Republics are certainly not exactly "what they are cracked up to be" containing as they do, the elements of their own dissolution.

THE SPRING VESSELS.—Among the many vessels which have sailed from the United Kingdom for this Port, but comparatively few have yet arrived, and among the absent ones are several, with the major part of the spring supplies for our merchants.—This has been the case also at Halifax and other places, and we have little doubt that the detention has been caused by an unusual quantity of drift ice on the Banks of Newfoundland. The Halifax Journal says:—

"The vessels which have arrived here within the last three days from Prince Edward Island and Cape Breton, report large quantities of heavy floating Ice in the Gulf and Eastern coast of this Province. The Gut of Canseau was so filled with it that it was impossible for vessels to get through.—The steamer *Unicorn* hence was in McNair's Cove on Wednesday last.—A Brig said to be owned by Messrs. W. Pryor & Sons with a cargo of sugar bound to Quebec, is reported to have received considerable injury. Several other vessel have also been injured."

[Addr]ess of the Inhabitants of [Qu]ebec to Sir Charles Metcalfe.

[May] it please Your Excellency:

We, the undersigned Inhabitants of Quebec, ancient Capital of British North America, desire [at] the present crisis to renew to Your Excellency, the assurances of our devoted loyalty to Her Majesty; and to tender to your Excellency, our admiration and gratitude for the noble stand you have made in defence of the Prerogative of the Crown of our beloved Sovereign.

We also beg to assure Your Excellency of our earnest desire to cultivate and maintain a cordial and good understanding with our fellow subjects of all origins, and to share with them Equal Rights and Privileges.

We pray that Your Excellency's Administration, as Her Majesty's Representative, may long continue,—giving increased Prosperity to the Province,—Joy to the People,—and Happiness to Yourself.

Quebec, 1844.

REPLY.

To the inhabitants of Quebec who have signed the address from that city.

I thank you, gentlemen, for your loyal and affectionate address.

The assurance of your concurrence in the course which it has been my duty to pursue, in resistance to unconstitutional demands is most gratifying.

I highly appreciate your earnest desire to cultivate and maintain a cordial understanding with your fellow subjects of all origins, and to share with [th]em equal rights and privileges; and I grieve to [s]ee, as instanced in recent proceedings at Montreal, that there are persons endeavouring to excite both national and religious discord; where every honest man must wish to see harmony and good fellowship established.

My administration of the Government will indeed be a source of the greatest happiness to me, if it be attended with increased prosperity to the Province, and joy to the people.

My strenuous exertions will never cease to be devoted to those ends.

I will endeavour faithfully to discharge my duty. The issue of events is in the hands of the Most High.

Walking match at St. Kitts.—(Lieut. Downes, R. [...], and Lieut. Massy, 85th, umpires)—Mr. Lithridge, 85th King's Light Infantry, walked from [th]e Barracks, Brimstone hill, to Bassetere, a distance of 12 miles and back again, under a tropical [su]n, in four hours and 23 minutes, beating a corporal who was backed against him by two hours. [Su]ch a feat for a European, has not been performed within the recollection of the oldest inhabitant. [A] good deal of money was lost on the occasion.—*Grenada Free Press, April 3.*

'I observe,' says a correspondent of the *Grenada Chronicle*, 'a short account of a walking match at St. Kitts, which I am sorry to say has had most tragic fitts.

'Lieut. Lithbridge, and the Corporal, were both carried to their graves on the 1st inst., and the same Funeral Service served for both. In case you have received no other communication on the subject, you might notice in to-day's paper—a friend of mine from St. Kitts who arrived in the steamer yesterday was a particular acquaintance of the deceased officer, and he gave me the information last evening. The 85th came out from Canada, at the same time as the 71st Regt. and since their arrival at St. Kitts, they have lost about 50 men, and they still continue very sickly, notwithstanding they have been all removed from the Garrison and encamped in the country."

Accession of an Independent Minister to the Church.—The Rev. Henry Edwards, who has for nine years been the minister of the Independent chapel, Long Sutton, on Sunday evening last preached his farewell sermon. He had previously announced his intention to leave, and in the mean time reports were rife that he had become convinced of the evils of voluntaryism, and intended to join the Established Church. The chapel was crowded to overflowing; and after an excellent discourse the expected announcement was made, to the effect that his opinions with respect to the working of the voluntary system, had within the last few months undergone a total change, in consequence of which it was his intention to prepare himself for the duties of a pastor in the Established church.—*Lincolnshire Chronicle.*

WHALERS CAPTURED AND CREW MASSACRED.—Extract from a letter received from Capt. Cathcart, of the ship Lydia, of Nantucket, dated September 4, 1843:

"The 15th of last March I anchored at Strong's Island, lat. 5, 12 N., lon. 162 20 E. It is about fifteen miles long, and contains, I should judge, 2000 inhabitants; the bark Pearl, of Sippican, had anchored two days previous to my arrival; the ship Pacific, of St. John, N. B., had been here and left, but returned again while I was there. After he was gone out, two of the natives whom Capt. Rounds had taken away with him from this Island, informed him that a whale ship, having considerable oil on board, had been taken by the natives, all hands killed, and the ship burned. Capt. R. put direct back to inform other ships, if there might be any there, of what had taken place, and at the same time he thought to get some oil."

DROUGHT.—The people of Havana are suffering from drought. The public fountains have ceased to run.

MONTREAL, May 7.—Upon Sunday afternoon his Excellency the Gov.-General underwent an operation for the removal of the cancer upon his cheek. The operation was ably performed by Mr. Pollock, the surgeon who arrived by the Acadia. The disease had spread further than previously, and was more deeply rooted, causing considerable trouble in the removal of the affected parts. His Excellency was going on very favourably when our advice left; and it was the opinion of Mr. Pollock, that the operation would be entirely successful and eradicate the disease. Sir. Charles has suffered much from it of late—having conversed and eaten with difficulty, and any attempt to laugh being attended with extreme pain.

FROM SIERRA LEONE.—The Philadelphia North American is indebted to Captain Taylor, of the brig Delaware, for a file of the "Sierra Leone Watchman," up to the 7th of March last, containing the following items. The prospect of the Mission continued to increase. Three French men of war were in the harbour, with a view to select a suitable place on the coast for a settlement. The following items are from the "Watchman" of March 7. The Brazilian schr. "L'Egeria," was run ashore whilst being chased by the man of war Spy, Edward C. Earl, Esq., Commander, near Appee, and being unseaworthy and unable to get off, she was destroyed by the captors, and was condemned on the 24th of January last. The 'Helana,' master unknown, embarked 546 slaves at Ambriz, 128 of whom died on the passage. She was taken by H. M. sloop Espoir, Arthur Morrell, Esq., and was condemned January 6, last. The 'Imperatrix,' brazilian Brigantine sailed from Rio de Janeiro for Campos, and was taken by the Heroine, H. R. Foote, Esq. She was not defended, and was condemned on the 10th January last. A spanish brigantine called Roberts, [w]as run ashore and wrecked near Black Point, [w]hile chased by the Madagascar. She was pro[no]unced liable to condemnation.
