DON'T NEGLECT YOUR COUGH?
You may dislike taking medicine—
but coughs are best cured without
medicine. The modern treatment is
"Catharhosine"—it isn't a drug—it's
a healing vapor, full of pine essences
and healing balsams. It spreads over
the surfaces that are weak and sore
from coughing. Every spot that's
congested is healed. Irritation is
soothed away, phlegm and secretions
are cleaned out, and all symptoms of
cough and catarrh are cured. Nothing
so quick, so sure, so pleasant as
Catharhosine. In 25 ct. and \$1.00
sizes at all dealers.

CANADIAN CEREAL & MILLING COMPANY BONDS

No bond investments in Canada
have been as uniformly profitable as
those in the bonds of the Canadian
cereal and milling companies. The
bonds of the Canadian Cereal

STOCK MARKET SEES A BIG SLUMP

New York Sept. 21.—Wall street
spent another uneasy day in watch-
ing the speculative slump in the
corporate. Trading in the ste-
el stocks dominated the market. Wide-
spread reports that dissolution of the
Corporation was impending coupled
with yesterday's severe decline seem-
ed to have aroused the fears of in-
vestors. Selling orders flooded the
market at the opening. They came
from all parts of the country and
from abroad and their force was ir-
resistible. The low price of the day
for the common was 58, a decline of
5 1/2 points and the lowest figure
since 1909. The pfd. fell 1 1/2 to 104
1/4 a lower price than had been reach-
ed before since 1908.

Trading in these stocks reached
enormous proportions. The common
was sold in lots of 1,000 to 6,000
shares. Largely by reason of this
selling the day's transactions amount-
ed to 1,255,000 shares, the largest
total of the year, and of this the sales
of the U. S. Steel were nearly one
half, or 572,000 shares.

Conjecture ran wild as to what
was in store for the steel cor-
poration. The report most widely cred-
ited was that either a suit for dis-
solution would be instituted by the
department of justice or that the
corporation would voluntarily take
steps toward that end in order to
meet the views of the Federal govern-
ment in regard to the requirement of
the Sherman Law.

Responsible officials of the corpora-
tion refused to discuss the reports,
and there was no definite basis of
knowing facts. There seemed to be
good grounds for the belief, however,
that the steel corporation
department of justice were united in
an effort to avoid a suit, and that if
the formidable obstacles in the way
of dissolution could be overcome ac-
cording to a plan to which both sides
could agree, such action would be
undertaken. There was no hysteria
evident in the steel market. The move-
ment in the steel securities resulted
in severe losses among other in-
dustrials, but the market was at no time
demonstrated. General Electric lost
5 5/8. A long list of others, includ-
ing Amalgamated Copper, American
Beet Sugar, Bethlehem Steel, Nat-
ional Biscuit, Sears Roebuck,
Pressed Steel, Car. Pfd., Railway
Steel Springs pfd., and American
Brake Shoe fell from 7 to 7 points.

The railroad list was relatively
firm. Missouri Pacific rose a point,
despite the unexpectedly large deficit
revealed yesterday in the annual re-
port. Some of the railroad shares
sold at a point or more and at times
there was a heavy pressure against
Union Pacific, but these issues rallied
later and throughout the session offer-
ed effective resistance to the day's
unsettling influences.

The market virtually ignored all
outside influences. Increases in the
rates of discount by the Bank of Eng-
land and the Bank of France were in
the expectations, in view of recent
events abroad. The position of the
Bank of England for some time has
been unsatisfactory. Today's state-
ment showed that the change in rate
was a matter of precaution rather
than of necessity. Political tension
combined with the higher rates in
which might have been deferred had
conditions been less uncertain.

The bond market was weak with
marked declines in the active specula-
tive issues. U. S. Steel rises how-
ever, held twelve Total sales per val-
ue, \$2,904,000. U. S. bonds were un-
changed on call.

New York, Sept. 21.—A continuation
of heavy steel pressure directed
against the stocks of the United
States Steel Corporation was the
dominating influence in today's mar-
ket. Yesterday's wide decline in the
Pfd and common were followed today
by even severer losses and the gen-
eral market which on yesterday had
shown marked resistance, yielded in
sympathy. There was reiteration of
the story that the Steel Corporation
was preparing a voluntary dissolu-
tion to conform to the supreme
court's interpretation of the anti-trust
law, but this story was discredited
by the fact that the corporation
seemed inconceivable that the Cor-
poration would yield up its corporate
existence and the dominant position
in the steel trade attained through
its organization without a bitter
struggle to preserve them. Another
more plausible rumor was that the
commissioner of corporations was
soon to issue the second instalment
of his report on the Steel industry
which would deal with prices and
pooling agreements which come di-
rectly under the ban of the Sherman

MAY BE RAPIDLY AND EFFECTIVELY CURED BY THE USE OF

DR. FOWLER'S Extract of Wild Strawberry

The Medicine with a record of Cures extending over 65 Years. You don't experiment when you buy it.

Mrs. S. S. Johnston, Oshawa River, Man., writes:—"About four years ago I gave Dr. Fowler's Extract of Wild Strawberry a good trial."

"My oldest son, five years old, got very bad with cholera infantum; two days after my next son took it, and the third day my little girl also took it. I doctored with all kinds of things, but they kept on getting worse and the doctors could do them no good. I then started the Dr. Fowler's Extract of Wild Strawberry, and after two or three days could see a difference, so kept on with the treatment, but they were so bad it took about two weeks to complete the cure. Different people have asked me how I saved my children's lives that time, and I always say it was Dr. Fowler's Extract of Wild Strawberry. I am now never without it in the house."
