for them to proceed to Millidgeville at which place the race was to have started.

The cabin cruisers were at the starting point, but the judges decided that owing to the absence of the speed boats and the condition of the weather, it would be better to postpone the race until a future date. A meeting will be held for the purpose of fixing another date for the race.

Nineteen boats had entered for the contest and there was considerable interest in the event. It is expected that the same boats will start again when a great race may be expected.

Leak-Proof Inner Tubes That Outlast Any Tire 14% Heavier—20% Lower Priced

Layer on Layer
 Here is something every motorist should know. Goodyear Laminated Tubes are not built of one thick piece of rubber. In a single piece of thick rubber flaws may be hidden. And the flaws may go clear through. Goodyear Tubes are made of many thin layers—each of pure rubber—vulcanized together in one solid, extra-heavy tube. In these thin sheets any tiny flaw shows up and we correct it at once. These thin, perfect sheets, wrapped layer on layer, make a tube that can't leak. And the valve patch can't leak. It is part of the tube, not stuck on. Please remember that. Many a tire trouble is due to a leaky tube.

Don't Pay More
 On February 15, despite this added thickness, despite the war tax, too, on all our raw materials, we cut our Tube prices 20 per cent. Now these Laminated Tubes, built extra-thick, cost about the same as others. There is not even a price reason for taking a lesser Tube.

Always Gray
 Pure rubber must be gray. A colored tube has much mineral matter. That heats up through friction and weakens the tube. Goodyear Laminated Tubes are not adulterated—so they are always natural gray. Whatever tire you use, get Goodyear Tubes, made in the big Goodyear factory at Bowmansville, Ont. They will outlast your tires. And they will convert you to Goodyear Fortified Tires. No man can use a Tube like this without wanting his tires built by the same standards. Any dealer will supply you Goodyear Tires or Tubes.
