ELECTORS,

What do you think of this as some of the "business methods" of the Foster Government?

A short time ago a tract of land at Brookville containing one hundred and sixteen acres was sold by public auction at Chubb's corner for \$5,000, or about \$43 per acre. It is a limestone tract.

A few months ago the Hon. J. F. Tweeddale, Premier Foster's "Superman" in the Agricultural Department, bought thirteen acres of the immediately adjoining land by private sale for \$10,000, or approximately \$775.00 an acre. This is also limestone land, and it was bought on purpose to supply lime to the farmers here.

Does it strike you as good business for the Government to give \$775 an acre for land that private purchasers would only give \$43 an acre for? This is a sample of the "economy" that the Foster Government prides itself on practising. Does it not amply justify the Opposition's contention that the Foster Government is wastefully and wantont extravagant?

And that is not all. Here is the rest of the story. THE LAND THAT THE GOVERNMENT GAVE \$775 PER ACRE FOR IS **ONLY ABOUT HALF AS VALUABLE IN LIMESTONE AS THE \$43** PER ACRE LOT.

Here is a comparative analysis of samples of lime from the two plots. It was made by Yocum Faust, Ltd., a well known firm of analytical chemists, and the sample of the \$43 per acre plot was taken out of the quarry and that of the Government plet from a consignment to a farmer.

The analysis shows as follows:

\$43 plot.	Government plot.
Calcium Carbonate91.4 p.c.	Calcium Carbonate . 45.14 p.c.
Magnesium 2.4	Magnesium 7.81
asolubles, Iron. etc. 6.2	Insolubles, Iron. etc 47.05

The Calcium Carbonate is what is required for fertilizer. The farmer has been receiving Limestone from the producers from the \$43 land at \$4.00 per ton, f.o.b. shipping point, containing 91.4 p.c. Calcium Carbonate; add the average freight rate to this would make it \$6.35 per ton to the farmers all over the province. The Government's selling price to the farmer is \$5.00 per ton, in which they are only receiving 45.14 p.c. of Calcium Carbonate, AND 47.05 P.C. INSOLUBLES OF NO FERTILIZER VALUE. Take this per cent. against the above production and it means a cost to the farmers of approximately \$11.00 per ton for Government production against \$6.35 per ton from independent producers.

Under the Government sales arrangements of \$5.00 per ton to all points in New Brunswick, they are asking the farmer at the shipping points to pay the freight loss for the farmers in the Northern parts of the province.

What They Read in the Klondike By Mrs. Helen Green Van Campen, Author "Behind the Scenes," etc. In The Morning Telegraph, New York.

"Every one wishes to hear about what is go-ing on in the wide world, and you will be inter-ested to know what is our most popular publica-tion in the Northland. It is THE LITERARY DIGEST.

"I was out in the wild country look ing over a mining prospect, and while on the move toward my destination, an old miner ran out from his shack and bid us stop. He said, 'Got a LITERARY DIGEST for me?' I talked with a LITERARY DIGEST for me?' I talked with him and he said he wanted THE LITERARY DIGEST because it told him about what was go-ing on in the world — everywhere. He got his news in condensed form and liked it that way. I have since investigated and have found that virt-ually everyone up here looks to THE LITERARY DIGEST to tell them things. Not everyone takes

the publication of course, but when a man reads it he saves it and passes it on to a neighbor, who passes it along in the same fashion.

"It is interesting to see one of the old timers sit down to read his LITERARY DIGEST. It is a serious matter with him; he does not merely skim through it; he reads it carefully, advertisements and all, like old man Jucklin did his Bible—'from kivver to kivver.'

"Then he gives it to another old timer who also reads it from start to finish. Afterwards they light their pipes and engage in debate on the topics they have been reading about.

"And I, even I, have got the habit, too. Please mail a LITERARY D!GEST to me every week if you can think to do it."
