You Cannot Get Equal Style, Performance and Reliability Within Hundreds of Dollars of Its Price

Essex is a totally different type. Its advantages are exclusive because patented. It gives results never before attained in any car.

Low price, without disappointment in looks or reliability.

Economy without sacrifice of performance.

Stability and highest roadability without unnecessary weight.

The riding ease of large, costly cars. The handling ease of a bicycle. Utter simplicity in design.

The lowest maintenance cost, we believe, of any car in the world.

A Car You Will Be Proud to Own

These qualities make it the most wanted and largest selling car of its class in the world.

It is the finest Essex ever built. It is the smoothest, most reliable Essex ever built. It is the best looking, most

comfortably riding Essex ever built. And the price, because of volume, is the lowest at which Essex ever sold.

Surely you cannot be satisfied with less than Essex offers when its cost is but little more than cars of the lowest price.

None Can Copy Its Chief Values

The Chassis Is Patented

Just as the Coach, invented by Hudson Essex, changed practically all buying to closed cars, so the patented Super-Six principle and other exclusive advantages, forecast the mechanical design which all must seek to rival.

But the extensive copying of the Coach type and the Coach name, even by costliest cars, cannot be carried to the Essex chassis. That is patented and no other maker can use it. It is responsible for the smooth vibrationless performance and long lasting reliability for which Essex is famous everywhere.

Hudson and Essex are of one quality.
