ABOUT TO LEAVE MICHEL

DR. McSORLEY TO PRACTISE ON THE COAST

DEATH OF AGED LUMBER-JACK—EX-TREASURER OF OTTAWA

Michel, Feb. 26.—Dr. McSorley, for many years company physician here, has decided to leave Michel and expects to leave here about April 1, and will locate at some point on the coast, probably at Prince Rupert. The doctor's career in Michel has been a very successful one. As a surgeon he has no equal in this part of B.C., many cases for operation having been brought here for his treatment from other points. From a financial standpoint Michel is a very poor field for a doctor, not that there is plenty of work, each man working in the camp pays \$1 per month for doctor's fees. Out of this he is compelled to maintain the hospital with two nurses, furnish all medicines needed in the camp and pay rent for his building, aggregating \$100 a month, leaving as a balance on the right side of the ledger, a sum less than is earned by any ordinary salesman or stockholder. The local miners' union has taken steps with a view to raise the amount paid towards maintaining the hospital with the hope that Dr. McSorley will remain here.

John Averill, an aged lumber-jack, died in Michel hospital Monday morning of old age. He was brought here from Sparrow about a month ago, but he gradually sank, until the end came. This deceased came to the Pass some seven years ago from Ottawa. He was well educated and was a man of good social standing in the capital. However the excessive use of liquor caused his downfall and finally drove him from friends and social standing to exile in the far west. He was for several years treasurer of Ottawa. The funeral was held here today from the morgue at the hospital. Interment was made at Michel cemetery, Rev. Mr. Kinney officiating.

MANLY OFF TO VICTORIA

AN OLD TIME RESIDENT OF GRAND FORKS SEEKS NEW PASTURES

ATHLETIC ASSOCIATION IS MAKING GOOD PROGRESS

Grand Forks, Feb. 26.—Lloyd A. Manly of this city, is winding up his business affairs with the intention of moving to Victoria, and expects to leave early next month. He will dispose of his wholesale liquor business here and sell the premises where it is carried on. Only last summer Mr. Manly built a handsome residence on the east side of the city. Pending the sale of the property Mr. Manly's family remains here. Asked as to his intentions, Mr. Manly said: "I expect to move my office to Victoria at once as I find that point will be more convenient in every way as a distributing point, and also in connection with other operations I may carry on. At present I have an option on a business in that city, which I shall most likely take up, though I am bound to add that in some respects it is the wrong time to leave for I firmly believe that an advance movement will be witnessed here this year which will mean much to the city and district."

L. A. Manly is one of a family of five brothers who have long been associated with this district. He was followed by his brother Dr. Manly, now of Republic, into the Kettle valley in the early 90's. After settling on the land east of the present townsite, he later on, in conjunction with his brother, John, secured interests in the land on which this city now stands, and placed the townsite of Grand Forks on the market. L. A. Manly became mayor of this city in 1899 and again in 1900. He was president of the board of trade on one or two occasions and president of the Grand Forks racing and athletic association. For some time past Mr. Manly has carried on a wholesale liquor business and is also president of the provincial Licensed Vintners' association, whose head office will now be in Victoria.

E. Duford, proprietor of the Queen's hotel, and long a resident of this place, died on Tuesday morning from pneumonia. Mr. Duford had been suffering for a month but showed signs of recovery and his death was a shock to his many friends here. The deceased was of French extraction and was 67 years old.

IS NEEDLESSLY ALARMED

THE PRESBYTERIAN AFRAID MORMONS OF ALBERTA WILL WORK EVIL

POLYGAMY DOUBT, RAISED, QUITS UNFAIRLY TO ALBERTA

Toronto, Feb. 26.—This week's issue of the Presbyterian, says the trenchant criticism by the Hon. minister of the interior, of remarks made by Prof. Kilpatrick and Dr. Somerville to the effect that Mormons in Alberta are not a desirable class of settlers, may be good politics from his point of view, but it does not touch the real question at issue.

"People may be thrifty and industrious but if an essential feature of their religion brings them into direct opposition to the law of the land, which is based on divine teaching, their presence presents all the material for a grave problem. The feature of polygamy has never been formally eliminated from their creed. It is simply a right held in abeyance because the force of public opinion cannot be changed. No good man will deny liberty of conscience to any, but that liberty must not come into conflict with an institution upon which the welfare and permanency of the family and the state depend. With all the record of their past and with the recent revelations in connection with the Smoot enquiry, in the United States, it is not too sensitive to criticism and we must be on our guard, lest we be found to be warming into an ill-will on a power that will work to our own destruction."

THEY MEAN BUSINESS

WHOLESALESMEN WILL APPEAL TO RAILWAY COMMISSION

THE QUESTION OF LOWER FREIGHT RATES COMES UP

President Fred Starkey announced last night to the members of the Wholesalers' association in attendance at the special meeting called in the board of trade rooms, that the object of the gathering was to further consider the question of obtaining a reduction of freight rates to Nelson and to the Kootenay generally. It was open to the meeting to say whether or not the members were to join in a petition to the railway commission for the reduction of freight rates. Mr. Starkey added that the data asked for by the railway commission had been supplied and he wished the members to present their views before the board of the commission and to the railway commission. The speaker regretted that the association did not attend the meetings of the association when specially asked to do so. If the merchants of the city were unwilling to tackle the question of rates, he, the speaker, would take the matter over and would be charged to ask that body to take the necessary action to bring the real situation before the railway commission.

NEW SCHOOL BUILDING

TRUSTEES ASK THE COUNCIL TO SUBMIT BYLAW

THE ESTIMATED COST IS PLACED AT \$30,000

The regular monthly meeting of the school board was held last evening in the office of the secretary. There were present: William Irvine, chairman, Dr. B. C. Arthur, R. J. Steel and A. D. Emory.

The finance committee submitted accounts for the month amounting to about \$400. The chief items were fuel, \$12.50; equipment of fraternity hall, \$9.15; stationary, \$10. The payroll for the month amounted to \$109. On motion checks were ordered to be made out and signed for payment of the accounts and the payroll. A discussion ensued on the application of one of the teachers for a raise in salary. It was pointed out by the chairman that the estimates for the year were already in the hands of the city council. Personally he favored an increase where it could be legitimately made. The teachers earned every cent that was paid them. The secretary brought up the question of a new public school building. He favored erecting a new building on the site of the building now being used, and asking the city council to obtain legislation giving them the power to raise the necessary fund.

A 12 roomed building would be required. The cost of building had increased considerably since the matter was discussed two years ago. Roughly the building would probably cost \$30,000. The chairman said he had informally discussed the matter with some members of the city council. He thought the board should place its case formally before the council.

The motion moved seconded by R. J. Steel that the board request the council in writing to submit a by-law to the ratepayers authorizing the raising of \$50,000 for a new school building. The motion carried unanimously.

Dr. Arthur will notify the council forthwith as to have the letter before that body when it meets on Monday next. The meeting then adjourned.

SMELTER FOR COBALT ORES

South Dakota Smeltersmen Interested in The Undertaking

Montreal, Feb. 25.—Sir Thos. Shaughnessy, has received a visit from H. Moggi, manager of a big smelter at Rapid City, S. D., who is considering the establishment of a million dollar smelter in Canada to deal with cobalt and nickel ores. Several sites for this smelter are proposed, but the one which seems to favor most is at Parry Sound, to which the Grand Trunk and Canadian Northern railroads now have entry, and which, early in the coming summer, will be served by the short straight line which the C. P. R. is now building through that district.

SHORT ON CO-OPERATION

Ottawa, Feb. 25.—Professor Short of Queen's university, sketched the story of government co-operation in Europe before a special committee of parliament today. He said that special lines of industry existed in which co-operation was needed to supplement other forms of co-operation. Canada's field was more definite and restricted but the scheme was none the less necessary here. Short did not commend the feature of Monk's bill to encourage recovery and his death was a shock to his many friends here. The deceased was of French extraction and was 67 years old.

Your Doctor

Can cure your Cough or Cold, no question about that, but why go to the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years; let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SHILOH

EDMONTON TO DAWSON

MILITARY HIGHWAY TO BE CONSTRUCTED IN THE SPRING

WILL CONNECT YUKON WITH HEART OF CANADA

(Special to The Daily News)

Edmonton, Alta., Feb. 26.—As soon as weather permits in the spring a party of Royal Northwest Mounted Police will leave here to supervise the construction of the all-Canadian military highway between this city and the Yukon. Captain McDonald, now at Hazelton, will start north from that point. He will have charge of trail blazers, bridge builders and road makers. They will have hundreds of miles to cover through an unhabited country, the few of the wildest territories on earth. At Fort Graham captain Camlin is wintering, ready to commence work in the spring. This party did considerable work last year but owing to the pressure of the winter they were not able to get through in the early rush for the Klondike. To connect the Yukon with the heart of Canada a course will be blazed and graded and pack routes cut through one of the wildest territories on earth. At Fort Graham captain Camlin is wintering, ready to commence work in the spring. This party did considerable work last year but owing to the pressure of the winter they were not able to get through in the early rush for the Klondike.
