160 m. Port of mental Tiple.

It was reasonable to expect that this was all control of the proof the cause in one year than has rither to been done in ten. Something of this kind is necessary, for the question requires agitating thoroughly. There is little use in attempting to promote emigration from amongst, the classes known as skilled workinen; for we have the opinion of Mr. Connolly, a newly appointed Dominion Agent, that the

This society is now fairly organized

and in a short time we may expect that man, and F. C. S. Hidgeway, was inted; and this committee, meeting the general meeting, appointed Mr. Robinson their Freasurer, and Mr. W. J. Wills their Secretary. The society has received promises of support from considered by the two bodies to which has received promises of support from all parts of the valley, from lumbermen, manufacturers and farmers, and it now seems probable that the funds to be will soon be begun towards reclaiming placed at its disposal will provide for the importation of a large number of a superior class of agricultural and other laborers. It is the desire of the society to promote immigration from England, Ireland and Scotland, from districts which have not, and which perhaps could not, under our national system, been reached by the agents of the Dominion and the Provinces. It is probable that the society will send, in the course of winter, a spicial agent to Grea Britain, choosing for the purpose some gentleman who is intimately acquainted with the wants of this section of country, with instructions to make careful sele sage money, to give permanent emyment for a fixed time, and to guaranreasonable and fair wages. With ing operations is about over, it may be the inducements to offer emigrants, it well to take a glance at the improvements

ENGINEER'S REPORT.

We understand that Civil Engineer a new departure, and start upon a fresh convinced him that no very great track if we wish to do better than we difficulties lie in the way of draining the hard and useful work in the country gate about what we surmised in last the shipping of his lumber. A. Mcbelieve that any good will result from it. The United States have got the start of us immensely, and by vigorous measures adopted, and carried out faithfully, we must make up for lost ground. We trust that such will be the measures fore shadowed in the speech of Mr. Pope.—

Citizen.

for the dam at the "Locks" about three miles below here, erected by the Tay Navigation Company, which causes the back water to feed the swamp instead of allowing a flow in a contrary direction; but by a little more expense, the swamp shadowed in the speech of Mr. Pope.—

Citizen.

for the dam at the "Locks" about three miles below here, erected by the Tay to supply the demand for dwelling that the applications for gold currency from no fewer than twenty of its branching es are so frequent, and upon such a scale, that they are with the greatest difficulty satisfied. Considering that they are with the flow of specie to Germanyh as already commenced for next season's operations, and what with the Town Hall and all the other buildings which will be erected, our builders will The next has two natural outlets; the one flowing to the northwest part, and have a busy time of it. We trust that entering the Tay above Perth near Mr. and in a short time we may expect that it will put its machinery in fore; to promote the object for which it has been specially organized. On Saturday evening a constitution was framed by a committee appointed for that purpose, and yesterday the same was submitted at a meeting held in Mr. Wills' office, to D. McDonald's; the other commencing the era of prosperity which seems now from the northeast, forming what is to have fairly settled on our village, may long continue. gentlemen who have taken an interest in drainage could be blasted through these the movement. The constitution was signed, amongst others, by the Mayor of The third swamp has also a natural outlet, signed, amongst others, by the Mayor of the city, the Hon. Mr. Skead, Mr. Currier, Mr. Eddy, Hamilton Brothers, Mr. Richard Connell, and Mr. John Poupore. A Committee of Management, composed of the Hon. Mr. Skead, Mr. Currier, M. P., Mr. Richard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and this committee, meeting appointed; and this committee, meeting appointed Mr. Skead Mr. Currier, Mr. Bichard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and this committee, meeting appointed Mr. Skead Mr. Currier, Mr. Bichard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and this committee, meeting appointed Mr. Skead Mr. Currier, Mr. Bichard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and this committee, meeting appointed Mr. Skead Mr. Currier, Mr. Bichard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and this committee, meeting appointed Mr. Skead Mr. Currier, Mr. Bichard Connell, Mr. James Bearman, and F. C. S. Ridgeway, was appointed; and the connell of this would be considerable; and to effect a drainage the co-operation of the Councils of Beckwith and North Elmsley would have to be secured. This would likely not be difficult to obtain, as both town the connection of the Councils of Beckwith and North Elmsley would have to be secured. This would likely not be difficult to obtain, as both town the connection of the Councils of Beckwith and North Elmsley would have to be secured. ships would be to a greater or less extent benefitted by the drainage of this swamp.

grant two thousand dollars per mile for the first forty miles of the road, and three thousand dollars per mile for the remainder, making in all about four hundred thousand dollars. The arrangement was quite satisfactory to the Government as well as to the Directors Payment is to be made on the completio of each thirty miles. Every expectation of the projectors of the road in regard to the bonuses and other capital has now been fulfilled. The success of the scheme has been most marked throughout, and its prospects have been growing brighted day after day. With nearly \$1,200,000 of capital to start with, its rapid com pletion is without a doubt. It but now remains to follow up the practical work of the survey, with the actual work of the road. We will soon have a demonstra tion of breaking ground, which will mark

a new era in our city's progress.-It was announced that Manitoba by the Corporation and inhabitants of the village, the band played several spirited airs, and appropriate speeches of welcome were made. Mr. Cumberland states that the road would be opened as states that the road would be opened as Bell, Business Instructor. The com-Bell, Business Instructor. The committee announce that they have made arrangements, until the College building is finished, for accomodating a limited number of students at suitable boarding places in the neighborhood. The rate of board is from \$1.50 to \$2 per week. The authorities of Manitoba College state that they are determined to adapt the course to the wants of the agricultur ists, merchants, and traders of this great Northwest, untrammelled by educational theories brought from other countries, and theories brought from other countries, and the course to come about the countries of the bridegroom. A very nice event to come about but the South Africa, and has come into considerable use as a substitute for gutta percha and similar substances, in the unsuited to the wants of the Province; nanufacture of fancy articles, such as anes, picture frames, inlaid work, &c. tis of a dark colour, and when fresh it thick and fleshy but the committed to the wants of the Province; and hope by their unsectarian liberality, thorough modes of instruction, and care of those committed to the wants of the Province; and when fresh it thick and fleshy but the committed to the wants of the Province; and when fresh it there wants of the Province; and when fresh it there wants of the Province; and when fresh it there wants of the Province; and when fresh it there wants of the province; and when fresh it there wants of the Province; and wants of the Provi

and facture of fancy articles, such as an anea, picture frames, inlaid work, &c. It is of a dark colour, and when fresh it is thick and fleshy; but when it is dried it becomes compact, and its surface looks like a beautifully grained deer's horn. After it becomes dry and hard, it can be deered soft again by steeping in water, and in this condition may be stretched and formed into various shapes. It can also be reduced when dry, to powder, then made plastic by soaking in water, then made plastic by soaking in water. The Journal de Quebec says the revenue of the Dominion this year will be \$19,000,000, and that a comparison of this with the revenues of the Provinces outposing the Dominiou in 1841 will be \$19,000,000 or sylorof,000. If to the \$19,000,000 revenue of the Dominion be added that reserved to the Provinces by the Act of 1867, it will be found that the total revenue of British North America has increased twenty times since 1841. This is certainly a prodigious result, and of which we may be proud, besides which Confederation has above all, given a wonderful impetus to our commerce and industries.

The Salt Lake Review says:—On the dry, to powder, then made plastic by soaking in water, then made plastic by soaking in water. The Journal de Quebec says the revenue of the Provinces of the Prov
