## NEWBURY

The A.Y.P.A. of Christ church entertained the A.Y.P.A. of Wardsville and the Y.P.S. of Knox church in the town hall Friday evening. There was a good crowd. The S.S. by request put on their Christmas play, which was much enjoyed. Lunch was served.

A mission band was organized in Knox church on Saturday afternoon by Mrs. C. D. Farquharson. Mrs. Wm. Bayne having charge of the musical part. Quite a number of children were present and joined.

W. Barkie of Tillsonburg was in town last week. Rev. C. D. Farquharson was in Toronto last week, having been invited to give a lecture to one of the institutions.

Sympathy is extended to Mrs. Stalker and Mrs. C. Teller in the tragic death of their aunt, the late Mrs. Hyndman of Glencoe.

The first carnival of the season was held on the rink Saturday evening and was a big success. Quite a number were in costume, some with splendid disguises that had all guessing. Several from Wardsville were out. Some of the ladies sold hot dogs and coffee to help along the skating rink fund. Proceeds, \$28.50. This puts the rink out of debt, with a nice dressing-room all fitted with electric light. Much credit is due a half dozen of the village boys who have gotten the rink in such fine shape and keep it flooded. Lend a hand, everybody! There is always something needed.

The Newbury-Moss Women's Institute met at Mrs. D. Stalker's on Jan. 18. The meeting opened by singing the institute ode. A goodly number were present. After the business part of the meeting was over, Mrs. Elias Rycraft gave an excellent paper on "Duty toward our neighbors." The roll call was well responded to with a quotation from any poet. The flower collection was \$2.35. The meeting closed by singing the national anthem. Lunch was then served by the hostess. The next meeting is to be held at Mrs. (Rev.) Farquharson's on Feb. 15. Roll call—pie recipes.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

## CASHMERE

Hugh Taylor is in St. Joseph's Hospital, London, undergoing a serious operation. The last word of his condition was none too satisfactory.

Mrs. Wilkie Taylor and Mrs. Goodbrand spent a few days in Listowel visiting their father, Mr. Bargey, who is in poor health.

Mr. and Mrs. Earl Linden of Aldborough spent Sunday with their parents, Mr. and Mrs. Henry Taylor.

Mrs. Kelly of Regina, Sask., is visiting Mrs. Archie Patterson and other friends in this vicinity.

Mrs. Hugh Taylor spent a few days in London while her husband was undergoing an operation.

Miss Mildred Taylor of Chatham spent the week-end at her home here.

Mrs. Calvin Stiller and son Franklin spent a few days with their parents in Newbury.

A. J. Taylor was in London on Tuesday to see an eye specialist.

## CAIRO

John A. Armstrong of Woodstock has bought the property of John Randles and intends enlarging the blacksmith shop and opening up a garage.

We are pleased to notice that our new storekeeper, H. A. Newkirk of Chatham, is doing a good business.

D. M. Smith, who has been confined to his bed for the past three months, is able to be up around the house again.

Miss Bernice Wright of Lacombe.

SEVEN SUTHERLAND SISTERS' COLOR-ATOR gives a natural color to the hair by a simple, harmless method. Application cannot be detected. Inexpensive. Results durable. Ask to see card showing eight different shades.

H. I. JOHNSTON DRUGGIST GLENCOE

Dora Sutherland, 193 Spadina Ave., Toronto

## WARDSVILLE

The annual U.F.O. social evening was held in the town hall on Tuesday. Wm. Turk presided and a splendid program was given as follows: Instrumental duet by Misses Florence Willis and Mary Hutton, short address by Rev. Mr. Murphy, violin selection by Jean Morrison, reading by Simon Winger. Lunch was served by the ladies, after which the chairs were cleared away and the people danced till the small hours of the morning.

The third union meeting of the young people's societies of the three churches was held Thursday evening in the Presbyterian church. Wm. Atkinson took charge. After the opening devotional exercises the topic, "Friendship," was taken by Miss Helen Atkinson.

G. A. Love was called to Aymer Saturday on account of the sudden death of his brother.

Mr. and Mrs. J. A. Mulligan and family left Tuesday for their new home in St. Thomas.

Mr. and Mrs. Ross Archer have returned from their honeymoon and are living in the house formerly occupied by Mrs. T. Mulligan.

A number from Woodgreen vicinity held a dance in the Wardsville town hall Wednesday evening. A very pleasant time was enjoyed.

The Women's Institute of Wardsville was entertained by the Aldborough Women's Institute at the home of Miss A. Ward on Thursday afternoon, when it was decided to take advantage of the offer of extension lectures by the Western University.

These lectures will accordingly be put on in the first week of March, under the auspices of the two institutes.

Following the roll call, which was answered by short quotations on "Safety First," a program, arranged by the Wardsville Institute, was given, which included a duet, "Keep Sweet," by Mrs. Arthur Wilson and Mrs. Dennis Elwood; a paper on "Institute Work," by Mrs. Morton, and a recitation, "When I Learned to Skate," by Mrs. Lancaster, with the singing of community songs by the members.

Refreshments were served by the hostess and a pleasant social time enjoyed.

The young people of the Presbyterian and Methodist churches will hold their meeting in the Methodist church Friday evening at 8 o'clock. A good program will be given. Everyone will be welcome.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

## DAVISVILLE

Mr. and Mrs. Henry Armstrong have returned home after spending their honeymoon in Cooksville.

Mr. and Mrs. Wm. McRae and family of Glencoe spent Sunday with their parents, Mr. and Mrs. Joseph Armstrong.

Miss Leah Armstrong of Windsor is visiting relatives around here and in Newbury.

Mr. and Mrs. Archie Sinclair of Glencoe visited her brother, Fred Armstrong, on Sunday.

Duncan McKenzie is on the sicklist but is getting better.

Mrs. R. B. Smith left on Thursday to visit her son Ralph, after spending about a month with her daughter, Mrs. Will Hillman, who is in poor health.

## KNAPDALE

The weather today is very much like spring.

A number from here attended the social evening at Newbury town hall last Friday.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

## WOODGREEN

A number of people from here attended a dance given in the town hall at Wardsville on Wednesday evening last. Lunch was served at twelve o'clock and dancing continued until the wee hours of the morning.

A number of people from here enjoyed a pleasant time on Thursday evening at the home of John B. Jones. The time was spent in cards and dancing.

Sid Harold is visiting Nelson Henderson.

Mrs. Harry Harvey and daughter Alice spent a few days in London this week.

Mr. and Mrs. Thos. Simpson are visiting friends at Florence.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

## MOSA

Talking about babies, Lorenzo Kelly's son, 18 months old, weighs 29 lbs., height 32 inches, measures from tip to tip of fingers 32 inches, from hip to foot 16 inches, arm length 13 inches, head 20 inches, chest 21½ inches.

Send along the news items; they are always welcome, only send them in early.

A man who sneezed while being shaved at Newark had the end of his nose cut off by the upturned razor but the barber only charged him the ordinary price for the shave.

ASTHMA USE RAZ-MAH No Smoking—No Spraying—No Swallowing a Capsule Just Swallow a Capsule

RAZ-MAH is guaranteed to restore normal breathing, stop mucus in the bronchial tubes, give long nights of quiet sleep; contains no habit-forming drug. \$1.00 at your druggist. Trial free at our agencies or write Templetons, 149 King W., Toronto.

## ABOUT MARQUIS WHEAT

United States Official Tribute to a Canadian Product.

Says It Is the Leading Variety for Growing in the Northern Great Plains — Best All Around Common Wheat to Grow for Bread-making.

(Contributed by Ontario Department of Agriculture, Toronto.)

Following is a digest of Bulletin No. 878 of the U. S. Department of Agriculture. Marquis wheat was originated by Mr. Charles Saunders, Dominion Cerealists, Ottawa.

That Marquis wheat is the leading variety of common wheat for growing in the Northern Great Plains is the conclusion reached by specialists of the United States Department of Agriculture as a result of varietal experiments with spring wheat conducted at 11 field stations in the northern half of the Great Plains area chiefly in co-operation with the state experiment stations. Details of the experiments, including discussions on the principal varieties, how and when they come to the region, and how to distinguish them, are contained in Department Bulletin 878. Varietal experiments with Spring Wheat on the Northern Great Plains, issued by the department.

Introduction to the United States. Marquis wheat was first introduced into the United States from Canada in 1913, but is now more widely grown than any other variety. It is short-strawed and early maturing, which characteristics sometimes enable it to escape rust and drought.

A demand for information on comparative yields of varieties and their resistance to disease was developed in the Great Plains area by severe losses which have occurred recently, due principally to drought and rust. Although crop yields have sometimes been low, land values have continued to increase in about the same proportion as in other sections. This has increased the cost of production and, with a return to lower prices for wheat, it is essential that the poorly adapted varieties be eliminated.

Hundreds of foreign and domestic varieties of wheat have been obtained by the department and tested. In preliminary nursery experiments many of them did not show themselves adapted for culture in the semi-arid sections. These varieties were rejected and only the more promising ones were selected to be grown in plant experiments.

The Question of Yield. In Bulletin 878 the annual yields of the spring wheat varieties grown during the seven years, from 1913 to 1919, are shown for each station. A summary of the yields shows that, in general, the Marquis variety is the highest yielding common spring wheat. It has been included in all of the experiments each year. The better varieties of durum wheat have outyielded Marquis at all stations but one. The Kubanka durum wheat outyielded Marquis at eight of the ten stations where it was grown.

Data on rust infection were obtained at seven stations. Marquis wheat shows an average rust infection of 17.7 per cent. in twenty observations. Most of the important commercial varieties of common spring wheat showed a higher percentage of rust infection than Marquis, while all varieties of durum wheat showed less rust.

Milling Tests. The leading varieties of spring wheat grown at the eleven stations were milled in an experimental mill and the flour baked into bread in order to determine their relative values for flour and bread-making. It was found that growing conditions and disease had much influence on the percentage of flour obtained. Marquis wheat yielded as low as 56.4 per cent. of flour from sections where it had been affected by rust, while under favorable conditions it produced as high as 75.8 per cent. of flour. The average yield of flour from Marquis wheat was 70.2 per cent. Several varieties of common wheat produced distinctly lower percentages of flour than Marquis. Preston (Velvet Chaff) and Haynes (Bluestem) produced about the same percentage as Marquis. Prelude was the only variety of common spring wheat which had a distinctly higher flour yield than Marquis, the difference being 2.6 per cent. All varieties of durum wheat, however, yielded a higher percentage than Marquis, except D-5 a red-kerneled durum wheat which is low in milling value.

Each wheat sample was analyzed for nitrogen and the crude protein content determined. Marquis wheat had an average protein content of 15.3 per cent., and other common spring wheats differed only slightly from it.

In concluding the experiments, flour made from each variety of wheat was baked in order to determine the expansion of strength of the dough, the quality of the gluten, and the resulting texture and lightness of the bread. The average loaf volume obtained from 37 samples of Marquis wheat was 2.342 cubic centimetres from 340 grams of flour. This was a greater volume than was obtained from any other variety of wheat except one. All varieties of durum wheat gave a smaller loaf volume than Marquis.

Every farmer should keep some sort of account system of his business. It should show the profit and loss of all of his operations.

Sometimes we can not prevent outbreaks of live stock disease on our farms, but we can and should always use every preventive measure and see that proper precautions are taken when the disease first makes its appearance.

## DANDELION CONTROL

Four or Five Sprays With Iron Sulphate Will Do the Trick.

Little attention was paid to the dandelion as a weed thirty years ago, but with the clearing up of lands and removal of obstacles to the spread of the weed great increase of the nuisance is seen in grass land everywhere. The dandelion cannot succeed on land that is well cultivated, but areas of grass, whether pasture fields, roadways or lawns, are usually heavily infested. Large areas cannot well be treated unless the use of the land is such as to permit heavy expenditures. Small areas, such as lawns and portions of golf courses, may under proper management be kept free of dandelions.

Spraying with iron sulphate, four or five applications during one season, will generally free a grass area of the pest. But the treatment must be repeated every third year. The first spraying should be applied just before the first blooming period of the dandelion and followed by two others at intervals of three weeks.

Two further applications should also be given during September or October. Spraying should not be done during the hot, dry period unless water can be applied to keep the grass growing vigorously. Grass areas that are sprayed usually blacken considerably after each application, but this burned appearance disappears after a few days. Areas that are being sprayed for the eradication of dandelion should be well fertilized, and grass seed should be applied to keep up the required number of grass plants to form a good turf. White clover is killed by iron sulphate spray, so cannot succeed under this method of dandelion control. The strength of solution to use is 1½ pounds to one gallon of water.

—L. Stevenson, Secretary Dept. of Agriculture, Toronto.

## PLEASE NOTICE

Now is the time of the year to get your Plow and Harrows put in shape. In fact, any of your farm repairing done now can give you better attention and at a closer price than in the rush season, when we would have to put on extra help, for we expect a very busy year.

We are better equipped than ever to handle your repair trade. Our new equipment and large stock, also a woodworker next door, puts us second to none.

DON H. LOVE, "The Village Blacksmith," Glencoe.

GLENCOE BRANCH, BOTHWELL BRANCH, NEWBURY BRANCH. R. M. MacPHERSON, Manager. J. E. BEATON, Manager. N. R. HENDERSON, Manager. Safety Deposit Boxes to rent at Glencoe Branch.

## AESOP'S ADVERTISING FABLE

Once upon a Time there lived a Merchant Prince who inserted a small ADVERTISING Card in his local paper. The World and His Wives rushed to the Store and the Great Battle of Push and Take occurred. The Merchant Prince did such a Tremendous Business as a Result of this one Small Advertisement that He was able to Retire and Spend the rest of his Life playing at Golf.

That is a Fable!

But it still represents some folk's ideas of advertising.

ADVERTISING won't make any man or firm rich over night, but, if intelligently used with PERSISTENCY, it will multiply customers, increase turnover, swell profits and build such goodwill for the advertiser as nothing else will.

Get the facts from "The Transcript."

## TO THE BUYING PUBLIC

A man's advertisement is your invitation and your guide. It means that he wants and appreciates your business and is proud enough of his store or service to ADVERTISE it.
