## What causes skin blemishes

*The way to remove blemishes and  
to remove their cause*

**E**VERYONE is immediately attracted by a clear skin—soft, free from blemishes and unsightly spots.

Every girl longs for it.

If your skin is not as clear as you would love to have it, find out just what is causing the blemishes that mar it. Then start at once to remove not only the blemishes, but their cause.

Skin specialists say they are tracing fewer and fewer skin troubles to the blood—and more to the bacteria and parasites that are carried into the pores with dust, soot and grime.

To keep your skin clear from the spots and blemishes caused in this

way, you must remove the blemishes you already have and *prevent* the appearance of fresh ones.

Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap and then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Then rinse very carefully with clear, hot water; then with cold.

Use this treatment *regularly* until the blemishes disappear, and supplement it with the regular use of Woodbury's in your daily toilet. This will keep your skin so firm and active that it will resist the frequent cause of blemishes.

The 25 cent cake of Woodbury's will last for a month or six weeks of any facial treatment and for general cleansing use for that time. For sale at drug stores and toilet goods counters throughout the United States and Canada.

*Send for sample cake of soap with booklet of famous treatments and sample of Woodbury's Facial Powder*
