Dear Sir:

We acknowledge receipt of your favor of the 25th instant and note your remarks about Mr. King not being in a position to advise on the methods of profit-sharing in this country.

We are in touch with the National Civic Federation of New York relative to this matter, and might further mention that we also have a copy of the book entitled "Industry and Humanity," recently written by Mr. King.

We thank you for your prompt attention, as well as your reply to our communication.

Yours very truly,
