

- Mucosa, cervical, extensive removal of, during supravaginal hysteromyomeectomy, 601
- Mucosa, uterine, blood-vessels of, alterations in, in myoma cases, 317
 condition of, with myoma, 297, 310, 316, 317, 322, 334
 in myosarcoma of uterus, 176
 small myoma developing in, 333
 thrombosis of veins in, with myoma, 320
 unusual gland shapes in, associated with myoma, 321
- Mucosa, vaginal, bluish color of, in myoma cases, 439
- Mulberry-shaped myoma, 1, 2, 5
- Multilocular cystadenoma of ovary with myoma, 346, 396, 417
- Muscle bundles, hyaline degeneration in, 85
 extension of, into uterine mucosa, 317
 heart, calcification of, with myoma, 424
 uterine, and myoma, line of junction between, 8
 condition of, with myoma, 11
 myoma extending into, 9
- Myocarditis as probable cause of death after abdominal hysteromyomeectomy, 682
 myomeectomy, 544
- Myoglia in myoma, 9
- Myoma, 1
 abdominal contour in, 436
 hysterectomy for, 588. See also *Hysteromyomeectomy, abdominal*.
 myomeectomy for, 506. See also *Myomeectomy, abdominal*.
 abdominal pregnancy and, differentiation, 473
 abdominal veins, enlargement of, with, 437
 abnormally long mesentery with, 464
 abscess of broad ligaments with, 355
 of omentum with, 637
 of ovary with, 344, 396, 637, 639
 adenocarcinoma of ovary and, 348
 of uterus associated with, 274. See also *Adenocarcinoma of uterus*.
 adenocystomata of ovary with, 346, 396, 417
 adenomyoma of round ligaments with, 364
 of utero-ovarian ligament with, 360
 adherent Fallopian tubes with, 338
 to abdominal wall, abdominal hysterectomy for, 630
 adhesions with, found at autopsy, 395
 of bladder in, rôle played by, 366
 to broad ligaments with, 354
 to gall bladder with, 464
 to liver with, 464
 to rectum with, 386
- Myoma, advanced hyaline degeneration of, with liquefaction and formation of small cysts, 88
 age of incidence of, 434
 alveolar appearance of, due to proliferation of endothelium of blood capillaries, 99
 apparently inoperable, abdominal hysterectomy for, 636
 appendicitis associated with, 463
 areas of adipose tissue in, 162, 166
 ascites associated with, 30
 autopsy findings in cases of, 394, 397, 428
 ballottement with, 469
 bilateral ovarian cysts and, differentiation, 498
 bisection of uterus for, 608
 bladder and, 365, 370, 377
 blood in uterine cavity with, 309
 blood-supply of, 6
 bluish color of vaginal mucosa with, 439
 breasts in cases of, 449, 450
 calcareous nodules in mesentery in, 464
 plates in walls of artery in, 129
 calcification of, 126, 268
 carcinoma extending into, 405
 of breast associated with, 450
 of cervix associated with, 262, 398
 of Fallopian tube with, 396
 of ovary with, 396
 of rectum with, 391, 417
 of stomach and ovary with, 396
 of uterus with, 404, 485
 associated with, cases of, 274
 cardiac hypertrophy with, 414
 cause of, 430
 cells of, 9
 changes in, suggesting sarcoma, 238, 242, 243
 transition into sarcoma cells, 188, 225, 226, 227, 228
- Myoma, cervical, 53
 abdominal myomeectomy for, 510
 adenocarcinoma of uterus and, 278, 289
 endometritis with, 302
 polypi with, 298
 cervix almost obliterated with, 441
 jammed down on perineum with, 441
 up behind symphysis with, 441
 chorio-epithelioma and, 482
 chronic endocarditis with, 414
 cleavage from uterine muscle with, 8
 clinical course of, 431
 clinically overshadowing adenocarcinoma of uterus, 275
 colostrum of breasts with, 449
 constipation associated with, 445
