There is Milk in this Cocoanut

WHILE the nations of Europe are at war, the people of Canada have a duty to their own land as well as to the Mother Country. While regretting the issue forced upon the Mother Country and giving contingents to England's aid, let us a'so give all the help we can to ourselves. Canada's own big problem is that of a country which has imported much---and suddenly finds those importations cut off.

You will get at the milk in this cocoanut at once by glancing at the following lists:

LIST NO. 1.

Some of the things we have been importing from Germany, Austria, Belgium, and France to the value of \$38,000,000 per

The Canadian manufacturers of the articles in List No. 2 have now an advantage greater than any tariff wall. The competition of Continental Europe has been withdrawn and will remain withfacturers make the most of the situation. And let the people of Canada rally around our manufacturers and help them make the most of it, for we need them and the things they make as never helps.

The immediate result of the European war, in Canada, was a

check to business.

The second result will be to stimulate business—if we keep our heads, GO AFTER business and ADVERTISE in the news-
