DIG LOSSES FROM RENEWED INTEREST
POLO SYNDICATE IN N.B. FARM LANDS

Agricultural Possibilities of Maritime Province Being More Appreciated

GOOD FOR FURNITURE

Authority Says That New Brunswick Timber is Particularly Well Suited for Manufacture of High Class Goods.

Grenfell Induced to Invest to the Extent of \$2,500,000

AMERICANS INVOLVED

Much Local Influence Was Used in Attempt to Corner Grand Trunk Securities.

London, June 20.—The "polo syndicate" in whose losses of \$2,500,000 a number of well-known Americans shared, has come to light as the most brilliant private promotion of Arthur Gordon Grenfell, son-in-law of E. Arthur Grey, whose Stock Exchange house, Chaplin, Milne, Grenfell & Co. failed on June 6, and whose Canadian agency failed two days later, with aggregate liabilities of \$1,500,000.

St. John, June 20.—One of the pleasing signs of the times is the awakened interest that is being shown in the agricultural possibilities of New Brunswick. While western land values were soaring, and the attention of speculators and others was centered on that alluring field of investment, comparatively little interest was manifested in Maritime province farm lands.

New Brunswick's Furniture Woods.

The people of New Brunswick have always had an idea that their native woods—their birch, beech, maple and other woods—were particularly well adapted for furniture making. In this view they have the hearty support of such a recognized authority as Mr. C. T. Curry, the director of the recently-established Industrial Museum at Toronto. Mr. Curry is a man of wide knowledge, and great attainments, being an archaeologist and Egyptologist of some distinction. His view of the aptitude for the work that he was selected to perform, a majority of the delegates formally decided to eliminate him, and to do so the honorary membership list was made concerning the association.

HEIR TO FORTUNE

Fredrickton, N.B., June 19.—In the States of Washington and California according to reports reaching here lies a fortune said to be \$1,000,000, left by Thomas McDonald, of Sunbury Co. near here, who left New Brunswick for the United States many years ago served through the civil war and finally drifted to the west. There he amassed a fortune, and he died recently, leaving no heirs in the land of his adoption. Inquiries have come here for news of his people and Joshua McDonald, of this city, a nephew now seems to be the principal claimant. The relationship is now being traced. Mrs. Lunge also of this city, claims to be an heir.

SAY LORIMER BANK LOOTED MILLIONS

Attorney General of Illinois To Bring Criminal Action Against Principals EX-SENATOR ACCUSED

Chicago, June 20.—William Lorimer and Charles B. Munday are charged with looting the La Salle Trust and Savings Bank of from \$2,000,000 to \$2,700,000, in the report filed to-day by Bank Examiner Hardin with State Auditor Brady. Criminal prosecution of both was decided upon following a conference between Mr. Hardin and Attorney-General P. J. Lucey this afternoon.

Attorney-General Lucey will be in Chicago to-morrow to lay the basis for the proceedings against the officers of the closed bank. He will ask for the appointment of a receiver for the institution, setting forth in his petition the charges made by Hardin in his report.

It is his intention to make the appointment of a receiver the first step in the criminal prosecution of the bank officials. The receiver will be authorized an opportunity for a more thorough investigation of the affairs of the La Salle Trust and Savings Bank than Mr. Hardin was able to make. It will also lead to a further search for collateral missing from the bank. The investigation will be of the most sweeping nature.

Charge of Conspiracy.

It is the intention of the Attorney-General to base criminal action upon a general charge of conspiracy to loot the bank and not upon any specific misdeed. In the mind of the Attorney-General the best evidence of the conspiracy is the character of the loans it is the character of the transactions which were called to the attention of the Attorney-General by Bank Examiner Hardin in his report.

A \$120,000 loan to William Lorimer for the first, second and third foul. A \$100,000 loan to J. F. Gallagher, William Lorimer's partner in the firm of Lorimer & Gallagher, on a note secured by the same bonds.

A \$100,000 loan to the Southern Traction Co. in which William Lorimer was interested, on its unsecured notes.

A purchase of \$250,000 of the bonds of the same company.

A \$180,000 loan to Lorimer & Gallagher on the notes of the firm.

A \$200,000 purchase of the bonds of the Illinois and Louisiana Land Company, of which ex-Gov. J. Y. Sanders of Louisiana is the head.

A \$100,000 loan to Littlefield Mill and Elevator Company, controlled by C. R. Munday.

A \$125,000 unsecured loan to C. B. Munday & Co., of Littlefield Mill.

A \$120,000 loan to Trux, Green & Co. This loan is secured in part by notes listed by the bank as worth \$30,000, but to which Bank Examiner Hardin gave a valuation of \$15,000.

A personal unsecured loan of \$125,000 to C. E. Ward, Lorimer's private secretary, at the time he was in the United States Senate and now a director in the Lorimer bank.

A total of \$1,573,000 is involved in these transactions which are typical of a number of others.

QUICK COAL HANDLING

Discharge Cargo at Rate of 425 Tons Per Hour at St. John.

St. John, N.B., June 20.—A quick piece of work by St. John's coal handlers is reported in the case of the Dominion Coal Company's steamer Easing, which started discharging 1,800 tons of coal at 7:30 o'clock. At 11:45 o'clock the steamer was ready for ballast for the return trip to Parrsboro. This means her coal was discharged at the rate of nearly 425 tons an hour. The quick handling here has been a factor in the Easing's making something of a record herself during the month of May, when she brought 15th. In that time she has brought seven cargoes of coal from Parrsboro to St. John, besides making a trip to Fortland, Me.
