

## Real Daylight Saving

In the harvest time every hour between daylight and dark is worth money to the busy farmer.

You get an early start in the morning intending to do a big day's work, but the

binder, mower or other implement breaks down and you must go to town for the repairs. If you have a Ford you are soon away and its speed clips two hours off the former three-hour journey there and back.

### Count up the extra half days that a Ford will save you

during the rush of seeding, haying and harvest. You will find that the Ford will save you a week or more of valuable time on your necessary trips alone.

Many times you will want to take some produce along with you. Then your staunch

Ford is ready to carry a load of 1000 pounds. How handy this would be?

Once you own a Ford and find out the many ways you can use it for business and pleasure you will wonder how you managed without it.

*The Ford is an economical investment, and a necessity on every farm.*

### The Popular Verdict

It is sometimes advisable to "follow the crowd"—to accept the popular verdict.

In respect to Life Insurance, for example, it is clear that very strong reasons must have influenced the numerous persons whose applications for protection have, for ten successive years, given The Great-West Life the largest Canadian Business of all the Canadian Companies.

Low rates—high profits—liberal policy conditions—have been the reasons.

Ask for information, and for pamphlets showing the PROFITS The Great-West Life policyholders are receiving.
