## Questions and Answers. Miscellaneous.

### Lump Jaw.

I have a heifer two and one-half years of age, which has a lump on her jaw bone about the size of a goose egg. It appears to be a growth on the jaw bone and is very sore, but shows no signs of breaking. Would this be lump jaw and what treatment would you advise or, if lump jaw, is there any cure?

SUBSCRIBER.

Ans.—This reads like lump jaw or actinomycosis. Give iodide of potassium three times daily. Commence with one-dram doses and increase the dose one-half dram daily until appetite and thirst fail, tears run from the eyes and saliva from the mouth, and the skin becomes scruddy. When any of these symptoms appear cease giving the drug. Repeat treatment, if necessary, in two months.

### Fixtures

A buys a farm from B where a grain chopper is bolted to the barn floor.

1. Can B claim the chopper?  
2. What is the law regarding machinery being fastened down?

Ontario.

Ans.—1. He is probably entitled to do so, and to remove the thing, provided he does so before the time for giving possession to A.

2. It does not necessarily belong to the freehold, as between vendor and purchaser, although as a general rule an article so firmly annexed to a building on land is to be regarded as a fixture. It depends upon various circumstances—as, for instance, the agreement between the parties governing the sale and purchase of the land, the intention of the parties to be gathered from such agreement or from the circumstances attending the deal, etc.

### Agreement not Fulfilled.

A is a machine agent, B works for him selling machinery and putting it together. C buys a machine from B, with the understanding that if it suits in every way he is to keep it and pay for it. It is a second-hand machine which B guarantees to put in first-class working order. The machine is used two hours and does not give satisfaction, and both A and B are notified. B does some further repairing but the machine works no better and C informs the agent that he does not want the machine, but both A and B refuse to take it back. C has lost the copy of his order. Can A or B make him keep the machine and pay for it when it does not work satisfactorily? The machine has been kept under cover. Can C collect anything for so sheltering the machine? W. M. J.

Ans.—If C has proof that he was not to keep the machine unless it gave entire satisfaction, and also has proof that it does not work, A and B could not collect. C will not be able to collect anything for sheltering the machine.

### Husband and Wife—Parent and Child.

1. Would an act of abuse to a wife, such as picking her up and throwing her down so as her head will strike the hard, frozen path, also living in a state of constant dread of him, be sufficient reason for her to get separation allowance? The wife's rebuking the son for cruelty to the horses was all the reason for the abuse to the wife.

2. What proportion of the property can the wife claim as separation allowance?

3. Could the father take a daughter (whom the mother has been sending to high school and who is almost through) away from school to keep house for him? Girl's age is 17 years. A. R. Ontario.

Ans.—1. It would probably not be so regarded by the magistrate. On the case coming before him for the first time he would probably just reprimand and warn the husband, and "bind him over to keep the peace."

2. She is not in a position to make claim as suggested. If a separation allowance were awarded her it would likely be in the nature of a sum of money to be paid her periodically.

3. Yes.

## It's service, not surface, that counts in Wire Fencing

Fences made of soft wire may look all right, but they are liable to get all wrong when it comes to keeping strong, healthy, active live stock within bounds.

THERE is, however, one fence that you can count on for satisfactory service year in and year out, and that is "Ideal." Made of large gauge No. 9 hard steel wire, heavily galvanized, with the verticals and horizontals clamped together with a patent lock that cannot slip, "Ideal" fence is bull-strong, hog-tight, horse-high—a real fence, every foot of it.

## Ideal Fence

The quality of the wire from top to bottom in "Ideal" Fence is all the same gauge, hard drawn steel wire, tough, live, springy, heavy wire that will be standing up doing splendid service years from now. This is a point you have to watch mighty carefully. Some fences have 9-gauge horizontals, but softer, weaker wire for the stays and locks. Naturally this takes something off the price, and it takes something off the strength and durability too, far more than the difference in price. You are going to fence for a lifetime, then fence with "Ideal" and get a lifetime's service.

We make a fence for every purpose. Write for a copy of our catalogue which describes them all.

The McGregor-Banwell Fence Co., Limited, Walkerville, Ontario.

## Easy Monthly Payment Plan

AMERICAN SEPARATOR CO., Box 1200, Bainbridge, New York

**Robert Miller** Pays the Freight.—I have now ready for sale some extra choice young bulls of gilt-edged breeding, some young bulls bred from the best milking Shorthorns known to me, and of good form as well. I have some young cows and a lot of heifers. All that are old enough are in calf to great sires, amongst them some of the best in both breeding and form that I have ever had.

I have several cows that have made wonderful records, others are in the making; will spare a few of them if desired. Two cows in the lot are making records of over 13,000 lbs. milk that is rich in butter-fat. These cows are well bred, and they are the ideal dual-purpose type. The bulls are bred from them and their sisters.

Write for what you want and you will get an immediate reply with full particulars. Stouffville Post Office, Telephone, Telegraph and Station. I live near station. Robert Miller, Stouffville, Ont.

## SALEM SHORTHORNS

Herd headed by Gainford Marquis (Imp.), undefeated in England and Canada. Sire of the winning group at Can. National, 1914, 1915 and 1916. Can supply cattle, both sexes, at all times. J. A. WATT.

ELORA, ONT.

## Imported Shorthorns

J. A. & H. M. Pettit, Freeman, Ont.

40 more imported Shorthorns have arrived home from quarantine. We now have 18 heifers in calf, and 19 cows with calves at foot, also a few good imported bulls. They are all good individuals and represent the choicest breeding. We can meet visitors at Burlington Jct. at any time if notified.

## SHORTHORNS AND SHROPSHIRE—T. L. Mercer, Markdale, Ont.

Have sold all the Shropshires I can spare this season. Present offering in Shorthorns—ten really choice young bulls, sired by Broadhocks Golden Fame = 50018 = (Imp.), and out of such noted families as Campbell-bred Claret, Nonpareils, Marr Missies, Stamfords, Crimson Flowers, Village Girls and Charming Gems, ranging from 9 to 16 months old. All are good reds and roans.

## IMPORTED SHORTHORNS

Cows and heifers in calf, or with calf at foot. Yearling bulls and bull calves. One of the best importations of the year. You will be surprised when you see them. WILL A. DRYDEN. Maple Shade Farm, BROOKLIN, ONT.

## Pleasant Valley Herds
