Draft Horses.

The misfortune that follows the un-
wise selection of animals for a herd
need hardly be dwelt upon.

Certainly, if it was not economical to
maintain an inefficient animal before
the war, now it is uneconomical and
unpatriotic.

Many men are buying the best pure-
bred stock, who in a less critical
time might have worked with ani-
mals of lower merit.

But in the present situation they do
not care to chance even the trial of
inferior animals for the sake of a tem-
porary saving in the purchase price.

Mardella Shorthorns

Herd headed by The Duke, the great, massive, 4-
year-old sire, whose dam has 13,599 lbs. of milk and
474 lbs. of butter-fat in the R.O.P. test. I have at
present two exceptionally good young bulls ready
for service, and others younger, as well as females
all ages. Some are full of Scotch breeding, and all
are priced to sell. Write or call.

crying for the good old days, the best
way to cure him is to ask definitely what
times he refers to. Does he want the old
booze days to come back? Does he want
to go back half a century when history
witnessed the spectacle of the southern
half of this continent fighting for the re-
tention of slavery? Look back where he
will there was trouble and more trouble,
but the worst trouble of all was that so
few cared what happened the other fel-
low. Public opinion has been terribly
stirred, and there never was such indigna-
tion over injustice and arrogance as there
is right now. The signs of the times
point to a new era in human history.
Wake up!—R. O. Armstrong.

Questions and Answers. Miscellaneous.

Legal Holidays.

What are the legal holidays on the
farm? J. R. S.

Ans.—New Year's Day, Christmas,
Good Friday, Easter Monday, Victoria
Day, Dominion Day, Labor Day, Thanks-
giving Day, and any other day or days
proclaimed by the Governor-General or
the Lieutenant-Governor as a public
holiday.

Tie up the Dog.

I have a good Collie dog that has been
taken to roving. I should hate to have
him killed so what can I do to keep him
at home? A. T.

Ans.—Once a dog has taken to roving
the best method of keeping him at home
is to tie him up. This may be an in-
convenience but it is the only sure
method of preventing him from getting
into trouble.

U. F. O. Office.

Where is the head office of the United
Farmers of Ontario, and what is the
name and address of the President and
Secretary? N. R. G.

Ans.—The office of the United Farmers
is located at 2 Francis Street, Toronto,
the President is R. H. Halbert, Melanch-
ton, and the Secretary is J. J. Morrison,
2 Francis Street, Toronto.

Feeding an Orphan Colt.

What is the proper mixture of cow's
milk and water to feed an orphan colt?
G. F.

Ans.—Use the milk from a fresh cow,
if possible, and from one giving milk
low in fat. To a tablespoonful of sugar,
add warm water to dissolve it, then 3
to 5 tablespoonfuls of lime water which
tends to correct digestive troubles, and
enough fresh milk to make a pint. Feed
about a quarter of a pint every hour for
the first few days, always warming it to
blood heat. The utensils used should
be scalded after every feed. As the foal
grows the amount of milk may be gradual-
ly increased and the period between
feedings lengthened.

Veterinary.

Indolent Sore.

Last winter my horse received a cut
between heel and fetlock. He has not
gone lame but proud flesh has formed and
I cannot get the wound to heal. J. B. H.

Ans.—Apply butter of antimony with
a feather to the proud flesh once daily
until it disappears, then keep clean and
dress 3 times daily until healed with a
5 per cent. solution of carbolic acid or
one of the coal tar antiseptics. V.

Indigestion in Pigs.

Pigs 5 weeks old fed on shorts, skimmed
milk, buttermilk and one feed of stock
food and free access to salt are not doing
well. Four of them fall into a heavy
stupor, respiration appears entirely sus-
pended, but the beating of the heart can
be felt. When persistently disturbed
they rally and drink a little. Any sudden
disturbance or excitement will cause an
attack. J. V.

These attacks are slight attacks of
apoplexy, caused by digestive derange-
ment. Purge each with a tablespoonful
of raw linseed oil, repeat in 12 to 14 hours
if necessary. Allow free run on grass
for a few hours daily and feed on new
milk and a little shorts. Don't allow access
to salt. V.

The essential characteristic of Short-
horns is beef, but a beef breed that
can show a herd with more than 40
cows with milk records ranging from
10,000 to 13,232 lbs. is worthy of care-
ful consideration.—B. O. Cowan.
