

Women's Ailments

There is no need whatever for so many women to suffer from pains and weakness, nervousness and sleeplessness, anæmia, hysteria and melancholia, faint and dizzy spells, and the hundred other troubles which render the life of too many women a round of sickness and suffering.

MILBURN'S HEART AND NERVE PILLS

Have Restored Thousands of Canadian Women to Health and Strength

Young girls budding into womanhood who suffer with pains and headaches, and whose face is pale and blood water, or women at the change of life who are nervous, subject to hot flushes, feeling of pins and needles, etc., are tided over these trying times by Milburn's Heart and Nerve Pills.

They have a wonderful effect on a woman's system, making pains and aches vanish, bring color to the pale cheek and sparkle to the eye. The old, worn out, tired out, languid feelings give place to strength and vitality, and life seems worth living.

Price 50 cents per box, or 3 boxes for \$1.25, at all druggists, or mailed direct on receipt of price by

GOSSIP.

On Monday of last week, says the Live-stock Report, Clay, Robinson & Co. handled at Chicago for the Billings Sugar Co., Billings, Mont., twelve loads of their beet-pulp and alfalfa-meal-fed cattle, which made excellent prices, 73 head averaging 1,428 lbs., bringing \$7.35, with 141 head weighing 1,364 lbs., at \$7.60. These are the highest prices any cattle fed in above manner have ever realized on the Chicago or any other market; the previous top point, so far as reported, being \$7.00. It is worthy of especial note that these cattle, like the eleven cars sold by the same firm for the above company on May 18th at \$6.50 to \$6.80, were fattened on beet-pulp and alfalfa meal, which method of feeding is coming to attract a great deal of interest and attention from the cattlemen of that and other sections of the West, where sugar beets are, or may be, produced. The fact that beet pulp can be advantageously utilized for fattening cattle is a comparatively recent development, and one which should tend to greatly increase the number and size of beet-growing areas.

GREAT MILK AND BUTTER RECORDS

The Superintendent of Advanced Registry of the American Holstein-Friesian Association, in his report to the annual meeting of the Association recently held at Syracuse, said:—

"During the past official year our breeders have had 2,055 cows under test for periods of not less than seven days. Of these 2,055 cows whose records were reported, 47 began their records not less than eight months after calving; while 14 of them made semi-official yearly records. Of the 1,994 ordinary records reported, 72 were extended to 14 days, and 173 to 30 days. The average of the seven-day records by ages were as follows:—

583 full aged cows averaged: Age, 7 years; days from calving, 28; milk, 463.5 lbs.; per cent. fat, 3.50; fat, 16,226 lbs.

136 senior four-year-olds averaged: Age, 4 years 10 months 15 days; days from calving, 25; milk, 455.2 lbs.; per cent. fat, 3.46; fat, 15,746 lbs.

165 junior four-year-olds averaged: Age, 4 years 8 months 28 days; days from calving, 24; milk, 428.3 lbs.; per cent. fat, 3.48; fat, 14,884 lbs.

180 senior three-year-olds averaged: Age, 3 years 9 months 4 days; days from calving, 25; milk, 397.1 lbs.; per cent. fat, 3.46; fat, 13,736 lbs.

211 junior three-year-olds averaged: Age, 3 years 2 months 18 days; days from calving, 30; milk, 383.2 lbs.; per cent. fat, 3.42; fat, 13,067 lbs.

228 senior two-year-olds averaged: Age, 2 years 9 months 18 days; days from calving, 28; milk, 344.5 lbs.; per cent. fat, 3.26; fat, 11,248 lbs.

491 junior two-year-olds averaged: Age, 2 years 1 month 19 days; days from calving, 29; milk, 306.7 lbs.; per cent. fat, 3.43; fat, 10,516 lbs.

"Considered as a single herd, these 1,994 animals of all ages, of which nearly one-half were heifers with first or second calves, produced in seven consecutive days 784,393.2 lbs. of milk, containing 27,131.428 lbs. of butter-fat; thus showing an average of 3.46 per cent. fat. Each animal produced an average of 393.3 lbs. of milk, containing 13.607 lbs. of butter-fat; equivalent to 56.2 lbs. or 27 quarts of milk per day, and 15½ lbs. of the best commercial butter per week. Figures are sometimes tiresome, but the Advanced Registry office deals wholly in figures, and in no other way can we so effectually set forth the wonderful merits of our magnificent breed of dairy cattle."

On leaving his study, which is in the rear of the church, the pastor of a church in Brooklyn saw a little boy, a friend of his, talking to a stranger.

"What was he saying to you, Dick?" asked the divine, as he came up to the youngster.

"He just wanted to know whether Dr. Blank was the preacher of this church."

"And what did you tell him?"

"I told him," responded the lad, with dignity, "that you were the present incumbent."—[June Lippincott's.

"Are you superstitious?"

"Not a bit," replied the man who is ashamed of his little weaknesses. "I have nothing to do with superstition. In fact, I have observed that whenever I begin to take notice of signs I always have bad luck."

SHORTHORN BULLS For Sale.

Farmers and Cattlemen Read This

When you cannot sell your export cattle at satisfactory prices at home, and wish to ship them to the Old Country markets, write or wire for steamer space, market and shipping information to Donald Munro, Live-stock Forwarding Agent and Commission Salesman, 43 St. Sacrament St., Montreal.

Load your cattle carefully, and bill them to me. I provide the necessary feed, insurance, etc., pay freight and all other expenses from shipping point, and give liberal cash advances on all consignments. Cattle are loaded on steamer under my personal supervision, and placed in charge of capable attendants for the ocean voyage. I represent the most reliable salesmen at all the different British markets.
