THROW THEM AWAY

That old defective Regulator and Lamp are probably to blame for the poor work your Incubator did last year. The loss on one hatch will more than pay for our new Lamp or Regulator, which make the results of hatching a certainty, not a hazard. They Fit any Incubator and Will Improve Its Work.

THE ACME COMPOUND REGULATOR is positively the simplest and most sensitive, and is sold under a guarantee that it is absolutely perfect and far superior to any other regulator on the market. Double Disc, gives double expansion and power. Patent allowed; beware of infringements or worthless imitations.

THE ACME AUTOMATIC SAFETY LAMP does away with the work and annoyance of frequent filling and trimming required by all other lamps. Large reservoir with automatic feed supplies oil to burner as needed and no faster. Indestructible wick, needs no trimming. Water jacket around burner. **POSITIVELY THE LATEST AND MOST IMPROVED LAMP MADE.**
