Of being
Up-to-Date

In every walk of life the art of doing successfully is acquired only by being up-to-date. People always look to the leaders for the latest. If you want to succeed you must be somewhere in the ranks of the First. When there comes into being something new—new, that is, and at the same time possessing merits—it pays to investigate. The cement and concrete era of construction is with us. Furthermore, it has come to stay. You want to know more about it. The *Canadian Cement and Concrete Review* for July will give you an idea of what is being done in this line.

Cement and concrete construction does not interest only those intimately connected with the industry. The subject concerns, directly or indirectly, everyone. Financiers must keep pace with the progress of up-to-date constructional methods. Millions of dollars are invested in the Canadian cement industry which is expanding rapidly.

There is only one journal in Canada devoted to the subject. This is the *Canadian Cement and Concrete Review*. It deals with cement and concrete construction in every branch. It is printed on fine art paper, and is profusely illustrated. It is edited in such a way that it is alike interesting to the builder, the contractor, the engineer, and the general reader.

† The eleventh number, now ready, contains amongst others the following articles:

Prince Albert Cement Block Industry.

Some Reinforced Concrete Systems.

Modern Concrete Bridge Bldg.

Reinforced Concrete Chimneys.

† Specimen copies sent on request, Cement & Concrete Publishing Company, 18 Court Street, Toronto.

† Subscription \$1.00 per annum in advance.

STOCKS & BONDS
