

to be ceded to the German Empire... France is to furnish an indemnity fund... a portion of the French fleet is to be confiscated by Prussia and a German army is to remain in the conquered country until the new order of things is shaped.

It is understood at Bordeaux that Jules Favre's agreement includes the whole of France... the Emperor will return to Berlin, and a portion of his army returns to Germany.

The news received this morning is of course supplementary to an article on the war, now in type, which appears in to-day's issue.—Chron., 30th ult.

FIRE IN YARMOUTH.—A new house at Chagoggin, Yarmouth, owned by Capt. Benjamin Harwood, and valued at between \$20,000 and \$25,000, was totally destroyed by fire on Wednesday morning.

THE SHIPPING OF KING'S COAST.—The Kentville Star of Thursday last publishes a list of vessels owned in the County of Kings at the end of last year. The statement embraces seventy-three vessels with an aggregate of 18,437 tons.

RELEASED.—The Brig T. W. Chesley previously reported seized in the port of St. John for an alleged violation of the Customs Laws, has been ordered released, and the Captain's bonds to be cancelled.

SHOOTING AFFRAY.—A young man named Thomas Landers was shot in the neck at Newcastle N. B. on the night of the 21st inst., by Capt. Stevenson, who is said to have acted in self defence. Stevenson is held for examination.—Citizen.

ACCIDENT.—On Thursday evening, the wife of Mr. John Gardner, sailmaker, while on her way to meeting, slipped on the sidewalk, near the residence of Mrs. Wright, in the street, and fell heavily to the ground, badly injuring her back. She was paralyzed by the fall, and had to be carried to her home, where she now lies in a painful condition.—St. John, N. B. News.

BADLY FROZEN.—Yesterday morning, very early, Robert Stubs, Esq., drove to Sackville Station with a pair of Mr. Coffey's horses. About half-past five, p. m., the team returning without a driver, a messenger was despatched with another team. Mr. Stubs was found lying in the road near Gordon's Hill insensible and badly frozen in the face, ears, and fingers.—Amble at Gazette 27th.

SAD AFFLICTION.—It is with deep regret we heard yesterday morning of the death of Nettie, daughter of Mr. S. S. Hall, who succumbed to the injuries received by the accident of the previous morning, after suffering several agonies. It appears that on getting up on Tuesday morning, she went and stood in front of an open fire in her night dress, when a spark flew out and ignited the light-colored material. Her screams were heard by Mrs. Hall, who sprang from her bed and succeeded in extinguishing the flame, but not before she had received severe injuries to her hands, and endangered her own life by exposing to the flames. The event is the more sad, inasmuch as she was a devoted wife and mother in the United States.—Morning News, 26th ult.

ANOTHER CASE OF BRONCHITIS CURED.—I was persuaded to try Fellows' Compound Syrup of Hypophosphites for Bronchitis, from which I had suffered much. I have used only three bottles, and my health is now better than it has been for years; there is a general demand for it from all parts.

Yours respectfully, W. J. NELSON. Bridgewater, N. S., 2nd March 1869. Sold by Apothecaries. Price \$1.50 per bottle, or six for \$7.50.

RAILWAY ACCIDENT.—On Monday evening, at about half-past five, a. m., the train from St. John was rounding the curve at Westmorland point—about five miles from this Station—the snow plough and two locomotives were thrown off the track. The cause was caused by ice having frozen on the rails where the water had overflowed them. The snow-plough ran off on the inside of the curve, the locomotive "Aphonia" came next, taking the opposing side, and was considerably shattered by the "New Brunswick" which chanced up its rear. The tender of the latter was left lying across the track, and the only car forming a barrier in position. Persons assembled at this station watched the slow approach of a light which they supposed to belong to the train, but acknowledged the "sold" when conductor Frites appeared carrying a lantern. Mr. Hamilton was despatched for the mails and passengers. On account of the accident and snow-storm we have had no train since Saturday until yesterday, when one arrived about noon to clear the track.—Amherst Gazette.

A late St. John paper says, that the two locomotives are badly damaged.

RAILWAY ACCIDENT.—NORFOLK HURD.—The special train from Annapolis on Wednesday evening, bringing the mails and passengers from St. John, N. B., met with a serious accident a few miles above Windsor Junction at 11 o'clock. The engine and the train were on the track, but all the cars went off and were dragged over the sleepers for a distance of about 200 yards, the passengers meanwhile being terribly alarmed, and the situation of the greatest fear was that the stoves would upset and set fire to the cars. This, however, did not happen, and the train was stopped before any injury was done to the cars. The night was extremely cold, and the situation of the travellers consequently anything but pleasant. They got on the tender and were conveyed to the Junction, where they remained until a special train was sent from Richmond to bring them in. A broken rail is supposed to have caused the accident. The Blackburn Bridge, near Suburbania, has again sprung from the frost, and trains have to pass over it very slowly.—Chronicle 27th ult.

Passengers from St. John for Halifax last week experienced considerable difficulty in getting to their journey's end. The steamer "Empress," owing to ice in the Annapolis River, was unable to proceed to Annapolis on Saturday, and landed her passengers, mails and baggage at Digby. The passengers did not get to the Junction until the afternoon, when they then hired two teams and drove to Annapolis, where the train was in waiting, and arrived in Halifax at one o'clock yesterday morning.—Recorder 30th ult.

TELEGRAPHIC NEWS. Special to the Reporter.

LONDON, Jan. 30.—Paris was surrendered on Saturday. The capitulation caused intense excitement in that city. Groups of Parisians stood at every corner furiously discussing the terms upon which the surrender was made and reproaching the act itself. All the squares of the city were filled with crowds of people, and parades, attended with bloodshed, were frequent. Many filled with frenzy and determined to wreak their vengeance on all who did not join them. Those scenes were everywhere during the whole of the afternoon of Saturday towards twilight the city became quieter and the crowds hurried off to their homes afraid of the darkness of the night. Persons who have witnessed many riots in Paris say that there never was an occasion in which the fierce animal instincts of the infuriated mob displayed themselves more terribly.

The terms agreed upon are as follows:—The city is to pay eight millions of pounds sterling as an indemnity; to sustain the whole expense of the siege, contracted by the Germans owing to the refusal of Paris to capitulate when first invested. All the troops are to be disbanded except the National Guard and a division of Regulars. None of the inhabitants are allowed to leave the city. The forts were to be invested and not allowed to resist until they surrendered. The Commanders, holding them, agreed at once to surrender, which they accordingly did—no incident of note occurring during the complete occupation of the forts by the Germans, except

that the Duke of Bavaria was mortally wounded. Despatches from Bordeaux represent that the Prussian Provisional Government located there as denouncing, in unmeasured terms, the conduct of the members of the Government who took part in the negotiations for the surrender of Paris. Gambetta has made furious speeches to the populace, and has threatened to resign.

It is understood at Bordeaux that Jules Favre's agreement includes the whole of France, except the army under the command of Bourbaki, which the Germans would not agree should have the same terms as are allowed to other forces in the field.

The news received at Paris took place on Saturday at noon. The news was instantly telegraphed over Germany, and we have intelligence that the towns were wild with joy. At Saarbrück and Frankfurt the excitement was intense and the people of the latter place, in the excess of their enthusiasm, took the French prisoners, as they were passing through, and leasted them. Throughout the Empire there were illuminations, bonfires, ringing of joy-bells, processions, and the churches were crowded yesterday to hear the thanksgiving sermons that were read.

Despatches dated to-day (Monday), noon, state that Bourbaki's army is entirely surrounded, and that escape is utterly impossible, the German army under Marshal Bismarck being in the rear of Bourbaki's army, and Von Verderer's army being in front.

On Sunday evening Bourbaki, incapable of sustaining himself under the terrible inflictions, shot himself, but is still alive, though the physicians consider his case hopeless.

(Special Despatch to Morning Chronicle.) LONDON, Jan. 28.—A bloody outbreak of the Republican mob occurred in Paris, and an attack being made on the Hotel de Ville. During the present outbreak, a crowd of young men rushed to the aid of the old French revolution. The Mobiles fired on the crowd, including one woman and two children, and several were killed, more or less severely besides several hurt.

The number of French prisoners of war in Germany on the 1st of January was 1169 officers and 33,850 men.

The 'Post' of to-day announces that the marriage of the Princess Louise with the Marquis of Lorne is fixed for the 21st of March.

LONDON, Jan. 29.—The terms of peace offered by Bismarck are the surrender of Paris, cession of Alsace and Lorraine, payment of one thousand million of francs, and surrender of 40 war ships and one colony. The military indemnity must be guaranteed by the municipalities. If this is refused, the property of rich individuals will be held in possession, as a guarantee of payment.

VANSALES, Jan. 29.—The entire garrison of Paris, except the National Guard have surrendered their arms.

The armistice expires on the 19th of Feb. New York, Jan. 29.—The 'World' special says a strong influence is at work favoring the restoration of the Imperial Family, under a regency composed of the Empress, Trocha and Favre.

LONDON, Jan. 30.—Thanksgiving services, illuminations and other demonstrations of rejoicing pervade Germany on account of approaching peace.

The Duke of Bavaria has been fatally wounded.

The contribution imposed upon Paris by the articles of capitulation is fifty-three million francs.

The despatches from Constantinople say that the Porte insists that the London Conference shall restore to Turkey the full control of the Dardanelles and Bosphorus, and refuses to entertain the most liberal international stipulation limiting the navigation of those Straits.

Capt Charles Sager who keeps a superb stock of livery horses in Portland, Me., informed us recently that he uses the Sheridan's Cavalry Condition Powders regularly in his stables, and that the horses are kept in the best of health, and that the diminished amount of grain necessary to keep his horses always in good order.

Many people, particularly children, suffer from the ear-ache; and for the benefit of such we give a sure and simple remedy, Put in two or three drops of Johnson's Anodyne Liniment, stop ear with unadvised wool, bathe the feet in warm water before going to bed and keep the head warm at night.

THE CITY ROAD MAGAZINE, is a beautiful 8vo. monthly of 48 pages, with Illustrations; the general object of which is indicated in its brief prospectus—which is as follows:—

The object of this Periodical is to supply, in short, pointed Articles, thoroughly recreative reading which shall at the same time be healthy and invigorating. The style will be attractive and popular; the range of subjects ample and diversified; the spirit free, devout, genial, and earnest. It will be faithful to the principles of those ever-venerable worthies whose names are inseparably associated with the cause of the oppressed, and who have been placed in the world as a standard of Christian and moral excellence.

The Word of God Illustrated, in brief and animated explications of Holy Writ; The Providence of God Asserted, in striking history and suggestive incidents; The Truths of God Defended, in fair and fearless exposure of the prevailing errors of the day; The Works of God Displayed, in a popular and untechnical, yet unobscurely accurate presentation of important social questions; papers on devotional, practical, and experimental godliness; and Religious and General Intelligence; with genuine Original Poetry, and Notices of New Books, will form the principal elements in a Magazine written in language which the simplest can readily understand, and which the most cultivated cannot despise. A large and efficient staff has been secured, consisting of Ministers and Laymen, many of them amongst the most eminent in their various departments, or the most distinguished in their respective departments of literature and science.

The first number shows that the promise of the prospectus will be well fulfilled. It is such a MAGAZINE as a Christian Parent should delight to have read by all the members of the Family Circle.

First Mortgage Bonds, OF THE ST. STEPHEN BRANCH RAILROAD COMPANY. GUARANTEED BY THE TOWN OF ST. STEPHEN.

Issued and endorsed under Acts 25 Vic. Caps 40 and 45.

\$1,000,000 Security for \$100,000 Debt, or \$10 security for \$1 Debt.

These Bonds were prepared under the care of full superintendents of the company's Engineer the present Judge Stevens who used the utmost caution to have them in accordance with law.

They are denominated of \$100, \$50, \$20, \$10, and \$5, and have a life of 15 years to run and bear 6 per cent interest. The coupons are payable at St. Stephen or St. John, on the first of January and July.

The Road cost \$400,000; its traffic is steadily increasing, and its net earnings fifty per cent more than enough to pay the interest of this issue which is for \$100,000. The completion of Western Extension and the Horton Branch will materially add to the receipts of the Road.

The Town incorporated for the express purpose of guaranteeing the payment of the Bonds, is only one of several First Mortgage on both Road and Town. A report from the Assessors shows that the value of the real estate of the incorporated District in 1870 was about \$600,000. In six years the value of real estate is said to have doubled in St. Stephen.

Having, before putting these Bonds upon the market, the directors of one of our most reliable legal advisers, made the fullest enquiry into the issue and condition of these Bonds, I have much pleasure in recommending them as an investment which will afford the most secure and satisfactory. They are already becoming a favorite investment; and a number of leading capitalists in this Province and in Nova Scotia have invested in them.

These Bonds are still offered at 95, which will be found to yield over six and a half per cent interest per annum. The interest is payable monthly and is charged. Persons desiring to invest for estate can find a security paying the same interest with the least risk. Particulars relative to these Bonds cheerfully furnished on application to.
