## Permarele

ration funds are how peacedly sufficient to meet the decisionly expenses attending the lighting, remaining, and repaising of our streets, it is most desirable that our Corporation, as a body, representing the whold population of our city; should judiciously tree of a persons of distinction, from the States and clauwings, who this viait Montreal during the Exhibition. We would not wish to see a rection distingtion of our public monies on this occasion; but Montreal, the principal city in the British American Colonies, should at least provide, and is called upon to provide, some inment for the distinguished strangers who will be present at the Exhibition.

We cannot be expected to entertain all who come, for thousands from all parts of America will fack in to our city—but we are expected at least to entertain a few—a little discrimination will of course be required to he agercised in selecting;—but we can see no great difficulty in this respect. Thousands of pounds will be spent by the strangers here; we shall be enriched by he strangers' money, by extending the right hand of hospitality to him - let ab also secure his friend-ship and kindliest beliags, worth more to as in our present close, relationship, with the States, than the few pounds we may expend to show that we do not disregard the claims of our enterprising neighbors to our esteem.

The time has pass d when Lands intersected by a narrow frith

Mutual interchanges of good offices But let our hospitality be kind; rather in linner is proposed to be given by Montreal on the

on. But would it not be better, in-

stead of one dinner, to give two halls ? 1st. Because a dinner must necessarily be restricted as to numbers. 2nd. Because our fair friends, the ladies, excluded from such masculine enjoyments as pub-

lie dinners. 3rd. Because two balls would enable us to extend our invitations to a greater number, to ladies as well as gentlemen, and not be attended with

plan of Messus. Cumberland and Ridout can be people and the supervision of the sum estimated by those gentlement, they will have a percentage on the stotal cost, which will amount to £400, in payment for their their supervision of the erection of the bighting; if it cannot, Mr. George Browner plan will be adopted. How comes it, we would ask, that on an expenditure of £5,000, the Government has given premiums for designa amounting to £112 10s, while for designa for the Montreal Court House, to contact the supervision of the plan for the sum of the supervision of the plan for the sum of the sum of the plan for the sum of may, for aught we knew, be a very good tawyer, but must, of necessity, be a very incompetent judge of the merits of an architectural design. In a building which is to cost so much mosely, and occupy so conspicuous a place in the safety, we aspect not only a handsome exterior, but a resevenient interior—and that, we are told, is by no means the case in the plan selected. We should like to know, in the first place, whether the decigns were submitted to any competent professional men; and, in the second place, whether the decigns were submitted to any competent professional men; and, in the second place, whether the decigns would be worth having. Perhaps some of our contemporaries can assere their questions. The Last Courts are to held their sensions in the old Gaustrament House while the new Palais de Justice is in process of erection.

GRAND SERENARS AND DIRECTOR OF RESERVANT OF MEMORY OF MALE, LANDSTREAM AR TANKER, GHT PROCESSION.

Miss Lind, by this time, has formed some idea
of Tankerdom, and if she is not astonished all
nous of their actions, their we must say, an a
genuine Yankee, (cf. German lineage.) that we

The sale of the tickets to the second concet. Saturday forenoon, was fully attended, and although the bidding was not of its so spirited as an the first occasion, jet if was steedily attended at tolerably round press. The sale of scats was by whole stips at once, no single seats being put upand the first choice was taken by the Revere at \$5.50 premium per seat. During the first hour and a half the lowest successful bid was \$3.25.—
The Bevere, Tremon, Albiou and Pavilion hotels were among the principal purchasers. The suction concluded at a quarter past 12, every slip laving been sold.

greater expense than one disner.

These remarks we lay before the public, whose voice, when its interests are concerned, should be heard.

In another place we have copied from the Globe a paragraph with respect to the Normal School about to be erected at Toronto. From this it appears that the plan sent in by Messra. Cumberland and R-lout is that selected, while the second premium of £50 has been awarded to Mr. George Browne, on Mentral. It is understood that if the plan of Messra. Cumberland and Rilout for the sum estimated by those gentles.

We understand that another large party of tra-velling Bostonians may be expected in Montreal

being eleven to eight.

Tree Dunnis Arrais.—As we ment needly from that

Trig Dunnis Arrais.—As we mentioned inst week, sheriff Bowen, on the receipt of a measige from High Countable Clark, to the effect, that "his life, was in danger from a mob, the house in which he had taken refuge being surrounded by riotines, who were bent upon dragging him one and killing him—that the rict act had here read," See, immediately repaired to the refige of that offices. In company with J. Griffith, Eng., J. P., and two or three persons acting as Special Countables, he started at once for the seems of trouble. On arriving at Melbourne, it of Tankerdom, and if she is not astonished at provided the actions. It was a most affect in the common of their are must say, an a genuine Tanker, (of Gerthal lineage,) hat, we say the are not content, because yet are sure that, the organical particular and the content in honor of Jenny Lind, and to the disprace of Resinance in Fannesis in honor of Jenny Lind, and to the disprace of Resinance in Fannesis in honor of Jenny Lind, and to the disprace of Resinance in Fannesis in honor of Jenny Lind, and the the content in honor of Jenny Lind, and the moment of Helph Contains and the was the main service of Resinance in Fannesis in the contract of the since of Resinance in Fannesis in the contract of the since of the aines around the Young Easier tables to the front of the notification, and exorted the sught several of the aines around the Young Easier tables to the front of the notification of the Sacociation, and exorted the sught several of the aines around the Young Easier tables to the front of the notification of the Sacociation, and exorted the sught several of the aines around the Young Easier tables to the front of the notification of the Sacociation, and exorted the sught several of the aines around the Young Easier tables to the front of the notification of the sacociation, and exorted the sught several of the aines around the Young Easier tables to the front of the notification of the sacociation, and exorted the sught of the aines around the Young Easier tables to the front of the notification of the sacociation, and exorted the sacociation, and exorted the sacociation, and exorted the sacociation of the sacociation of

by consequence to return. We think she showed her good sense by so doing.

She could derive no pleasure in viewing the articles on exhibition, while constantly sancyed as sine was the moment she entered the Hall. It the managers of the Fair had taken precatitionary measures to prevent the surioyance, it would have been much more creditable to them.

From Faneail Hall Mr. Stevens conveyed his guests through Washington Street out to the Highlands, where they had a fipe view of Boston. Miss Lind slighted, and had her first walk in America, enjoying the fine prospect. The party returned by Jamaica Poud, the grounds of Mr. Chickering, Mr. Perkin's Garden, the Reservoir and Linden Place.

When the carrage strived on Prospect Hill, in Roxtury Miss Lind slighted, and w Iked for more than half a mile, in preference to riding. She seemed as free as an wireleged bird. She was charmed with the main intent section of the New Normal School. There were pregent, Hon. S. B. Harrison, Rev. Jahn Jennings, Rev. Mr. Grassett, Joseph C. Morrison, Esq., M. P. P., to Staverday for enough, was fully attended, and all housed the McGill, for as site for the School. It is a block of seven acres within the City limits, and bounded by Church. Gerrard. ormer is not.

The New Normal School.

A meeting of the Council of Public Instruction for Upper Canada, was held in this City on Monday last, to decide on the competing designs for the New Normal School. There were present, Hon. S. B. Harrison, Rev. Jahn Jennings, Rev. Mr. Grassett, Joseph C. Morrison, Esq., M. P. P., J. S. Howard, Esq., and Dr. Ryerson.

The Council have concluded a bargain with the Hon. Peter McGill, for a site for the School. It is a block of seven acres within the City limits, and bounded by Church, Gerrard, Victoria, and Gould Streets. The sum to be paid for it is £4,508, and at that price it is very cheap. Designs for the building were duly tendered for, and a large number given in. The Council pronounced conditionally on their merits, as follows:

1st. Cumberland & Ribout—No prize for the design, but to be the Architects superintending the erection of the buildings, with he usual commission.

but to be the Architects superintending the erection of the buildings, with the usual consumsaion.

250 of 2rd.—William Thomas, Turonto, £30 of 2rd.—William Thomas, Turonto, £20 of 2rd.—William Thomas, Turonto, £20 of 2rd.—University Constitution of 212 logs. We understand that the total cost of the buil

ngs was limited to £8,000, and the Council deings was limited to £8,000, and the Council de-termined that, should no contractor be found to carry out Cumberiand & Ridou?'s plan for that som, Mr. Browne's design will be held as the best, should a tender be had to erect it for the sum limited. Failing Mr. Browne's, Mr. Tho-mas' plan will have the preference, and so on through the five competitors. We think this an admirable arrangement; if strike a blow at the abourd system, so gential, of drawing designs which require double the stipulated sum to exe-cute.

We understand that Dr. Ryerson leaves town

and the treaty was concluded automataly on the following terms:

The Indiana ceded all the lands from Penetangumbene, at the eastern extremity of Lake Huron, to Pigeon River, on Lake Superior, and inland to the height of land, together with the istands of the lakes and rivers, so as to include all lands still in the possession of the Indians, and for which no bargain had previously been made; excepting some small reservations, the precise location, still extent of which we have not as yet been able to learn.

diage had picked up a cast, inside of which any a

COMMERCIAL Chuckmand and Liverpool.

The chaft Price Current notices as "a new state in trade" the fact that a sale recently took place in Cincinnati of twenty casks of English lineed oil, at one dollar per gallon. We quote from the Price Current as fo

from the Price Current as follows:

"This lot of oil was shipped from Liverpool via New Orleans, consigned to S. M. Haughton, merchant, of Cincinnall, and sold as above, for the benefit of the consigned. We predicted some was the sold of the consigned with the first of the light prices in the latter, consequent noon a deficiency of seed—but we did not sup lose that the wants of our market would nitract the attention of Liverpool merchants. This shipment, we learn, paid but a small profit. The oil cost in Liverpool about 30 cents; to this add the American duty of ten cents, and 42 cents remain to pay freight, commission, and other charges. With present prices in Liverpool, and 100 @ 110c. here, the business of shipping hither might be made profitable. This matter is only parties to all the proceeds from the select of the mines—that they retained a valuable privilege never granted to their brothern in the U.S., that'e occupying for ever the coding band, the same occupying for ever the coding band, the same had a follow, excepting on those partients sold, or that may be sold by the Government to companies or individuals—that the territory for which their brothers of the United States received so large an brothers of the United States received so Jarge an annuity was of much larger extent and of much greater value. That it was a 7ich agricultural and mineral territory, and was now covered with mines and farms and villages and eites, and that it was to be expected that they should receive a far greater annuity than themselves for the b. rren and rocky hills of Canada—that while they were permitted to restain on the lands the same as heretofore, the Indians of the United States were constantly here permeaning from mines to piece; so that 100 @ f10c. here, the business of shipping hither might be made profitable. This matter is only important in showing that higher prices than are now current cannot prevail at the West, while in England them is a fore, the Indians of the United States were constantly being removed from place to place, so that all their instruction in farming and the arts was of little advantage to them.

Nuch were same of the arguments made use of both for and against the terms of the treaty, and whether the Government has driven a niggardly bargain with their Indians in this affair, as has been urged, or whether the aborigines have received a fair compensation for this immense cession of territory, we leave to others to decide. England there is an average supply of the article. The correspondence between Liverpool and Cin-The correspondence between Liverpoot and Cla-cinnati are as regular as between our city and New York or New Orleans, and the condition of our market is always well understood by the American merchants abroad."

d urged, or whether the aborigines have received a fair compensation for this immense cession of territory, we leave to others to decide.

Terrible Accident and Leas of Life.

About noon Saturday, a dreadful accident occurred at the foot of Canal street, New York. As the steamer Pacific was backing out, for her trip to Liverpool, she was struck by the tide, bringing her against the ponderous shed erected there, and tearing it down. Accounts are conflicting as to the number killed; some say three or four bodies, who were drowned, have been recovered, but the only person named is Mr. James S. Wilson, a brother of the Deputy Clerk of the Common Council, who was killed on the spot, and was dreadfully mutilated by the timers falling on him. Dr. Beach had his leg broken; H. Jones, of the Police, had his head cut open, and John Lussala is among the wounded. Fifty feet of the large shed was found to the council of the Common Council, who was killed on the spot, and was dreadfully mutilated by the timers falling on him. Dr. Beach had his leg broken; H. Jones, of the Police, had his head cut open, and John Lussala is among the wounded. Fifty feet of the large shed was found to the proper of the council of the Common Council, who was killed on the spot, and was dreadfully mutilated by the timers falling on him. Dr. Beach had his leg broken; H. Jones, of the Police, had his head cut open, and John Lussala is among the wounded. Fifty feet of the large shed was found to the proper of the council of the M. T. Mr. Foote and Fremont.
Mr. Foote directly accused Mr. Fremont of seeking and urging legislation over the gold lands of California for his own private interest and ries, of the Zist instant:

Ship F. P. Sage, at New York, from Liverpool, while close hauled, under single rected topsells, 9th ultimo, lat. 50 24, long, 14 20, was in contact with the ship The Duke, of St. John, N. B., running before the wind. The 19 was reparently desirous of speaking the F. P. S., and, when close on her beam, put his helm a port, and attempted to cross her bow. Tise, F. P. S. had cut-water and jib-boom carried away; the British ship had quarier cut dewn, milzed-mast carried away, also, main-yard wheel and round house. The F. P. S. bot top-guilant-masts and spit main-top-sail, no date, off George's Shoal, jia a hurricane which lasted 13 hours. Next day saw a shir steering W., with loss of fore and mizen top-mains and jib-boom.—[The Duke was from Quebec, bound to Liverpool.] two soon became involved in a personal struggle and fight.

Mr. Foote's blow brought blood, and there was Mr. Foote's now brought brook, and there was much confusion. The combatants were separated by Senator Clarke.

It is currently reported this morning that more serious results will follow. Mr. Fremont, it is said, has sent a challenge to Mr. Foote,

The latter is in his seat in the Senate; the former is not.
