Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chlorids, with portions of Bromids and Iodids, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupois, the affixed quantities of the following substances:—

	Grains.
Chlorid of Sodium	66.22000
Chlorid of Potassium	.72800
Chlorid of Calcium	.81000
Chlorid of Magnesium	3.45982
Bromid of Magnesium	.02016
Iodid of Magnesium	.01704
Sulphate of Lime	1.35044
Carbonate of Lime	2.06000
Carbonate of Magnesia	2.54016
Carbonate of Iron	Traces
Silica	.14350
	76.87015

T. S. HUNT,
Chemist to the Geological Commission.

Office of the Geological Survey,
Montreal, May 26, 1851.

Having compared T. S. Hunt's, Esq., analysis of the Mineral Water of the Georgian Spring with the analysis made by him of the Plantagenet Spring Water, I may mention that the Water of the Georgian Spring contains all the ingredients found in the Plantagenet, with the addition of Sulphate of Lime, differing however in some respects from the Plantagenet.

I have delayed giving my opinion of the efficacy of the Georgian Water, in order that an opportunity might be afforded of ascertaining what amount of benefit would be derived from its employment. I have witnessed beneficial results from its use, as an aperient, antacid and diuretic, and also in allaying the distressing gastric symptoms attendant upon the early months of pregnancy. I have no doubt that the Georgian Spring Water will be found equally beneficial in the cure of Dyspepsia, Scrofula, and Dyspepsia Affections, as any other Mineral Water met with in the vicinity of this city.

W. E. SCOTT, M. D.,
Attending Physician Montreal General Hospital,
Lecturer on Forensic Medicine University of McGill Coll.

Montreal, August 13th, 1851. 443

W. E. BOWMAN, McGill Street, sole Agent for Lower Canada.

JUST RECEIVED, at the Caledonia Depot, A FRESH SUPPLY of the well known INTERMITTENT SPRING WATER.

F. DELISLE,
AGENT.

ANGEL HOTEL,

DALE STREET,
LIVERPOOL.

S. TOWERS, Proprietor of the above Hotel, begs most respectfully to inform the Citizens of the United States and Canada that the "Angel Hotel" is a First Class Establishment. Great improvements and alterations have recently been made, which render it equal to any House in Liverpool.

The Family Department of the Hotel will be found to embrace everything tending to comfort, whilst to Foreigners visiting Liverpool it presents additional accommodations, as a Suite of French, Italian, and German Servants form a portion of its arrangements.

The Hotel is situated within a few yards of the Exchange, and the principal business parts of the Town, and within five minutes walk of the Docks, Custom House, and Railway Stations.

S. T. has been the Proprietor of the "Angel Hotel" twenty years, and for the last seven years the Proprietor of the Queen's Hotel, Manchester, which he is now giving up to devote all his attention to the former, where he hopes to have that kind patronage he has so long been favoured with; assuring those who patronise him that every thing will be done to conduce to their comforts, and at moderate charges.

Warm Baths, Smoking Rooms, and Billiard Rooms, are on the premises.

N. B.—Captains of Ships will find this Establishment very convenient, being one of the nearest respectable Hotels to the Docks.

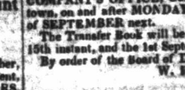
THRASHING MACHINES.



LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE exhibitors having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Williamson Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shops, and will hereafter, they trust, enable them to supply the wants of the public with promptness and despatch.

The Machines are now offered to the public, with the confidence that they will thresh and clean more grain in a day, with less expense and with greater dispatch, than any other machine now in operation.

We beg leave to say to our customers and friends, that we are again prepared to furnish them with our Thrashing Machines with an entire superior even to those heretofore manufactured by us.

Our long experience in making and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to cause all others entered to us to vanish carefully, all the improvements that could be made have been added to them, until now we feel confident in saying, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unsurpassed by any in use. And while the grain is threshed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, Wm. Johnson, will be promptly attended to.

Machines sent to any part in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

H. P. FAIRE & CO.

Witness, Letters Patent were obtained, bearing date March 5, 1850, on said Machine, the public are cautioned against purchasing, using, or manufacturing any machine after date, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by H. P. Faire, the owner of the right, giving the right to use or manufacture the same. Without such a Deed, no person will be safe in purchasing or using said Machines.

H. P. FAIRE & CO.

Montreal, July 1, 1851. 374
