At the time of the queen's jubilee the British press importing the speeches of the premier Canada seemed to be unanimously of the opinion that the most gifted son of the empire was a colonial. More recent and more stirring events, have rot makened that opinion, as we find in pers in the possession of the family. the London Times of March 15th of the present year the following: "The resuls of the British system of imperial nle, as applied to territory inhabited white races of different origin, was ever more strikingly illustrated than w the speech made by Sir Wilfrid Launer on Tuesday in the Dominion house commons. The speech would rank high in any assembly in the world as a nodel of noble eloquence, but it is not the language or act of the Canadian premier's address which will make it live in the annals of the empire. The spirit which glows through it and the thoughts which underlie it are pregnant with great issues tor England and mankind. Won't Trust the Banks.

The stocking bank, the favorite hiding place of a past generation, has now become almost obsolete, except with a very few old-fashioned people in quiet, out-of-the-way villages.

Perhaps the most popular hiding place, especially for paper money, is the big family Bible. It is quite a customary thing in out-of-the-way country houses to thus secure any valuable pa-

Origin of Titles.

The premier has been making a tour of the maritime provinces with Lady Laurier, and everywhere they have been received with the greatest enthusiasm. Sur Wilfrid's addresses to the people have been of the most unbiased and controversial character, notwithanding that we are said to be on the mof a general election, yet some of the Conservative papers are not satisfiel as they profess to see in utterances like the appended evidence of some deep, dangerous game :

"Thank Providence that we live in a ountry of absolute freedom and liberty. Let us always bear in mind our duties, for duty is always inherent in right. Our fathers had to labor to secure these rights. Now let us fullfil our part. An elderly spinster who resides in one of the many ancient houses to be found in Boston had a set of stationary drawers topped by cupboards specially built into a huge closet in one of the rooms. The lower drawer, instead of resting directly on the floor, ran on grooves about two inches above it. This lower drawer she would pull out and place large sums of money and all her jewel cases in the space left below, and then replace the drawer which she kept filled with linen.
