

# School Girls

Mothers of young girls at this period of life, or the girl herself, are earnestly invited to write Mrs. Pinkham for advice: all such letters are strictly confidential; she has guided in a motherly way thousands of young women; her advice is free and cheerfully given.

School days are danger days for American girls. Often physical collapse follows, and it takes years to recover the lost vitality. Sometimes it is never recovered. Perhaps they are not over-careful about keeping their feet dry; through carelessness in this respect the monthly sickness is usually rendered very severe. Then begin ailments which should be removed at once, or they will produce constant suffering. Headache, faintness, slight vertigo, pains in the back and loins, irregularity, loss of sleep and appetite, a tendency to avoid the society of others, are symptoms all indicating that the organs that make her a woman need immediate attention.

## Lydia E. Pinkham's Vegetable Compound

has helped many a young girl over this critical period. With it they have gone through their trials with courage and safety. With its proper use the young girl is safe from the peculiar dangers of school years and prepared for healthy womanhood.

### A Young Chicago Girl "Studied Too Hard."

"DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about 17 years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more."—LILLIE E. SINGLAI, 17 E. 23d St., Chicago, Ill.

### "Miss Pratt Unable to Attend School."

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.

Thousands of such testimonials prove that Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life. Look for the bottle with Lydia E. Pinkham's face on it, and accept no other.

**\$5000** FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Many a man and woman have been deceived by the tale that there was health to be found out beyond the sunset, and they have started out dreaming of a healthful future, never to be realized.

People who have tried change of climate in vain for the cure of weak lungs have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am alive now to do very good work.

Any substitute offered, as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

To those the experience of Mrs. B. S. Rombough, Cockburn Island, Ont. She says:

## THE LOSS OF THE NORGE

Copenhagen, July 6.—Captain Lamb, one of the highest officers of the Danish navy, said to the Associated Press correspondent to-day, that the Danish steamship Norge, which was wrecked off Rockall reef, 290 miles from the Scottish mainland, on June 28, was an excellent and strongly built ship, and that Captain Gundell was one of the most capable navigators on the Trans-Atlantic route.

Captain Lamb asserted that no fault could be found either with the captain or the crew. He said he believed that the Norge gave way with the current, and added:—

"I have had 300 trips to the United States, and my ship often gave way owing to the stream and variation of the compass. These conditions are known to all navigators."

Officers of the United Steamship Company, which owned the Norge, deny the statements made by the survivors of the wreck that the strings of the life boats were rotten, or that the supply of life belts was insufficient. They say that only recently the Norge was supplied with 300 new life belts, and that the stock on board exceeded the number of passengers carried by the ship on her last trip.
