

## PREPARING FOR CIVIC ELECTIONS

Probable Candidates for  
Municipal Honors in the  
Maple City—Many Seek  
Re-election

Ald. McColg a Candidate for the  
Mayorality—New Names Sug-  
gested for Council.

As the end of the year approaches the thoughts of many citizens are turning towards the municipal elections. The prevalence of political matters has, perhaps, somewhat relegated the consideration of civic affairs, yet a hurried canvass of citizens on Saturday enabled The Planet to learn that considerable interest is rightly taken in the coming council.

Many new names are urged, among them Arthur J. Dunn, Wm. Drader, Fred. Stone, J. T. O'Keefe, John McCorvie, Harry J. Stevens and others. Interviews with the present aldermen resulted as follows:

Ald. Feggett was decidedly non-committal and has evidently not decided what he will do. He said: "I have not yet made up my mind whether I will be in the field or not. It is rather early for me to decide."

Ald. Scullard has not yet decided what he will do, although it is quite probable that he will again be in the field for municipal honors. He said:

"For the present my mind is much unsettled. I have not made any decision as yet, although it is quite probable that I will again come before the electors in the coming municipal campaign."

Ald. G. G. Martin is almost sure to be a candidate again for the position of alderman, although just at present he talks of dropping out of the contest. He said:

"I don't know just now whether I will be a candidate for alderman or not. I cannot answer that question at present. If I am a candidate it will be much against my will according to the way I feel now. Of course, too, it also depends upon whether the people want me or not. I have found that during the term I have lost considerable time, which is of value to me. However, when the elections come around I may get excited and change my mind. There is a great fascination in electioneering and when the time comes, or I may want to get in the swim again."

Ald. Harry Westman is at present in St. Louis and it was impossible to get an answer from him. It is quite likely, however, that he will be found seeking municipal honors.

Ald. Tye will, of course, be out of the race in the coming municipal contest as he is leaving the city. Ald. Tye has been a good servant of the city during the time he has been at the Council Board and his departure from both the Council and the city is much regretted.

Arthur J. Dunn, who made such a splendid showing at the election, has already declared himself throughout the columns of The Planet and he will be a strong factor in the race.

Ald. A. B. McColg announces himself an aspirant to the Mayor's chair. It has been a matter of public opinion for some time that Mr. McColg would be a good mayorality candidate this year and he has finally announced himself to this effect. He said:

"Yes, I hope to be a candidate for Mayor. I trust the people are well enough satisfied with the efforts I have put forth in their behalf during the past five years at the Council Board and that they will support me clearly to give me their support. I can publicly assure them that if I am elected to that honorable position I will try to do what I have ever endeavored to do—promote everything that will be of benefit to our thriving young city. As far as the Board of Works is concerned this year we have endeavored to complete all works in a reasonable time and we are now practically finished, our money being expended. There are other works that are badly needed, and whether I am elected or not I hope that the incoming Council will attend to them. Later on we, as a Board of Works, intend to give an itemized statement of all public works done and completed this year and the people then can judge whether or not we have been faithful in looking after the interests and advancement of our city."

Ald. Marshall, who has been the financial minister during the past year, was non-committal.

"I haven't considered the matter very much," he said, "but the probabilities are that I shall run again."

Ald. Edmondson, who is at present advocating and pushing through the new market scheme that is meeting with so much favor, said, when interviewed:

"I have not yet made up my mind, but you can say that I shall quite likely run again. I should very much like to see this market building scheme go through."

Reading between the lines it is almost clear that Ald. Edmondson will be a candidate.

Ald. Mounter was not in when the reporter called, but it is likely his friends will again urge his candidacy.

An old colored brother, seated far back in a crowded experience meeting, stood up, and then gained the attention of the leader and said:

"Kin I say jes' one word? You can, sir, said the leader. Well, go ahead."

Then with all his might he shouted: "Hallelujah!"

The man who procrastinates struggles with ruin.

## PUTTING IT STRONG BUT DOESN'T IT LOOK REASON- ABLE?

This may read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, nor is it such a difficult matter as at first appears.

The trouble with Dyspepsia is that they are continually dieting, starving themselves, or going to opposite extremes, or else deluging the already overburdened stomach with "bitters," "after-dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight, temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now, how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy, but its success and popularity leaves no doubt as to its merit. The tablets will digest the food anyway, regardless of condition of stomach.

The sufferer from Dyspepsia, according to directions, is to eat an abundance of good, wholesome food each meal, and the result will be that the food will be digested no matter how bad your Dyspepsia may be, because as before stated, these tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1-600 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may never be so weak, yet these tablets will permit the work of digestion and the body and brain will be properly nourished, and at the same time a radical, lasting cure of Dyspepsia will be made because the much-abused stomach will be given, to some extent, a rest. Your druggist will tell you that of all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

## Shot in the Thigh.

London, Nov. 19.—A shooting accident occurred in the Springfield woods Thursday afternoon about 3 o'clock. A young man, 19 years of age, named David Berdan, residing at 104 Colborne street, was out hunting with a companion, when his gun accidentally went off, the shot lodging in his thigh. The shot has not yet been extracted. It is as yet impossible to tell how serious the wound may turn out.

## British Royalty in South Africa.

Princess Christian's journey to the Cape emphasizes the close connection between the royal house of England and South Africa. A simple inscription in the cemetery at Pretoria tells its own story—the death of the prince's soldier son, whilst on active duty—and gives the cause of the long voyage. The incident recalls to mind the death of another gallant young prince—the heir to the shadowy Empire of Napoleon III.—and the long desire the aged Empress Eugenie had to visit the spot where her son had fallen under the assassin of the Zulus. That, however, reasons of age and health did not permit.

Christian that melancholy pleasure is now almost hers is the first daughter, but second child, of Queen Victoria to become personally acquainted with South Africa. Many years ago the late Duke of Saxe-Coburg, then a young naval officer, visited Cape Colony, as the names testify. The tour of the Prince and Princess of Wales in Natal and Cape Colony is in public remembrance; nor must mention be omitted of the brothers of the Princess of Wales who served in the Boer war. And in his turn Prince Arthur of Connaught has been with his regiment at Pretoria. It is not in South Africa alone that the royal family has paid the price of life in the service of the Empire. The death of Prince Henry of Battenberg in 1896 was another reminder that the greatest enemy in all campaigns in tropical countries is disease. Fever was more fatal than the bullets of the Egyptians at Tel-el-Kebir proved in 1882 against the Duke of Connaught, then in command of the 90th Brigade. Thus in north and west and south the Dark Continent has had witness of the identity of interest between members of the reigning house and the Empire at large. Prince Francis of Teck, it may also be mentioned, went through the Sudan campaign of 1898 under Lord Kitchener.

The greatest of faults is to be conscious of none.

"The blood is the life." Science has never gone beyond that simple statement of scientific fact. But it has illuminated this statement and given it a meaning ever broadening with the increasing breadth of knowledge.

When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Foul blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery.

When the blood is pure, body and brain are alike healthy and life becomes a daily happiness.

Free.—Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to defray expenses of mailing and coupons. Send 31 cent stamps for paper cover, or 50 stamps for cloth. To Dr. R. V. Pierce, 603 Main Street, Buffalo, N. Y.

## Not New.

Don't think our Vapo-Cresolene is something new, for it isn't. For more than twenty years it has been extensively used for all forms of bronchial and throat trouble. Mrs. Ballington Booth said of it, years ago, that "No family where there are young children should be without Vapo-Cresolene." You breathe in the vapor, it goes all through the bronchial tubes, soothing, healing, curing. It's pleasant, safe and economical.

Vapo-Cresolene is sold by druggists, or sent express prepaid on receipt of price. A Vapo-Cresolene outfit, including a bottle of Cresolene, 40¢. Send for Free Illustrated Booklet, LAMSON, MILLER CO., Ltd., Agents, 288 St. James St. Montreal.
