

The Daily Planet

A. STEPHENSON, PROPRIETOR.
 THE PLANET
 Business Office 55. Editorial Room 100.

MONDAY, NOVEMBER 5, 1906.

LIVE TOPICS

The letter on the San Jose Scale question contributed by Gordon Boles, and published in Saturday's Planet, should attract the attention of every person who is interested in the successful management of the fruit growing industry in this province. As Capt. Boles points out, co-operation is supremely necessary in coping with this dangerous pest, which threatens to destroy the splendid fruit trees of Kent county. The Government is willing and anxious to assist the farmers in ridding the country of this San Jose Scale, and when the servants of the people are doing their duty in this respect the people themselves should take enough interest in their own welfare to do the work which is necessarily required of them. Every orchard owner in the county should, in the interests of both himself and his neighbor carefully examine and look after his fruit trees, and if they are affected the necessary remedies should be applied. Now is the time for action. It has been proven that spraying with the solutions which have, from time to time, been generously described by Mr. Boles, will cure the affected trees. The farmers should treat their orchards now, before they are completely ruined or part control.

With last week's issue the Ridge-town Dominion commenced its 12th year of publication. During the past eleven years this paper, under the able control of Editor P. H. Bowyer, M. P. F., has been a great influence for good, both in this county and throughout the province at large. The Dominion is one of the brightest and best papers on the Planet exchange list. It not only serves as a valuable news medium to the district it covers, but its editorials from the talented pen of Mr. Bowyer are recognized as the cleverest and most intelligent writings in the newspaper life of this province. The Dominion should live to see many more successful anniversaries.

The young ladies who occupy positions on the teaching staff of the Woodstock public school have sent a unanimous petition to their trustees, asking for increases in their salaries. It is quite probable that the Board will be compelled to either grant the request or close up their schools. The teachers feel that they cannot afford to teach for small city wages when they can easily secure positions in country schools at good salaries, ranging from \$450 to \$500 a year. In this they have a good argument. Schools are plentiful, and teachers are scarce, so that the members of the teaching profession are, to a great extent, independent. The teacher's work is important, and it is just as important in the city as it is in the country. If a young lady is qualified to receive an important position, she is deserving of a salary the size of which shall be in proportion to the work she accomplishes. It is quite likely that the Woodstock Board will also have to deal with the subject of increases for their male teachers in the near future.

WHAT NOT TO EAT.

The Stratford Beacon man is evidently a careful eater. Recently he has been delving into the records of scientists, in an endeavor to find out just what sort of food is most suitable to supply the needs of the human body, and the result as given to his readers, leaves him in a worse quandary than ever. It would seem from scientific research that a man takes his life in his hands every time he sits down to a dining table. There are a few of the foodstuffs and the dangerous properties they are said to contain:

- Eggs—Typhoid fever.
- Grape seeds—Appendicitis.
- White bread—Dyspepsia, alum.
- Water—Asiatic cholera and typhoid fever.
- Milk—Typhoid and tuberculosis.
- Canned goods—Potatoes poisoning, copper, arsenic and sulphuric acid.
- Fish—Leprosy.
- Preserved fish—Boric acid.
- Oysters—Typhoid fever.
- Strawberries—Microbes of insanity.
- Tomatoes—Gout and rheumatism.
- Sweet cider—Benzoic acid which destroys the appetite.
- Fresh meat—Potatoes poisoning.
- Catsup—Coal tar dyes and salicylic acid.
- Butter—Coal tar dyes.
- Tea—Tannin and copper.
- Coffee—Copper poisons, bread and sawdust.
- Pepper—Cochineal shells, sawdust, and clay.
- Apples—Coatings of coal tar dye containing fluids.

Potatoes—Coatings of alum.
 Jellies and preserves—Aniline dyes and by-products of vitriol.
 Honey—Glucozo.
 Pate de foie gras—Hog livers.
 Maple syrup—Pumpkin juice.
 White wine—Sulphurous acid.
 Red wine—Salicylic acid.
 Mustard—Common flour and tumors.
 Beers—Kidney diseases.
 Liquors—Alcoholic poisoning.
 No wonder the Stratford Beacon submits the puzzling query, "What is there left for us to eat now?"

AGAINST LOCAL OPTION

Merlin, Nov. 2.—A petition is being circulated here to present to Raleigh council praying that a by-law be submitted to the ratepayers at the coming municipal elections to repeal the local option by-law now in force in the township.

Anti-prohibitionists claim that local option, which has been in force here for three years, has been an utter failure, and that as much or even more drinking has been done during that time than would have been done under the license system.

People on both sides of the question are of the opinion that even now there are three or four places in town where liquor is sold without a license.

THE POSTPONED RACES

The postponed races, held over from the fair met at the Chatham Driving Club, were pulled off Friday afternoon. The attendance was good and the events were spirited and interesting. They resulted as follows:

220 Pace or Trot.
 Deitie, V. B. Woodruff, Whitby, 2 1 4.
 Sidney Mac, L. Edmonds, Blenheim, 2 2 4.
 Jessie Rogers, J. Yard, Sarnia, 3 2 1.
 Ate Belle, G. Wright, Chatham, 4 6 8.
 Jerry Dillard, R. Mosan, Merlin, 5 6 3.
 Mattie Weaver, W. McMaster, Ridgeway, 6 7 5.
 Hattie Hall, 7 4 dr.
 Time—2:21 1-2, 2:22 1-4, 2:23.
 Named Race.
 Emancipation, T. Williams, Chatham, 1 1 1.
 Nellie Rogers, D. Payne, Chatham, 2 2 2.
 Gode, F. Brisco, Chatham, 2 3 4.
 Collegian, D. McLachlan, Chatham, 5 4 3.
 Fannie Simon, T. Ratley, Chatham, 4 5 6.

STOMACH'S IMPORTANCE

How To Strengthen It So That It Will Act As It Should.

The stomach is the principal organ concerned in the digestion of food. If it is weak, inactive or out of order and unable to properly digest the food, the body will soon be in a state of semi-starvation.

Then, too, when the stomach is weak, the food is not properly digested and lies in it for hours, decomposing, fermenting and forming poisonous gases and ptomaines that are absorbed into the blood, poisoning the system and impoverishing the blood.

To enjoy good health, it is absolutely necessary that the stomach and digestive organs should be strong, and no other remedy equals Mi-o-na in strengthening and giving tone to the whole digestive system.

Relief from the use of Mi-o-na is permanent and lasting. Use Mi-o-na for a few days, and the digestion will be good, the appetite keen, and there will be no nausea or distress after eating, no sleeplessness, no nervousness, and the headaches, backaches, and disturbed heart action that are the direct result of a weakened stomach will soon be overcome.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write to-day for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give you our case his careful and personal attention without charge. The R. T. Booth Company, Buffalo, N. Y.

Join the Deathless Army.

Winnipeg, Nov. 3.—Leonard Lucas, who for over 18 years has been a patient in the hospital here, died in his chair yesterday. He served in the Crimean War, fought at Inkerman and Balaklava and as a sergeant in the British army witnessed the charge of the Light Brigade. He was 81 years of age.

English Philanthropist Dead.

London, Nov. 3.—George Herring, the noted English philanthropist, who, in the course of his life contributed large sums of money to hospitals and charitable enterprises, died yesterday after an operation for appendicitis.

WHEN THAT COLD COMES

How is it to be cured? This method is simplicity itself. Rub the chest and throat well with Neerviline, use it as a gargle and take some in hot water before retiring along with one of Dr. Hamilton's Pills. Next morning find you refreshed, free from cold and bright as a dollar.

These household remedies are wonderfully successful, and certainly won't fail in your case. For sale at all dealers.

Nothing for the best won't bring it unless you work for it.

Loudly professed friendship usually comes to an early end.

A fellow may feel that he is always right until he is left.

PUPILS ENTERTAIN

Pleasant Function Given by Scholars in Dresden-New Bank Building.

From Our Own Correspondent.

Dresden, Nov. 2.—The entrance class gave a very successful concert in their school room on Friday afternoon. The room was decorated with branches of autumn leaves and the pupils gave a number of excellent selections, including a dialogue and several character songs.

The building of the new Bank of Commerce is progressing nicely. The stone blocks are being placed in position. The handsome structure will be a great addition to the town when completed.

Mrs. Joan H. McVean entertained a number of guests at cards on Thursday evening in honor of Mrs. J. W. Sharpe's guest.

Wilbert Forsaie has purchased the butcher business of A. Wicks, the auctioneer.

Chairman Charles Tassie is able to be down town again after his recent illness.

James Anderson is recovering from his severe attack of typhoid.

Mr. Peace, manager of the Dominion Bank, attended a dance in St. Thomas on Friday evening.

Mrs. Geo. Keyes, of Ot Springs, is the guest of Mr. and Mrs. Frank Birch.

The members of the Children's Aid Society met at the residence of Mrs. (Dr.) Wiley on Thursday evening and transacted important business.

Charles Simpson has returned from a few months' visit in the Northwest.

Mrs. Ryan, of Detroit, was in town on Thursday on business connected with her property, the Westcott House.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded. 50 cents.

IT SOLD HIGH

The King Cobalt Mining Co. have sold their claim at somewhere near the magnificent sum of \$250,000. The news will be of much local interest, as a number of Chathamites held large shares in these stocks. Among the local men who are interested are Messrs. J. G. Kerr, G. W. Cowan, Fred Stone, W. E. Gundy, E. R. Smith and W. E. McKinnon.

The claim was purchased some few years ago at \$50,000.

BABES IN TROUBLE

The Babes in Toyland theatrical company, who played at a good house at the Brisco recently, are reported to be in financial difficulties in Hamilton. Two cars of scenery were attached by A. J. Small for money advanced to bring the company from Detroit to Chatham and Hamilton, and the Canadian Transfer Co. is holding the trunks and small baggage for unpaid charges.

The company have disbanded in Hamilton. Thirty-five people were stranded, most of the chorus girls being penniless.

Al Root, the manager, has wired for money to send the people to New York. Miss Vassar, of New York, backed the show, which started out with 35 people.

A CORN CARNIVAL

The Corn Carnival given last evening under the auspices of the young ladies of the League of Victoria avenue church, proved quite successful from every point of view. The attendance was very large, and it is the expectation of those interested that about thirty dollars or more will be cleared over and above expenses.

The S. S. Hall, in which the concert was held, was most appropriately decorated for the occasion with Jack-o'-lanterns, pumpkins, false faces, etc., while those who waited on the various booths were dressed in grotesque costumes. The booths did a good business during the half hour set aside for social intercourse.

The program, which was presided over by Rev. E. B. Malott, was as follows:

Reading—Mrs. Verlyn Lamont.

Vocal solo—Miss Margaret Sherman, Tilbury.

Instrumental trio—Misses Fern Sagar, Pearl Thompson and Emily Moore.

Vocal solo—Mrs. Cooper.

Reading—Mrs. Verlyn Lamont.

Vocal solo—Mrs. Milton Bogart.

Violin duet—Dr. DeCov and Mr. Thomas Morrison.

Vocal solo—Miss Alice McPherson, Blenheim.

Cornet solo—Mr. Jack Collins.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in a safe and reliable way, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

The fruits of a man's industry don't always grow on his family tree.

Self-love has no common sense.

MRS. MILLER DEAD

Prominent Blenheim Woman Passes To The Great Beyond—Interesting Items.

(From Our Own Correspondent.)

Blenheim, Nov. 3.—Mrs. Anne Miller died on Nov. 1st, at the age of 65 years. The deceased has been in poor health for some time, although her death was rather sudden. The funeral took place this afternoon from the Presbyterian Church at two o'clock. Rev. G. Gilmore officiating.

W. H. Lugaden received word from Toronto this week of the death of his mother. He left for that city on Tuesday. The funeral took place on Wednesday.

Mrs. S. L. Johnson, of London, and Miss Hattie Hall, of Thedford, are visiting their sister, Mrs. W. J. Baird.

Geo. W. Campbell has bought A. E. Rowe's house on Sandys St. and is removing it to the lot adjoining the C. A. Williston property.

Miss Head, who has been in attendance on Mr. T. B. Shillington, left for her home last evening. Mr. Shillington is progressing favorably.

Mr. and Mrs. Marvin Reynolds and family have removed to Stratford. Mr. Reynolds expects to have employment in Mr. H. L. Merritt's lumber mills.

The many friends of Miss R. Goldworthy will be pleased to hear that her health is much improved since the recent operation she underwent at Chatham General Hospital.

Dr. and Mrs. S. G. Storey entertained on Thursday evening at progressive euchre.

Mr. and Mrs. N. McLeod have returned from their wedding trip and will shortly commence housekeeping on the corner of Hannibal and Sandys Sts.

Mr. M. Shover has rented T. H. Jones' house at the east end, and will move into it right away.

Preventions, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage."

Preventions are toothsome candy tablets. Preventions dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them.

Preventions are thoroughly safe for children, and as effective for adults. Sold and recommended in 5 cent and 25 cent boxes by

McGill Again Remanded.

Toronto, Nov. 3.—Charles McGill appeared in the Police Court yesterday, Ontario Bank accounts are being prepared for use in the case.

Barlow Cumberland, chairman of the shareholders' committee, had an interview yesterday with Curator Staver.

Legislator Married.

Cornwall, Nov. 3.—John A. McMillan, M. P. P. for Glenora, was married at St. Margaret's convent, Alexandria, on Wednesday to Florence, daughter of E. L. MacDonald, Rev. Father John McRae officiated. The bride was given away by her brother, John N., her sister, Mary Bell, being bridesmaid and Donald John MacDonald, groomsmen.

The couple went to Vancouver on their wedding trip. They will reside at Alexandria.

The new Pure Food and Drug Law will mark it on the label of every Cough Cure containing Opium, Chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe Cough Cure, and get it pure, simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it.

Sold by C. H. Gunn & Co.

Copper Kills Noxious Germs.

Copper is a marvelous preventive of disease. If we returned to the old copper drinking vessels of our forefathers, typhoid epidemics would disappear, writes a filtration expert. Examine a copper cent under the microscope and you will find it altogether free from disease germs. Examining gold and silver coins and you will find them writhing and torturing germ mass. Yet copper coins pass through dirtier hands than gold and silver ones. You'd think they'd be alive with micro organisms. But no. Copper kills germs. Diphtheria and cholera cultures smeared on a copper cent die in less than two hours.

The workers in the Revere copper works during the last epidemic of cholera in Massachusetts were immune, though friends and relatives fell on all sides of them. Why were they immune? The copper, with its strange power over disease germs, protected them.

Water alive, with cholera and typhoid germs, has been placed for an experiment in copper vessels, and after standing seven hours this water has been found safe to drink—every germ dead.

We should return to copper drinking vessels. Furthermore, canteens for the use of soldiers and sailors in the tropics, where cholera abounds, should be lined with copper, and thus nearly a young man's life would be saved.

Copper in the form of copper sulphate will kill off typhoid germs in reservoirs and great bodies of water. It has frequently done so without harming the drinking qualities of the water in any way.

Like a farmer, every chicken is interested in its own crop.

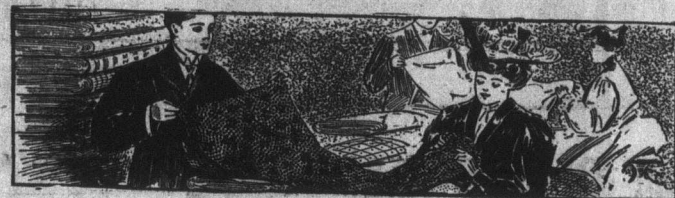

The foundation of true joy is in conscience.

Yard Wide Black Taffeta Silk—Rich heavy weight, splendid wearing quality, best dye and finish, full yard wide, special a yard \$1.00.

The Northway Co., Ltd.

CAUCASIAN AND NEGRO.

They Are Fundamentally Opposite Extremes in Evolution.

The Caucasian has the subjective faculties well developed; the negro the objective. The Caucasian, and more particularly the Anglo-Saxon, is dominant and domineering and possesses primarily with determination, will power, self control, self government and all the attributes of the subjective self, with a high development of the ethical and aesthetic faculties and great reasoning powers. The negro is in direct contrast by reason of a certain lack of these powers, and a great development of the objective qualities. The negro is primarily affectionate, immensely emotional, then sensual, and, under provocation, passionate. There is love of outward show, of ostentation, of approbation. He loves melody and a rude kind of poetry and sonorous language. There is undevoted artistic power and taste—negroes make good artisans and handicraftsmen. They are deficient in judgment, in the formation of new ideas from existing facts, in devising hypotheses and in making deductions in general. They are imitative rather than original, inventive or constructive. There is instability of character incident to lack of self control, especially in connection with the sexual relation, and there is a lack of orientation or recognition of position and condition of self and environment, evidenced in various ways, but by a peculiar "bumptiousness," so called by Professor Blackshear of Texas, this is particularly noticeable.

The white and the black races are antipodal, then, in cardinal points. The one has a large frontal region of the brain, the other a larger region behind; the one is subjective, the other objective; the one a great reasoner, the other pre-eminently emotional; the one domineering, but having great self control, the other meek and submissive, but violent and lacking self control when the passions are aroused; the one a very advanced race, the other a very backward one. The Caucasian and the negro are fundamentally opposite extremes in evolution.—Robert Bennett Bean in Century.

WE WANT YOUR COAL ORDER

And WILL SAVE YOU MONEY. We carry only the highest grade of coal and sell it at the same price others get for inferior coal. Our coal goes further, hence the saving.
