Shediac.

Personal.—Business.—New Public Buildings, &c.

—Paschal Poirer, Esq., of Ottawa, is summing here.

—St. Andrew's parish, at the station, has no rector at present.

—Ten rum shops in full blast in Shediac is evidence of how the Scott Act works here.

—Some eighteen ships are expected at the Point in September and October.

—Mr. J. P. Johnson, foreman for Messrs. Harper & Webster, is erecting a handsome cottage for himself on the Mill place.

—The lobster catch in the Shediac district is reported by Overseer Deacon to be fully as good as previous years.

—Mr. Dositho P. White recently launched a neat schooner, the "Matilda," of 44 tons, for coasting purposes. She is being rigged.

—Mr. Clarence Webster, A. B., leaves in the barge "Mariner" for Glasgow. He intends studying medicine at the University of Edinburgh.

—Wm. Bell, an old bachelor, living in a house near the station was last seen alive on Friday week. On Sunday, some boys went into the house and found him dead.

—Summer visitors still linger about the Veldon House, which has been unexpectedly full this season. Mr. Weldon's half tide bathing house has been voted a success by a large majority.

—Messrs. Harper & Webster's business has been unusually extended. Their boot and shoe sales will amount to \$90,000 or thereabouts, which is outside of their general supply business. They employ over 70 hands.

—The R. C. congregation of Shediac were gathered at the bell weighing 1,027 lbs., for their chapel. It will arrive on 6th September, and on that occasion a picnic will be held on 6th and 7th.

—The mackerel failure is a severe blow to the R. I. Island fishermen. The fish are plenty but they will not bite. At Point du Chene, where thousands of barrels are handled at this season, the receipts are numbered by hundreds only.

—Tail's Hall is most creditable to Shediac. It has a deep stage, dressing rooms, comfortable seats for about 500 persons on raised floors. Shediac is indebted for this institution to the public spirit of the late Alexander C. Talbot.

—The new Masonic hall promised to be ornamental as well as useful. It is 50x36. The upper flat will be dedicated to the solemn mysteries, that are usually ascribed to Masonic rites, such as riding the goat, &c.

—The lower flat will be divided into two sets of offices for professional men. Mr. Wm. Geo. Bateman is the builder. The building committee are Messrs. A. C. Smith, D. S. Harper and R. C. Tait.

—A new parsonage house at the Cape is in the hands of the architect. It will be built in English Cottage style with gables and verandas, and will present an attractive appearance. The site is on the old location, which commands a fine view of the bay and the town.
