

NEWS OF THE WEEK

The jurisdiction of the mounted police is being extended from British Columbia, the duty of preserving the peace along the line of the Crow's Nest pass having been assigned to the force.

It is stated in railroad circles in Montreal that A. H. Harris, district freight agent of the Grand Trunk Railway, whose offices are in the board of trade building, has been offered the new position of traffic manager of the Intercolonial railway, with headquarters at Montreal.

The department of state at Washington has received from the British Government, through the embassy at Washington, medals for the mate, cook and two seamen of the American vessel Geo. S. Boutwell of Gloucester, Mass., in recognition of services rendered to the shipwrecked crew of the British steamer Warwick last October.

Kate Crowe, a domestic employed by W. A. Hickson, at Newcastle, N. B., was found drowned in a water tank at her employer's residence on the morning of the 17th. The tank was only two feet deep and had only eighteen inches of water in it. The girl had been out and the back of her head was out of the water. An inquest was held.

"ONLY THE BEST" Should be your motto when you take a medicine. Do not be induced to take a medicine when you call for Hood's Sarsaparilla. Experience has proved it to be the best. It is an honest medicine, possessing actual and unequalled merit, and profits by the experience of other people.

HOOD'S PILLS are the favorite family cathartic, easy to take easy to operate. The Dominion Cotton Mills company, Montreal, have decided to abolish the use of steam for power purposes, and the other day they gave a contract to the Lachine Rapids Hydraulic and Lund company, by which the latter will supply electricity for power for a period of twenty years. The contract represents an expenditure of over half a million dollars and is one of the biggest deals of the kind ever put through in Canada.

Ernest Edson, who left Bennington, Vermont, July 20 for Lincoln, Neb., on an unnavigable river in a boat of his own construction reached there safely on the 17th inst. Edson, who is 20, resolved to try his fortune in the west, but was too poor to go by ordinary means and routes of travel. The boat was 12 feet long and 2 feet wide, and was provided with oars and rigged with a sail. All Edson took in the boat was \$10 in money and the clothing he wore. He landed at different places to earn money to continue on the voyage, sleeping in the boat at night. Entering the great lakes at Buffalo he reached Nebraska by the Mississippi and Missouri rivers. Edson's route, covering 2,300 miles. He suffered terribly at times from hunger, storms and exposure, but was greeted as a hero in many of the places through which he passed. Edson's undertaking is one of the most original enterprises undertaken by a Vermont-er in many years.

TO CURE CATARRH

Do not depend upon snuffs, inhalants or other local applications. Catarrh is a constitutional disease, and can be successfully treated only by means of a constitutional remedy like Hood's Sarsaparilla, which thoroughly purifies the blood and removes the scrofulous taint which causes catarrh. The great number of testimonials from those who have been cured of catarrh by Hood's Sarsaparilla prove the unequalled power of this medicine to conquer the disease. If troubled with Catarrh give Hood's Sarsaparilla a fair trial at once.

This shows a great increase over the output of the previous year. There are now thirty-two factories in successful operation in summer, and nineteen in winter.

FOLLOWING closely on the heels of the great London fire news comes from Montreal, a startling one—a terrific fire broke out there on Sunday last and in a very short time did enormous damage. It started at the warehouse of Craig Williams in Elm Street, in the very heart of the city. A strong wind was blowing and fiercely fanned the flames which rapidly engulfed building after building, despite the desperate efforts of the firemen. A block bounded by Elizabeth, Flinders, and Swanston street front were destroyed within three hours. The burned section included many of the large business houses in Melbourne. Loss will reach \$5,000,000 while trade involved has received a serious setback. Hundreds of employees of all sorts have been suddenly thrown out of employment.

On Friday afternoon last, while Mr. Charles McGregor, contractor, of this city, and two of his men, Fred Evans and Nathaniel Smith, were at work shingling the roof of a house on Weymouth Street, the shingling gave way and all three were precipitated to the ground. A barn in the vicinity broke the fall of McGregor and Evans, but Smith fell the entire distance and his head struck the ground with great force. He was picked up as quickly as possible and taken to the nearest house, that of Mr. M. J. Moran. Medical aid was summoned and in about a half hour time the injured man was removed to the hospital. He was seriously injured and was unconscious. On the following day he was reported to be doing as well as could be expected. Evans had his ankle injured and was incapacitated to work for some days. Mr. McGregor sustained no injuries.

Rev. PATRICK BRADLEY, parish priest at Cape Basil, N. B., died quite suddenly at his home Wednesday morning last. It is said that his death is due to suffocation. It appears that he was accustomed to read after going to bed, and it is supposed he fell asleep on Tuesday night and left the lamp burning. Subsequently, in some way, the lamp set fire to the bedding, which filled the room with smoke. He had got up, but apparently was so overcome with the smoke as to be unable to find his way out of the room. When found this morning he was in a dying condition. The assistant priest was immediately summoned and the last sacraments were administered. Father Bradley was in his 58th year, and is described as an indefatigable worker in his holy calling. He attended St. Dominic's College at the same time as Archbishop O'Brien and prosecuted his Theological studies at the Grand Seminary, Quebec, R. I. P.

KIDNEY SENSE.

ure-alls are out of the Question in Kidney Disorders—A Liquid Solvent—A Specific Kidney Tonic is the Only Safe Remedy.

How Many Discover When it is Too Late that the kidneys have literally been ground out by the little solid particles which are collected in the liquid and which suffer from kidney disease, and which accumulate in the organs. Common sense says and medical science has proven it that a liquid solvent which will dissolve these solids and eradicate them from the system is the only sure cure for kidney disorder. South American Kidney Cure is a solvent. It has been tested in almost all cases, and there is yet to be recorded against its failure to cure when it has had a faithful trial. Pills will not do as they are not solvents. Don't refuse. Sold by Geo. H. Hughes.
