

## FEDERAL PARLIAMENT

Ottawa, Nov. 28.—After the routine proceedings in the House today, Mr. Borden asked the Premier if the position of the resignation of Mr. Hyman was the same as when Sir Wilfrid Laurier had been asked the House. Sir Wilfrid said that he had not yet received an answer to his letter from Mr. Hyman, who was in the south, in very poor health, but he expected to hear from him in a very few days.

In answer to Mr. Foster, Mr. Fielding said that the public accounts would be ready for distribution in a few days, and he expected the budget to be delivered on Thursday.

Mr. Devlin (Wright) was surprised at the reference of Mr. Foster the other day to political morality. After what had taken place before the insurance commission he was astonished at this. He asked the House to compare the lofty dignity of Mr. Hyman who resigned his seat with the action of Mr. Foster. Would Mr. Foster resign? There was nothing about in the London bribery enquiry that interfered with the majority having voted for Hyman. The city of London was not purchasable. "I ask," said Mr. Devlin, "whether Mr. Foster will resign? If so, let him do it." "It was said that the Opposition was going to make it interesting for the Government to let them come on," said Mr. Devlin, "we are ready for them."

Mr. Cockburn (Brandon), Mr. Clement (Essex) and Boyce (Algonquin) followed.

Mr. Boyce held the floor for a couple of hours, giving a good deal of his electioneering experience in Algonquin and threatening the old and oft-told story of the Minnie M. Mr. Oiler (Toronto) delved into the Walker-Carling election records.

Mr. Johnston (Cape Breton) said that a wonderful discovery had been made and that was that Mr. Boyce had carried Algonquin and that the member for Algonquin was smarting under the feeling that his story of the Walker-Carling work in the House were not fully appreciated by the Conservative leaders. The House listened with patience to the story of what Mr. Boyce had accomplished. Coming to the speech from the Throne, Mr. Johnston said that the expenditure by the present Government was well spent and the result was the prosperity witnessed from ocean to ocean. The leader of the opposition objected to the expenditure being so large, although he was not very specific, and Mr. Johnston on the other hand took strong exception to the expenditure of the cost of an elevator built in the city of St. John, N.B. Mr. Johnston wondered what the member for St. John had to say the objection and the import of that expenditure. It was the only item he took exception to. What the Opposition wanted was the small expenditure and deficit which existed years ago. The people did not want to return to those times.

Having disposed of Borden and Foster, Mr. Johnston turned to Mr. Oiler who, he said, was roaming around a streetcar all afternoon and came to the House with the impression that it was necessary for the Liberals to go body snatching. The evidence against the Conservatives was too fresh in the minds of the people, although Mr. Oiler seemed to forget. He (Johnston) would have to remind Mr. Oiler of what took place in the House of 1929. During that contest the Conservative organizer in Ontario sent out a circular to the party workers which showed what kind of work they were to do at the elections. This circular asked the Conservative workers to have extra ballots printed and the printer returning officer could have them marked and used for ballots, read out wrongly and in the wrong way.

Mr. Barker—What book are you reading from?

Mr. Johnston—From Hansard.

He went on to read to the effect that the Conservatives were to get control of both scrutineers. This was easy because the Liberals were short of men. They were to make it appear that they were not friendly with the deputy and he could spoil Liberal ballots with a piece of lead. Fixed with beads, to show the nail and the spoiled ballots could be made good. The extra ballots were to be used after the scrutineers had gone home. The organizer went on to say that this work was to be carried on where the Liberals were strong. A few votes in the west, some fines turned the election. With extra ballots the dead men's votes could be recorded.

Mr. Johnston said that was no grave yard story like Mr. Oiler's. It was in 1898 he read the views of W. L. Maclean on the subject of the election. He afterwards quoted from the evidence of William Smith South Ontario, who was a Conservative member of the Federal and Ontario House, who was behind Mr. Foster when in the House. He showed the bribery and corruption that prevailed in the Conservative ranks. It was so bad that Judge Oiler had said, "It was the most glaring piece of corruption he had ever heard of."

Mr. Johnston next took up the Fielding election in Nova Scotia and narrated the fish combine yarn which was circulated by the Conservative organizer from Liverpool with the view of injuring Mr. Fielding's election. This story was a pure concoction to show how the Conservatives would not run a clean election, he quoted Dr. Welton's statement as to why he would not stand for a constituency at the last general election.

Mr. Barker (of Hamilton) said that the Conservative literature referred to was not distributed by the party. It was prepared by an American.

Mr. Lake (Quebec) called the attention of the Government once again to the lack of fuel in the Northwest. Mr. Fisher said that the Government sympathized with the position of affairs in the west. They were doing all that they could to bring about a settlement, and he hoped for the best. Mr. Lake suggested that coal should be brought from Ferrie, B.C., by the Government.

Mr. Lemieux said that he intended making a by-law was passed at the meeting of the council enforcing early closing, but some of the business men are trying to get up a petition to have it repealed. A general meeting is to be held on Thursday evening for the purpose of discussing the question.

was all that he would say tonight. He would make an official statement tomorrow.

Mr. Bergeron replied and Mr. Campbell (Centre York) moved the adjournment of the debate.

During the debate Mr. Fisher stated that he was going to put an item in the estimates for cold storage warehouses for agricultural products throughout the country.

### APPOINTMENTS.

The following provincial appointments have been gazetted:

Justices of the Peace—James Wm. Hoy, of Wetaskiwin; Jacob J. Mohr, of Bruderheim.

Commissioners to Administer Oaths—Daniel Harcourt, of Galbraith; of Nanton; Donald B. McNeil, of Gleichen; Norval Dickson, of Montreal; Quebec; Frederick William Kent, of Calgary.

Notaries Public—Elihu Burritt Edmonds, of Edmonton; George Fleming, of Penhold; James Brewster, of Calgary; Angus Macdonell, of Macdonald; of Lacombe; Richard Pollock Wallace, of High River; Henry Vernon Fieldhouse, of Vermilion.

Issuer of Marriage Licenses—Hector Fraser, of Gleichen.

Provincial Inspector of Mines—Norman Fraser, of Edmonton.

Superintendent of Telephone Construction—James H. Grieson, of Calgary.

Game Guardian—H. G. Pithouse, of New Sarepta.

Fire Guards—Harry F. Collins, of Pine Lake; Edward B. Millard, of Alton; George Redpath, of Pine Lake.

Stock Inspectors—A. Fleming, of Calgary; John Risk, of Claresholm.

Resignations and Retirements—C. Sharples, of Claresholm; stock inspector, William Metcalf, of Calgary.

**VICTORIA IS WAKING UP.**

Victoria, Nov. 29.—The Victorians are celebrating today over the assured prospect of the rapid growth of the city consequent upon the announcement of the C. P. R. of its intention to spend \$15,000,000 in clearing 180,000 acres of forest land tributary to this city and opening it for agriculture. This, with the prospect of the early establishment of immense ship building yards at Esquimalt, the construction of C. P. R. ocean docks there, the taking up of the timber reserve of C. P. R. on the land by an immense corporation and the import of industrial and expansion movements justifies an optimism never before known locally and really prices this morning have advanced twenty-five per cent.

**ENGINE CAUSED TWO WRECKES.**

Winnipeg, Nov. 29.—An engine caused two wrecks and two deaths in the C. N. E. yards this afternoon. The collisions occurred within a few minutes of each other under peculiar circumstances. Four other men were badly injured, three of them so seriously that they are not expected to recover. The engine was running light out to the west yard when it collided with an incoming Northern Pacific express. The engineers when they saw the collision was inevitable both reversed their engines and the one in charge of the yard locomotive jumped. The locomotives came together and the express engine was derailed, the light one having been reversed and having remained on the rails at once began to back without a crew. It ran wild back into the yards where it collided with a bunch of freight cars standing at a siding, where a gang of men were loading heavy pieces of machinery. Cars were telescoped and men were crushed in the wreck, two being instantly killed and four badly crushed.

### MANUFACTURERS WILL TALK IT OVER

Bulletin Special.

Ottawa, Oct. 29.—A meeting of the special tariff committee of the Canadian Manufacturers Association, which will afford indications of the manner in which the manufacturers in many different lines of production view the change in the schedule of duties, W. G. George, chairman of the committee, did not care to discuss the matter in the House. He said that he was going to go over the whole of the revised list. W. K. McNaught, M.L.A., who is also a member of the tariff committee, took a like stand, but remarked that it was understood by the C. M. A. that Mr. Fielding's intention was to maintain a general tariff in favor of manufacturers' articles from countries like the United States and Germany that kept up high protective tariffs and that on the imports of other countries, as France, which did not maintain so high a tariff. A favorable discrimination would be shown, while to Great Britain an increase of preference would be given.

### VERMILION

Vermilion, Alta. Nov. 28.—Messrs. Goad's representative has been in town for a couple of days preparing one of their insurance plans. This will be a great help to the different agents here. The work on the new shipping and curling clubs is being pushed ahead as rapidly as possible. The company purchased four lots a few days ago and already have the lumber on the ground. Mr. W. D. McKay is the contractor.

The early closing question is causing considerable excitement in town just now. A by-law was passed at the meeting of the council enforcing early closing, but some of the business men are trying to get up a petition to have it repealed. A general meeting is to be held on Thursday evening for the purpose of discussing the question.

## Telegraphic.

### COAL MOVING.

Regina, Nov. 28.—The C. P. R. reports the receipt of fifteen cars of coal here yesterday, two cars coming from Fort William.

### STANLEY CUP DATE.

Kenora, Nov. 28.—The dates are set for the Stanley cup series between the Wanderers and Thistles, the first game being scheduled for January 7th.

### IN A TRANCE.

Moos Jaw, Nov. 29.—John Buchanan, who was reported to have died on Sunday evening is still alive. He awakened this morning from a trance, but is in a critical condition and little hope is entertained for his recovery.

### THREE HUNDRED VICTIMS.

Dortmund, Germany, Nov. 29.—A factory at Annen, near here, blew up yesterday and 300 were killed or wounded. Every house in town was damaged, the place being reduced almost to ruins.

### MELODY WON.

Boston, Nov. 29.—Honey-Melody of Charlestown won the welter weight championship at Chelsea tonight, defeating Joe Walcott in the twelfth round. Walcott's arm was disabled.

### JURY COMPLETED.

Chicago, Nov. 29.—The twelfth juror in the Cornelius P. Bhen conspiracy case, was secured today after over six thousand veniremen had been examined. The trial began September 13. Bhen is president of the International Brotherhood of Teamsters and was indicted by the grand jury on a number of counts in connection with the teamsters' strike here over a year ago.

### SHORTAGE AT CARLYLE.

Carlyle, Sask., Nov. 29.—The coal famine is serious here. Dealers claim they cannot obtain coal from Fort William. According to Winnipeg dealers the people demand Galt coal.

### TO REBUILD THE ROAD.

London, Nov. 29.—A syndicate is in course of formation by Speyer and Co. of New York, Speyer Bros. of this city, and the Hong Kong and Shanghai bank of London, with a capital of \$20,000,000 for the reconstruction of the Manila Railway company and the extension of its lines.

Winnipeg, Man., Nov. 29.—George Stephens has been appointed assistant general freight agent and Chas. W. Cooper, assistant general passenger agent of the Canadian Northern with headquarters at Winnipeg.

### QUIT THE JOB.

Madrid, Nov. 29.—The Spanish cabinet has resigned.

### THE BOOM.

Toronto, Nov. 29.—There are only five properties in the entire Cobalt district which are established and profitable. Over two hundred and fifty cobalt companies have been organized and capitalized at over one million dollars.

### STILL INVESTIGATING.

Toronto, Nov. 29.—McGill, ex-manager of the Ontario Northern, was taken in police court and his stock gambling further investigated.

### SCHMIDT ARRESTED.

Tuckee, Cal. Nov. 29.—Mayor Schmidt of San Francisco was arrested here yesterday as soon as he crossed the border of the state on a charge of extortion. He felt the position very keenly.

### AMERICANS ABROAD.

London, Nov. 29.—Members of the American Association numbering 500 are in London for a thanksgiving banquet at the Hotel Cecil. There were similar gatherings at Oxford, Paris and Berlin.

### PRINCE ALBERT WANTS WATER POWER.

Prince Albert, Sask., Nov. 29.—Chas. H. Mitchell, hydro-electric power expert, has been engaged by the Prince Albert board of trade to inspect and report upon local water power.

### NETHER SCORED.

Philadelphia, Nov. 29.—Neither team scored in the annual rugby game between Philadelphia and Cornell.

### DISAGREEMENT SETTLED.

Montreal, Nov. 29.—A battle of settlement was reached between the Dominion Coal Co. and the Dominion Steel Co. Nothing is given to the public but it is understood the Steel Co. pay the coal price for coal until next year when a new agreement will be signed.

### BRIEFS.

Dartford, Germany, Nov. 29.—So far as can be ascertained this morning twenty-four persons were killed in a typhoid epidemic and several hundred slightly injured as the result of the explosion at the last night of the Robert factory near Annen.

Washington, Nov. 29.—Samuel Spencer, president of the Southern Railway, was killed this morning in a wreck at Lynchburg, seven miles south of Lynchburg. Others killed were Philip Schuyler, of New York, his special train dispatcher, and E. W. Davis and Engineer Terry.

### MISS CUSHING ILL.

Calgary, Alta., Nov. 29.—Miss Cushing, daughter of Hon. W. H. Cushing, who was in the city for the purpose of operating two months ago for appendicitis has today undergone another operation. Doctors Brett, Sanson, Stewart and McEachern were present. Miss Cushing rallied somewhat after the operation, but her condition is now very serious.

### SWEET MARIE SOLD.

New York, Nov. 29.—Sweet Marie sold today for \$14,000 to E. S. Statabury.

### AFTER THEM.

Melbourne, Australia, Nov. 29.—The Australian government is preparing to prosecute the Standard Oil Company under the anti-trust law.

## SENSATIONAL EVIDENCE IN CORONER'S INQUEST.

(Friday's Daily)

The coroner's inquest, regarding the cause of the death of George Brennan at the isolation hospital was commenced yesterday afternoon at 4 o'clock, Dr. H. R. Smith presiding. The jurors were: John Kelly, foreman; Messrs. J. A. Kinney, Phillip Wagner, E. W. Prothero, J. Grisenhwaite and Ed. Booth.

The evidence of Dr. Hyslop, who was attending Brennan, Dr. Braithwaite, the medical health officer, Sidney J. Main, the assistant medical health officer and O'Sullivan, the nurse, was taken. Another man by the name of John Staples, who was also acting as attendant is still to be heard regarding what happened at the hospital. Still other evidence may be sought in other directions, possibly by an examination of Brennan's stomach.

The sensational feature of yesterday's evidence was contained in Sullivan's admission that although Brennan had taken the formaldehyde at 1.20 a.m. that Sullivan did not notify Dr. Hyslop until 7.30 the following evening, and that in the meantime he had treated Brennan and fed him without consulting Dr. Hyslop.

In opening the inquiry, after the jury had been sworn in, Dr. Smith explained to the jury that it was their duty to arrive at a conclusion as to the cause of the death of George Brennan, who died at the isolation hospital. It was not any part of their duty to charge anyone; but if they came to any conclusion as to who was to blame, if anyone, it was their duty to state their conclusions.

Dr. Hyslop was called as first witness. He told how he had been called by telephone on the evening of the 15th and asked, from Superintendent Carey's office, to take charge of Brennan. He had taken him to the isolation hospital at 1.20 a.m. on the 16th, when he was found by Dr. Hyslop. Brennan was lying on his back, his arms and legs were stiff, and he was breathing. Dr. Hyslop found that Brennan was not breathing, and he gave him a bottle of bromide and a glass of water. He found that Brennan was not breathing, and he gave him a bottle of bromide and a glass of water. He found that Brennan was not breathing, and he gave him a bottle of bromide and a glass of water.

## More than one best?

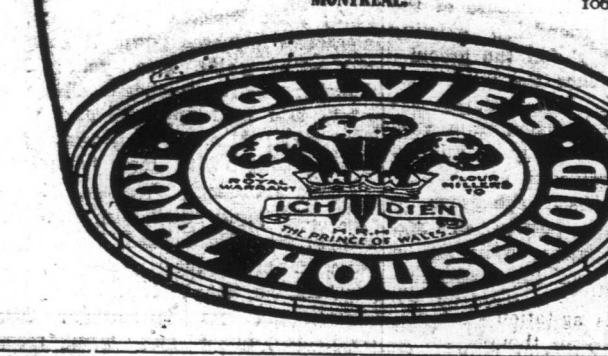

When you ask your grocer to send you the best flour, he sends you—his best. When you know the best flour and order by the name, the choice is not left to the grocer. Many grocers handle

## Royal Household Flour

as their leader. They have found it the safest flour to recommend because its results are sure and its purity is unquestioned. If your grocer's best is not Royal Household, insist on his getting it for you. The benefit will be mutual.

Ogilvie Flour Mills Co., Ltd.

MONTREAL.

This was all the evidence that was ready and Dr. Smith asked the jury to withdraw and see if they could arrive at a verdict, or whether they required further evidence. The jury was not out over five minutes when they returned and said they had decided that it was their duty to adjourn and call further evidence. The hearing was set down for Monday next at 2 p.m., when James Staples the man who found Brennan dead, will be called and other evidence taken.

## SPORT

### SNOWSHOEING.

(Thursday's Daily)

The Holly Snow Shoe Club of Winnipeg has organized for this season and will hold a monster tramp on Dec. 31st to which every snowshoer in the city will be invited. The tramp will start at 10 o'clock and will last through the winter season. The membership of the club is now 150.

### BASEBALL.

(Thursday's Daily)

The Y.M.C.A. league of Winnipeg have inaugurated an indoor baseball tournament. The season opened last Friday night at the Association Hall with a match between the Rovers and Shamrocks. The champions failed to live up to their title as the Rovers took the large end of a 10-11 score. The game was a good one and the first of the season, and some fine plays were pulled off by both teams. The Rovers deserved their victory.

The following schedule of the Y.M.C.A. teams has been arranged:

Nov. 30—Shamrocks vs. Thistles.  
Dec. 7—Thistles vs. Shamrocks.  
Dec. 14—Rovers vs. Shamrocks.  
Dec. 21—Thistles vs. Shamrocks.  
Jan. 1—Rovers vs. Thistles.  
Jan. 8—Shamrocks vs. Thistles.  
Jan. 15—Shamrocks vs. Thistles.  
Feb. 1—Thistles vs. Rovers.

### THE ALPINE CLUB.

(Thursday's Daily)

A. O. Wheeler, M.P. of Calgary who has just come out from the summer's survey in the remote Rockies, is to be the guest of honor at a Canadian dinner at the Russell House, Ottawa in January. Mr. Wheeler will deliver several lectures in the interest of the club's year book, the illustrated magazine which it is proposed to publish. Mr. Wheeler will remain over in Winnipeg, en route, and give an illustrated lecture with entirely different views from those shown last year. He has had slides made from the best photographs taken during the Yoho meet. If those who have intimated their intention of joining the Alpine Club would send their application at once to the secretary, Mrs. H. J. Parker, 149 Pelly street, name and address, so that they may be included in the list of applications which will be mailed to all members of the club. So far, most of the proposed members are Americans—Free Press.

### NOTES.

(Thursday's Daily)

There is some talk of a new senior hockey team for the city. The Shamrock Baseball club having aspirations in that line, it is proposed to apply to the Manitoba league for a place in the schedule in case the Winnipeg and Victoria retire. So far the project has not passed the conversation stage.

Medicine Hat has decided to form a joint stock company capitalised at \$10,000 to finance the professional team which will represent this city in the Western Hockey League next season. The following club officers were elected: President, Wm. Connors; sec., James Fleming; C. S. Priddy and E. G. Wainwright. "Lucky" Sporer, of Winnipeg will probably manage the local club.

The Western Canada Kennel club will again tender its assistance as a club to the Belch dog show in connection with the Winnipeg exhibition. The show was held under the auspices of the club at the request of the exhibition board last summer and the club decided at the regular quarterly meeting to do so again. The club is now all in its power to make next year's show a success.

Chicago, Nov. 29.—Charles Murphy president of the Chicago national league baseball club has written to Count Boni Castellani offering him \$5,000 annually to be assistant trainer and manager of the club.
