POLLEN PREDICTS GREAT NAVAL BATTLE.

TORONTO, To-day.

Arthur Pollen, the eminent naval expert, in an interview here to-day predicts a naval battle of unimaginable violence and destructiveness as one of the probably closing scenes of the war. Pollen came here to address the local Navy League, the Canadian Club and other organizations. "If Germany sustains a crushing defeat in the West," said Pollen, "I will expect to see her entire fleet employed in a desperate attempt to achieve control of the seas and as a result take part in an engagement with the massed naval powers of Britain in such a battle as the earth has never seen, a battle that will result in the utter destruction of Germany's great fleet and doubtless a very great part of ours, a battle in which entirely new methods, new engines of destruction and new tactics will be necessarily employed, and for which in all likelihood Germany would assemble her entire fleet of submarines, all her Zeppelins as supplementary participants. The submarines would not likely be a strong factor to such a colossal battle of the sea, although the long range torpedo unquestionably would."

SEATTLE, Wash., To-day.

Carl Wilsche, an Austrian seaman, was arrested to-day as the result of a Federal investigation of the stranding of the Alaska passenger steamer Spokane, off Idol Point, B.C., on November 22. Wilsche was a member of the Spokane's crew. Federal agents refuse to discuss the case.

VISIT AMERICAN HEADQUARTERS.

PARIS, To-day.

The following authorized report was issued to-day of a visit to American Headquarters by other members of the Mission and Lord Northcliffe. They left Paris yesterday morning for the General Headquarters of the American Expeditionary Forces. They spent the afternoon visiting the training quarters and witnessing exercises. General Pershing conducted the party personally and showed the visitors every department of the war preparations in the field, including bayonet exercise, rifle practice with targets

representing landscapes, grenade throwing, trench mortar practice, artillery exercise with co-operation of airplanes, automatic rifle practice and machine gun curtain fire. The Mission returned with the most favourable impression of the spirit of the officers and men and of the state of their preparation, besides the remarkable esprit de corps in evidence in every branch of the service. The Mission noted with special satisfaction the details of an organization on somewhat original lines, with young men full of energy at the head in each department. Col. House and Lord Northcliffe both were particularly pleased with General Pershing's staff organization and with the splendid vigor and spirit of the young officers. The party returned to Paris last night at 10 o'clock.

AMSTERDAM, To-day.

Intimations that Germany is planning to force boys of 16 and 17 years into the army is contained in an appeal appearing in the Essen General Anzeiger, that they immediately join the juvenile corps. GREAT ACTIVITY IN MACEDONIA.

WASHINGTON, To-day.

Fighting has been resumed on the Macedonian front and despatches received here to-day describe the activities of the Bulgarians as surprising. Their airmen have been particularly active in reconnaissance work; many of them have been downed by British airmen. French anti-aircraft guns and machine guns. The fighting covered the front from the Struma to the mouth of the Mahajusa, which practically bounds the Italian position in Albania, and a number of Bulgarian patrols have been captured by the French who are installed in vantage places overlooking the Valley of the Vardar and especially on the hills above Monastir. British aviators, the despatch says, are continuing the bombardment of the Bulgarian rear.

U. S. FORMALLY RECOGNIZES SWISS NEUTRALITY.

BERNE, To-day.

The American Minister to-day handed to the political Department a note informing the Federal Council that the United States formally recognizes the neutrality of Switzerland, declaring itself in complete agreement with the statement by Jas. P. Post, Chairman of the American Red Cross Commission, to-day. The availability of the crop from the West Indies soon after New Year, it is said, would tend to eliminate the existing stringency and the situation might be expected to approach normal by February.

It is reported that the Government to-morrow intends to ask the Senate for authorization to take action against Senator Charles Humbert, owner of the Paris Journal, for his connection with Bala Pasha.

SUGAR PROSPECTS BETTER.

NEW YORK, To-day.

Prospects are bright for an early return of normal conditions so far as sugar is concerned, according to a statement by Jas. P. Post, Chairman of the American Refiners' Commission, to-day. The availability of the crop from the West Indies soon after New Year, it is said, would tend to eliminate the existing stringency and the situation might be expected to approach normal by February.

WAR REVIEW.

LONDON, To-day.

While for the moment there are no infantry operations of great magnitude in progress on any of the numerous battlefronts, indications are not wanting that shortly the Cambrai sector in France and the Northern line in the Italian theatre will again witness

representing landscapes, grenade throwing, trench mortar practice, artillery exercise with co-operation of airplanes, automatic rifle practice and machine gun curtain fire. The Mission returned with the most favourable impression of the spirit of the officers and men and of the state of their preparation, besides the remarkable esprit de corps in evidence in every branch of the service. The Mission noted with special satisfaction the details of an organization on somewhat original lines, with young men full of energy at the head in each department. Col. House and Lord Northcliffe both were particularly pleased with General Pershing's staff organization and with the splendid vigor and spirit of the young officers. The party returned to Paris last night at 10 o'clock.

ON THE ITALIAN FRONT.

ROME, To-day.

The text of to-day's official report On the Asiago Plateau the enemy, after having gathered a formidable array of artillery and renewed and increased his forces which had severely suffered in the previous combats, has begun an attack on our position. The first assault was launched yesterday and was firmly held up by us, and the only advantage obtained by the Austro-Germans at the price of heavy losses was a gain of some positions which has not weakened the firmness of our resistance. Proceeded by a destructive bombardment which continued most violently for several hours and accompanied by heavy bursts of artillery, the enemy made a final attack on a strong point of Mellette. The first attack, from the northwest, after several attempts to advance was broken up by our barrage and finally broken up. In the afternoon on a section of Monte Silezoni and the southwestern slopes of Melette di Gallo with heavy hand-to-hand fighting the enemy was decisively repulsed with heavy losses and left us also some hundred prisoners. The second attack, from the northeast, was brought forward with larger forces and greater tenacity between Monte Tondarecar and Monte Radeneche. Here after exceedingly fierce fighting lasting until early this morning the occupation of some trenches which the enemy was able to effect counselled us to withdraw some of the more exposed portions of the line. At Zenson on the Piave, as a greater movement had been noted, one of our storming parties well supported by artillery, which destroyed five small bridges thrown across the river at this point by the enemy, attacked the enemy at the bend of the river, inflicting heavy losses on him and bringing back prisoners and machine guns.

GERMAN OFFICIAL.

BERLIN, To-day.

Following is the text of to-day's official on the Western theatre:—Crown Prince Rupprecht, On the Flanders front there has been much lively artillery activity. In the afternoon fighting increased considerably between Inchy and Bourlon, Lake attacks south of Moeuvres broke down. We took a few prisoners. Sections of British trenches at and south of Maroing were cleared of the enemy. South of St. Quentin there was increased artillery and mine fire. German Crown Prince and Grand Duke Albrecht. In many sectors lively reconnaissance activity on both sides led to violent fighting. On the eastern front and the fronts of Archduke Joseph and Field Marshal Von Macken-Feldmarchal Von Heintzenberg, in Macedonia strong enemy detachments which pushed forward to the west shore of Ochrida Lake and northwest of Dofran Lake were driven back.
