MOLSONS BANK

Annual Meeting of the Shareholders in Montreal.

rension Fund To Be Established-Change of Date of Annual Meeting-Directors Ro-Elected.

The 45th annual general meeting of the shareholders of The Molsons Bank was held Tuesday in Montreal. The president, Mr. W. Molson Macpherson, occupied the chair.

REPORT OF THE DIRECTORS.

The general manager, Mr. James Elliot, read the annual report of the directors as follows: The net earnings of the bank, after making full provision for bad and doubtful debts, amount to \$308,128 92, equal to about 13½ per cent on the average capital. This has been distribut-

ed by two semi-annual dividends of 4 per cent, and a bonus of 1 per cent, in all \$205,288 72; business taxes, \$8,-252 51; bank premises, \$20,254 68, and exceptional donations, \$13,250, leaving \$61,083 01 to be disposed of, \$50,000 of which has been carried to rest account. The balance, \$11,083 01 has been carried to profit and loss account, which, with the balance carried over from last year, now amounts to \$26,992 48. The premium obtained on the \$500,000 new stock, authorized by you at our last with the \$50,000 transferred from the past year's profits, now amounts to \$2,050,000, equal to 82 per cent of the

capita! We are pleased once more to record the fact that the officers of the bank continue to perform their duties with efficiency and zeal, and possess the confidence of the board.

The branches of the bank have been inspected once, at least, during the

It is with deep regret we refer to the death since last we met of our much-esteemed general manager, Mr. F. Wolferstan Thomas. His connection with the bank lasted for 30 years, during which time it grew under his able management from a local institution to its present position. Mr. Thomas' personality was well known, not only in this city, but throughout the Dominion, and his death was a loss to many important interests outside the banking

We have also to record the loss by death of Mr. Henry Archbald, a director of the bank for many years, whose caution and prudent counsel was much valued. Lieut.-Col. Henshaw was called to fill the vacancy on our

The position of general manager was filled by the appointment thereto of Mr. James Elliot, manager of the Montreal branch, who has been in the service of the bank for upwards of 40 years.

fluence and prominence I am happy to say that we were fortunate in hav-ing Mr. James Elliot, manager of the Montreal branch, ready to accept the

position of general manager of the bank. Death has removed from our board, I regret to say, Mr. Henry Archbald, one of our most careful and painstaking directors. He for years watched the affairs of the bank.

A bylaw will be submitted to you asking that the board be authorized to establish a pension fund for the benefit of the officers of the bank. It is usual now for banks to have a pension fund, and we have realized the hardship arising through not having one. I feel sure that our application will meet with your approval. I have much pleasure in moving the

adoption of the report. The motion was seconded by Mr. S. H. Ewing, vice-president.

The General Manager—We have two bylaws to propose. The first, which

is bylaw No. 2-we passed Np. 1 last year-reads: The annual meeting of the bank shall be held on the third Monday in October in each year."

On account of having so many branches, as we now have, spread over such a large extent of country, we cannot get the returns in in time perly for the second Monday, so that we would like to have the annual meeting take place on the third Monday in October. The bylaw was adopt-

The General Manager-Bylaw No. 3 reads: "The directors are authorized to establish a pension fund for the officers of the bank and to set aside annually, from the earnings of the bank, meeting, amounting to \$375,000, has such contribution as they may think been placed to rest account, which, proper for the said fund." The bylaw

> Mr. John Crawford was well satisfied with the financial statement, and in view of the position of the bank, he thought that a regular annual dividend of 10 per cent, payable quarterly, should be initiated.

The President-It is very pleasing to hear the shareholders move that resolution a year in advance, and we shall feel very grateful if we can offer the dividend to you next year, but you cannot expect it to come from me that such will be the case. As regards a dividend, of course, the first thing we have to do as your trustees is to take every year, and in the way we have been paying it in the past; but don't ask us to pay more than we feel warranted in doing, because safety is the great thing. As regards the increased capital of the bank, I remember Mr. Crawford's remarks last year in reference to it, and it might have been wise to have asked power to issue \$1,000,000 when we required; or \$500,000 at the time and \$500,000 in the future. But we required only the \$500,000, as shown by the statement, and so far we have not discovered that we require further; when that times comes we must ask you to extend that power to us. As that all the banking institutions in Canada realize the necessity of branches. I am happy to say we have not found it necessary to extend them to branches, I think there is no doubt this year. The year before the one just closed we discovered places which,

owing to the growth of the country and its enlargement towards the Pacific, made it necessary for us to open branches, and in connection with that we naturally had to strengthen our inspecting staff, which is of a very strong character, and we have every confidence in it. We fully appreciate what Mr. Crawford says; there is great danger, but we have got to face it, and must ask you to intrust us with its management as far as possible. As regards the banking act, which Mr. crawford spoke about, I don't think bylaw. he expects me to answer him at the moment. (Mr. Crawford: "No. no.") It is very possible for varied opinions. We have not had occasion to take an opinion upon it, and at the moment I

The motion for the adoption of the report was unanimously carried.

A Pretty Fall Wedding Solemnized on Simcoe Street This Afternoon.

A beautiful home wedding was solemnized at the residence of Mr. Peter W. Earle, No. 331 Simcoe street, this afternoon, when his daughter, Miss Tillie, was united in marriage to Mr. William J. Cooper, a popular young resident of Stanley street, South London. In the parlor, where the cere-mony was performed by Rev. R. D. Hamilton, under a draped canopy of Stars and Stripes and Union Jacks, a charming effect was obtained by an arrangement of palms and ferns. A dainty gown of white organdie, over white silk, trimmed with lace and chiffon, was worn by the bride, who carried Bride roses. She was attended by her sister, Miss Jessie, who was attired in white organdle, with pink, and carried pink roses. Two little maids of honor, Edith Nash and Care Chap-man, nieces of the groom, were prettily dressed all in white. Mr. Will Orchard was best man. When the ceremony had been concluded, the bridal party, numbering 60 guests, of whom many came from Detroit, Cleveland, Cobourg, St. Thomas, and other places, partook of a dainty wedding luncheon. An informal reception of congratulating friends occupied the time that intervened before the young couple left to take the express for the east, where they will spend their honeymoon. The gifts that they received attested their popularity among many friends, whose best wishes they will carry to their new home, No. 29 Stanley street, where Mr. and Mrs. Cooper will be at home after Oct. 24.

Local Legal Cases.

The following legal cases, of interest to Londoners, were heard at Osgoode Hall, Toronto, yesterday, the first being heard in the court of appeal before Justices Osler, Maciennan, Moss and Lister, and the second being heard in divisional court, before Justices Boyd, Ferguson and Robertson:

Marshall vs. London Street Railway Company—Heilmuth, for defendants, appealed from Judgment of Armour, C. J., entered upon verdict of jury for \$200. Action for damages for injuries sustained by plaintiff, who while riding her bicycle on Ridout street south, in the city of London, across the defendants' tracks, was, owing to their projecting above the surface of the street, thrown to the ground and injured. The plaintiff alleged that the defendants were obliged under their agreement with the corporation of the city of London, to lay, keep city and maintain the space between their tracks, and for eighteen inches on each side level with their rails and free from ruts, etc., and had negligently neglected to keep the terms of their cident happened, and therefore the plaintiff could not recover: Canada Colored Cotton Mills Company vs. Kerwin, 29 S.C.R., 478; that there was no evidence of defendants' negligence, and even if there were that plaintiff had not exercised ordinary care and prudence, and had contributed to the accident, that on the evidence twelve reasonable men could not have found a verdict, and therefore the cas a verdict, and therefore the case should have been withdrawn from the jury, and that the chief justice erred in admitting in evidence the agreement and bylaw. Gibbons, Q.C., for plaintiff, contra. Appeal dismissed with costs. Ludlow vs. Board of Hospital Trustees of City of London—Shepley, Q.C., for plaintiff, appealed from judgment of Meredith, C. J. The plaintiff became a paying patient in defendants' hospia paying patient in defendants' hospital, and alleges that owing to the negligence of their officer, agents, employes and servants, he was, while under the influence of chloroform treatment, severely burned on the left leg below the knee, by means of a hot water bottle placed against it without proper cov-ering. The chief justice did not decide the question of law raised, as to whe-ther the defendants, being a statutory body corporate intrusted with a public duty which they were performing duty, which they were performing gratuitously, were responsible for the negligence of one of their employes, because he found against the plaintiff on the facts. The fun, and there is lots of it, is caused by the trials and tribulations of a newly-wedded couple, who are enjoying, or rather trying to enjoy their honeymoon by journeying over the continent. Every place they visit they are greeted with this everlasting "Honeymoon Smile." Hotel clerks, railroad conductors, hackmen, each, all and everyone give them a pitying, cunning, or quizzical smile.
