## Heat Conservation

A hot oven and a cool kitchen is what every housewife is looking for this summer. It is absolutely impossible with a coal range, and almost as impossible with the ordinary gas range. The

## Oxford Gas Range

makes a hot oven and a cool kitchen a practical certainty. The oven is lined with asbestos—this keeps the heat in and leaves the kitchen cool. It also heats the oven more quickly to a higher degree and with less gas than any other range. The illustration shows that immediately outside an oven hot enough to cook a roast it is comfortably cool.

We would like to show you this and many other improvements peculiar to the Oxford Gas Range. Won't you call at one of our agencies? We can prove to you that this range does away with kitchen drudgery. If you can't call, write for our leaflet—it will interest every housewife.

On exhibition and for sale at

The Gurney Oxford Stove Store  
W. C. Woods, Manager.
