

Applications for HOME and FOREIGN PATENTS prepared by DONALD C. RIDOUT & CO. EXPERTS IN PATENTS. Established 1877. Canada Life Building, King Street West, Toronto, Telephone No. 211.

### THIRTEENTH YEAR.

#### THE STORM-SWEPT ISLANDS.

WRECKS AND LOSS OF LIFE ON THE BRITISH COAST.

Enormous Damage Reported in England, Scotland and Wales—The Sea Washes Over the Land and the Rivers Overflow Their Beds, Causing Much Loss to the Interior.

LONDON, Oct. 15.—The storm that set in over Northern England, Scotland and Wales night before last threatens to cause as much damage as the phenomenal gales and rains that passed over the country last autumn. The telegraph lines are down in several sections and communication with some of the coast towns is greatly interrupted. Things of disaster continue to be reported, and loss of life is being reported.

The fishing vessel James A. Anderson was capsized yesterday in a heavy swell in the Firth of Forth, westward into which she was putting for shelter. She had a crew of five men and all were drowned.

Much damage has been caused by the floods. At Leeds the River Aire has got out of its banks and overflowed the surrounding country. In some places the railways leading into the town are submerged. Houses in the lower portions of Leeds, Derbyshire, and Huddersfield, are flooded, and in many cases their occupants have been obliged to take to the water. A number of craft at various points along the coast have broken from their moorings and sunk.

At Malton, on the River Derwent, it has rained continuously for 40 hours, and the storm shows no sign of abating. The River Ouse and Derwent rivers are overflowed, and the country in miles is inundated. Half the crops still unharvested are submerged, and vast areas of pasture are impassable. Much alarm is felt at Doncaster at the rapid rise of the River Don, and every precaution is being taken to avert a disaster.

A later despatch says the water continues to pour in a flood over the banks of the River West and hundreds of cattle and sheep that feed on the moving sea are in great danger of being drowned. Large numbers of men and boys are out driving live stock to other ground.

At Durham, which is nearly surrounded by the River Wear, the water is very high. The railway bridge has been swept away by the torrent, causing a heavy loss, and a further disaster is apprehended. On April the bridge fell a freight train was just going on it, and the engine and loaded cars went to the bottom of the river. The train hands had sufficient warning of the impending disaster to make their escape.

At Wakefield, near Leeds, several people were injured by the explosion of gas in a hotel. The basement was filled with the overflow from the River Wear, and it is supposed that the water displaced the gas, allowing it to escape. The injured were taken to the hospital.

#### A POPULAR APPOINTMENT.

Mr. James Mathew, President of the Evicted Tenants Commission.

LONDON, Oct. 15.—The report that trial Justice Mathew is a member of C. J. Sullivan's political camp that Mr. Morley made a good move in appointing Justice Mathew to the Evicted Tenants Commission, on evicted tenants in Ireland. Sir James is an Irishman, and a nephew of Father Mathew, but his friends well know he is a Liberal and a Home Ruler. So high is his reputation for integrity, that no whisper of disrepute breathes over this ground. Justice Mathew was raised to the bench 11 years ago. Since that time he has been a model judge, and his selection is abundantly justified. It is understood that the commission gazetted last night will promptly get to work so as to be able to report to the cabinet in a few days.

#### GUARDIANSHIP OF MARSHALL'S OFFICE.

LONDON, Oct. 15.—The court that tried Private Marshall, a member of C. J. Sullivan's political camp, today sentenced him to 18 months' imprisonment, and a fine of £100, for the offence of publishing an article in the Star on the receipt of money from the Evicted Tenants Commission.

#### MAN ARRESTED AT DUNVILLE.

HAMILTON, Oct. 15.—At the Cayuga Assizes, which open on Oct. 21, a unique suit for damages was tried. On April 20, Scamman Haldane was arrested near Dunville on a charge of cattle stealing. He was taken to the police station, and was first nearly suffocated and roasted by a big fire and smoky pipes on the street. He had almost fainted when E. Lalor, reeve of the town, and the constable came and opened the doors. The man was not properly fixed, however, and again he had to endure partial suffocation while the fire went out. Then was nearly frozen. Between the heat and excitement of the early part of the night and the severe cold of the early morning he made seriously ill, and his health was injured. He was subsequently acquitted of the charge. In consequence of the treatment he was subjected to, Haldane has sued the town of Dunville for \$2000 damages. J. W. Nesbitt, Q.C., of this city has been retained as counsel for the plaintiff.

#### OSBORN UNDER A WAGON.

Fatal Accident at Hamilton on Saturday.

HAMILTON, Oct. 15.—A fatal accident occurred about 2:30 p.m. today at the grain wharf west of Macdonell street, on the bay front. A number of wagons heavily laden with grain for the wharf were arriving there to be discharged, and one of these was over the corner of Bay and Pictou streets.

#### DOCTOR STRICKEN WITH SMALLPOX.

He Visits the Two Hospital Patients and Contracts the Disease—Smallpox is now in the City.

Another case of smallpox developed Saturday. The victim is Dr. Barnhart, the Medical Health Officer of East Toronto, and has been well for some days.

Saturday afternoon a consultation was held with Mayor Fleming and the Board of Health, when it was decided to allow the patient to be placed in the improvised Isolation Hospital at the East Toronto Hospital.

On the bulletin board at the General Hospital, was last night the entry: "From the large number of vaccination points used in this city during the last two weeks it is evident that a large number of citizens are taking advantage of this great and only prevention against smallpox. Many are coming forward for vaccination, and in some cases rendered almost useless for many days by pain, fever and swelling. Among those who have suffered most is Dr. Barnhart, one of the assistants at the hospital, who has been feeling ill for a few days with symptoms of vaccination, that has aggravated the course of the disease, which occasionally occurs in very susceptible persons when the operation has been very successful in its results. Under these circumstances it was thought advisable on Saturday to send the doctor over to the Isolation Hospital, where he or two or three would be able to relieve Dr. Fenton, who has been looking after the hospital ever since it was opened."

#### OSBOURNE & L. ELECTIONS.

A Large Vote Fought—The Grant Ticket Elected—Sweeping Majorities in Some Cases.

The Grant ticket was elected without an exception at the Osprey Hall Literary Society's election of officers Saturday. Many amusing incidents took place at the polls. Among them Hon. A. S. Hardy was challenged and refused the privilege of voting, as he was thought to be a non-resident of Toronto.

#### ANOTHER EXITING CASE.

The Mural Tickets for the Management of St. Alphonsus.

Excitement is rife in the ranks of the St. Alphonsus Club over the elections which will take place shortly, and the members are as active as the members of a Home Ruler. So high is his reputation for integrity, that no whisper of disrepute breathes over this ground. Justice Mathew was raised to the bench 11 years ago. Since that time he has been a model judge, and his selection is abundantly justified. It is understood that the commission gazetted last night will promptly get to work so as to be able to report to the cabinet in a few days.

#### THE "CUBANS" TICKET.

President—Paul Cummins. Vice-President—W. T. J. Lee. Recording Secretary—Frank Slattery. Financial Secretary—James E. Day. Treasurer—James W. Malloy. Librarian—A. Smith. Sergeant-at-Arms—James Mann. House Committee—J. E. O'Brien, D. A. McLaughlin, John Clark, William Callahan, J. O'Brien.

#### ISLAND FERRY SERVICE.

Arrangements have been made by which the steamer Clark Bros. will run from Yonge-street wharf up to the close of navigation.

#### OFFICE TO RENT.

The World will rent the northern window and a portion of its business office for a telephone, hotel or other office.

#### LOCAL NOTICES.

A fox was captured in the old Upper Canada College grounds yesterday morning. William Danon, a boy who lives at 112 Richmond-street east, was arrested yesterday morning for throwing stones and using bad language.

#### NO USE FOR CLERGY.

Slavin, the Cornwall Murderer, Calls on the Last.

MONTREAL, Oct. 15.—Slavin, the Cornwall murderer, who was in the custody of the Montreal police, called on the last night at the guard: "There is no doubt about it; I shot Jack, and am now going to jail for a long time, and no man can do this without coming to a sudden end. I have no more to say to you. I have made a bolt on you, and I know I did what was best. I was then here as a prisoner and

#### SHOOTING AT ST. THOMAS.

A BOARDER FATALLY WOUNDS HIS LANDLADY.

He Lodges Two Bullets in His Victim's Body—He is supposed to be the Inmate in the Custody of the Police—The Woman Still Living.

[From The Sunday World.]

ST. THOMAS, Oct. 15.—Citizens are scarcely recovered from the excitement caused by the shooting of Detective Phair at home, which will in all probability also be the inmate of the police station.

John D. Sullivan, who for the past two years has been engaged by George T. Phair to manage his laundry room, Centre-street. Two weeks ago he was brought before the magistrate on a charge of breaking a lamp and dishes at the boarding house. He was then locked up and charged with being insane, but striking her, and in some cases rendered almost useless for many days by pain, fever and swelling. Among those who have suffered most is Dr. Barnhart, one of the assistants at the hospital, who has been feeling ill for a few days with symptoms of vaccination, that has aggravated the course of the disease, which occasionally occurs in very susceptible persons when the operation has been very successful in its results. Under these circumstances it was thought advisable on Saturday to send the doctor over to the Isolation Hospital, where he or two or three would be able to relieve Dr. Fenton, who has been looking after the hospital ever since it was opened."

On the bulletin board at the General Hospital, was last night the entry: "From the large number of vaccination points used in this city during the last two weeks it is evident that a large number of citizens are taking advantage of this great and only prevention against smallpox. Many are coming forward for vaccination, and in some cases rendered almost useless for many days by pain, fever and swelling. Among those who have suffered most is Dr. Barnhart, one of the assistants at the hospital, who has been feeling ill for a few days with symptoms of vaccination, that has aggravated the course of the disease, which occasionally occurs in very susceptible persons when the operation has been very successful in its results. Under these circumstances it was thought advisable on Saturday to send the doctor over to the Isolation Hospital, where he or two or three would be able to relieve Dr. Fenton, who has been looking after the hospital ever since it was opened."

#### THE MANITOBA SCHOOL QUESTION.

A Way in Which the Matter May Be Settled To the Courts After a Decision Is Reached.

[From The Montreal Gazette.]

The suggestion was made in these columns a few days ago that the Government ought to exhaust all the resources of the law before permitting the Manitoba school case to become the football of contending factions.

The subject is admittedly no easy one, and the Government is not to be faulted for owing to the complications of justice, owing to law, of prejudice and of justice. The object we have had in view is to bring the Government to the courts of law, and to have the matter decided by a tribunal which has been to avoid it, if at all possible, the intervention of the courts of law is a subject so beset with difficulties.

The Ottawa Free Press has expressed the opinion that the Government should not attempt to refer the question of the right of the Dominion authorities to make remedial laws to the courts is a subject which is not to be referred to the courts of law. The error of the conclusion drawn by the Free Press must be obvious even to the casual reader. If the late decision of the Privy Council had not been so successful in its results, it would have been a subject of the right of the Dominion authorities to make remedial laws to the courts is a subject which is not to be referred to the courts of law.
