THIRTIETH YEAR.

FRIDAY MORNING, DECEMBER 2 1892.

ONE CENT

FIRST SLATE FROM OTTAWA.

MAF NOT BE CORRECT, BUT IS NOT FAR OUT. Lieutenant-Governor Angus May Not Enter the Senate. Mr. J. J. Curran, both of whom were evidently bent "sent for," pretty well settled, and to indicate O'Connell in repudiating politics from Rome. Bishop Nulty tried to advise that he would not be a member of Sir John Thompson's cabinet.

OTAWA, Dec. 1.—The political pot has been on the full boil to-day, and the general impression to-night is that Sir John Thompson has practically completed the task entrusted to him by the Governor-General and that he is now ready to submit names of the new cabinet to His Excellency on his return to Ottawa on Saturday morning.

The presence here to-day of Lieutenant-Governor Angus and Mr. J. J. Curran, both of whom were evidently bent "sent for," pretty well settled, and to indicate O'Connell in repudiating politics from Rome. Bishop Nulty tried to advise that he would not be a member of Sir John Thompson's cabinet.

Mr. Clarke Wallace has not been here, but the sudden flitting to Toronto last night of Hon. Mackenzie Bowell is taken to mean that he was entrusted by Sir John Thompson with the task of offering one of the two minor portfolios to Mr. Wallace, with some changes of portfolio amongst the old members, and the cabinet, and the World ventures to suggest the following as a very possible distribution of the seats in the new ministry:

The Probable Slate. Sir John Thompson, Premier and Minister of Justice. Hon. Mackenzie Bowell, leader in the House of Commons. Hon. G. R. Foster, Minister of Trade and Commerce. Hon. John Huggart, Minister of Railways. Hon. A. R. Angus, Minister of Public Works. Hon. A. Oulmet, Minister of Marine and Fisheries. Hon. J. C. Carter, President of the Privy Council. Hon. E. Daly, Minister of the Interior. Hon. J. C. Patterson, Secretary of State. Sir A. P. Carson, Postmaster-General. Hon. John Costigan, Minister of Agriculture. Mr. J. J. Curran, Solicitor-General. Sir Clarke Wallace, Comptroller of the Customs. Mr. W. H. Ives, Comptroller of the Land.

The three last without seats in the Cabinet would reduce the Cabinet by two, as there would be no minister without portfolio, but would make the whole number of ministers 15 instead of 14 as at present. This may not be an absolutely correct slate, but in my opinion it will be found to be not far out.

Angus Had a Conference. Lieutenant-Governor Angus arrived by the noon train and had a conference with the Department of Justice, where he had more than an hour's conference with Sir John Thompson, and of course decided to say anything about the object of his visit, although he was not to be connected with the formation of the new ministry. It is not now considered all probable that Sir John Thompson will run for the Commons in the election, but Sir John Thompson, probably and in which he would likely be elected, although he is sure to have strong opposition wherever he may run.

There was an unusually large number of members here to-day, amongst them being: J. E. Wood, Dr. Reid, W. Smith, Ontario; Dr. Ferguson, Ontario; Dr. G. R. Foster, Ontario; Taylor, Ontario; the latter expressed great pleasure at the appointment of Sir John Thompson as Premier, and said that he would support the changes in the ministry would be few. "If the new departments of trade and commerce were to be created," he said, "then, I think, Mr. J. J. Curran ought to get the 'interior' job. Mr. Curran would be a good man to have as Comptroller of the Customs and the Comptroller of the Land Revenue should go to the Marquis de Dufferin."

Meredith or Clarke Wallace will be taken into the Cabinet on Monday. The Cabinet will not be known until Monday.

HE HAS FIRE. And He Threatened to Blow Out His Own. HAMILTON, Dec. 1.—This afternoon Constable Campbell arrested a young colored man named John Vanmeter on a charge of threatening to blow out the brains of his brother Charles.

The prisoner is a showman—the great fire-eater. He arrived in this city only a few days ago, and he is now in the hands of the police, who are doing their utmost to capture the burglar.

AN OLD BROTHER DEAD. PORT STANLEY, Dec. 1.—William Fraser of the Fraser House has received a message from Kamloops, B.C., announcing the death of his brother Angus.

The deceased was well known all along the line of the C.W.R. Many years ago he was employed by the G.W.R. Company in superintending the construction of its line. About 15 years ago he went west, and at the time of his death was employed by the C.P.R. at Kamloops. His death resulted from a severe cold.

The Plague Took Him. ATROGNA, Pa., Dec. 1.—News reached here to-day of the death from cholera of Brussels of Claude Daily, the noted rifle shot, who has been starting in Europe.

Let's Grasp a Bottle of Taylor's. LITTLE ROCK, Ark., Dec. 1.—The steamship Tampa and W. H. Stevens left port late last night with cargoes of wheat for Buffalo. They will probably be the last clearances of wheat from this port this season.

WILL INVOLVE A FRESH APPEAL.

To the Country if Gladstone's Home Rule Bill is Accepted or Rejected by the House of Commons. LONDON, Dec. 1.—It is stated Michael Davitt desires to resign his present seat in Parliament, and to run again without a party, and under the charge of undue clerical influence he will not be permitted to accept the Chiltern House.

The Daily News hints that the tenantry of the Falmouth estates, on account of Bishop Nulty's unwise pastoral, must make Davitt uncomfortable. The Times says: "This is a point of some importance, for it is to the vote of the Irish clerical that the Gladstone Government owes its precarious life. The votes of the Irish clerical now dominate the policy of the British Empire. The South West petition has shown us something of the power which in turn dominates them."

The Chronicle says: "The result in South West may be useful to the Irish party, if it teaches the Government to-day to imitate O'Connell in repudiating politics from Rome. Bishop Nulty tried to advise that he would not be a member of Sir John Thompson's cabinet."

SAMOANS HUNTING TROUBLE.

THEY HAVE ATTACKED THE ENGLISH RESIDENTS. The Commander of the Australian Squadron Ordered to Send a Warship to Apia Without Delay.—The Admiralty has been telegraphed to the commander of the Australian squadron to send the warship Ringarooma to Apia without delay.

LONDON, Dec. 1.—A despatch to the Exchange Telegraph Company says that the Admiralty has been telegraphed to the commander of the Australian squadron to send the warship Ringarooma to Apia without delay.

THE NATIONAL LIBERALS. Want the German Army Bill Framed to Practicability. BERLIN, Dec. 1.—During the debate on the budget, which was continued to-day, Dr. Ball, a leader of the National Liberals, said that his party would vote for the demobilization of the army, but that for military purposes so far as was compatible with the vital interests of the Empire, but the carrying out of the provisions of the Army Bill to their full extent was impracticable.

In the course of his speech Dr. Ball complained of the inadequate share Germany had taken in the celebration in honor of the 400th anniversary of the discovery of America.

Chancellor von Caprivi, in reply to Dr. Ball, said that Germany had been worthily represented in the Colonias during the war, and the celebrations in Spain. The Government, he added, had received the warmest thanks from Italy and Spain for the part taken in their respective celebrations.

GULLING THE INNOCENTS. Wholesale Forgery of Autograph Literary and Historic Documents. LONDON, Dec. 1.—Considerable of a sensation has been created in the literary world by the discovery of a large quantity of system of wholesale forgery of autograph literary and historic documents. The discovery was due to the publication of an alleged manuscript poem by Burns. This poem was found to be a reprint from a cheap magazine of poetry that appeared when Burns was only 7 years old. A number of anti-arian bookshelves of the highest repute have unconsciously circulated the lower series, which include a parchment copy of "The Solemn League and Covenant," which, if genuine, would be of untold value; letters purporting to have been written by Burns, Scott, Thackeray, Burke, Cromwell, Carlyle and Mary, Queen of Scots.

There is no reason to suspect that the collection of manuscripts in Burns' papers presented in 1890 to the city of Edinburgh by Mr. Kennedy, the New York banker, are genuine.

THE STRIKERS FLED. After exchanging Volleys From Revolvers on the Streets of London. LONDON, Dec. 1.—The strikers at the Holles mines excitedly paraded the streets to-day, causing a tumult, which led the authorities to order the strikers to disperse. The strikers fled in a volley from revolvers.

The strikers then fired on the miners, killing one and wounding three, including a woman. The strikers fled in a volley from revolvers.

85 Lives Lost. LONDON, Dec. 1.—A despatch from Nagasaki states 85 lives were lost by the sinking of the Japanese ship Chushiki-maru, which was in collision with the Italian ship the British steamer Ravenna. The vessel filled and sank so rapidly that there was no opportunity afforded to lower the boats. Some of the lost went down in the ship, while others were drowned before assistance could reach them from the Ravenna. The latter was badly damaged, her bow being stove in, and it required the utmost effort to keep her afloat.

Blowing the Government. MADRID, Dec. 1.—The Marquis de Cubas, the new mayor of Madrid, has resigned on account of the complications arising from the prosecution of the municipal officers. The shops of the city are generally closed as a demonstration of sympathy with the mayor. The civil government has ordered the municipal authorities to be immediately stopped.

The police today forbade a popular demonstration in favor of the late Mayor, Marquis de Cubas. A mob paraded the streets headed by a woman carrying a black flag. There was great excitement.

Stopped the Procession. LONDON, Dec. 2.—About 300 persons, mostly youths of London unemployed, started at Tower Hill to-night to carry out their threatened intention to hold a midnight procession. The police were out in large numbers. They permitted the parade to proceed as far as Temple Bar, where they easily dispersed them.

The New Edition of Goethe. LONDON, Dec. 1.—The Post's Berlin correspondent says that a hundred unpublished epigrams of Goethe and Schiller, discovered in the Goethe archives at Weimar, will be included in Prof. Schmidt's new edition of Goethe.

Two Steamers Wrecked. LONDON, Dec. 1.—A telegram from Athens announces the loss of two British steamers, one the Arabian Prince, Capt. Milburn, which was wrecked off the island of Rhodes, and the other the Sir Francis Drake, which was wrecked off Cape Matla on the southern coast of the Morea. No loss of life is reported in either case.

Troops Withdrawn. PARIS, Dec. 2.—Gen. Dodds has withdrawn his troops from Abomey with the exception of a few companies. The remainder have been stationed at the post towns.

He Will see Dark Days. LONDON, Dec. 1.—Mr. Portal has been appointed British Commissioner to Uganda.

CRIME AND PAUPERISM.

Chicago Overcrowded With Beggars, Cripples and Criminals—Public Institutions and Courts Kept Busy. Mr. A. Pringle of Toronto writes The World from Chicago to the effect that tramps, vagabonds, paupers, named and crippled beggars and unkempt women with hungry children are flocking to Chicago in hundreds. Some of them are criminals by choice and some by dire necessity. They come—men, women and children—like the mighty Niagara of the night-seeing army to visit the World's Fair. Fabulous stories of the opportunities which the World's Fair year will offer have come to their ears, and they are hastening to the new Eldorado.

Chicago has become the veritable dumping ground for the off-scourings of all humanity. Women of all ages and conditions—women, women, peddlars and beggars are coming in unusual numbers.

Not one step above these are the small army of people who have come to Chicago expecting large wages and short hours, and who are being disappointed. They are being employed they sought they have rapidly spent all their money and are seeking charity at the hands of the Government benevolent institutions. The Home for the Friendless is overcrowded with inmates. The county agents daily turn away hundreds of numbers—semi-criminals who have no other place to sleep. The German benevolent societies are overcrowded with applicants and do more.

In the opinion of the police the epidemic of crime which is now sweeping over the city is directly connected with the great influx of tramps and paupers.

WHERE IMMIGRATION LIVES.

Manitoba and the Northwest Have Over 36,000 New Prairie Settlers in the Past Eleven Months. WINNIPEG, Dec. 1.—Nearly 1200 settlers arrived in Manitoba and the Northwest during the last month, making a total for 11 months this year of over 36,000.

November is not considered a phenomenal month for the immigration, but during the last 30 days the C.P.R. land departments have disposed of 38,500 acres in Manitoba and the Territories, on which they have realized \$128,000. For the corresponding period of 1891 \$44,000 was the total amount received for land by the company.

Those who have been settling in Manitoba and the Territories are delighted over the report of Prof. Nelson Douglas, an explorer and scientist, who says he has a feasible scheme for diverting the waters of Lake of the Woods through Red Lake into Red River, thus increasing its height by four feet and making it navigable.
