A STRANGE PEOPLE.

PERCUIAN RACE OF REMARKABLE HABITS AND HISTORY.

Dr. E. R. Heath, in a paper on 'Percomplaints.

Yours very truly,
C. W. VANDERGRIFT.
Mr. Vandergrift, of the firm of Vandergrift.
Hufman, is a well-known business man in this place, having one of the largest stores in Springfield, O. Our Minister's Wife. Our Minister's Wife.

LOUISVILE, KY. Feb. 16, 1877

MR. H. R. STEVENS,
Dear Sir.—Three years ago I was suffering terribly with Inflammatory Rheumatism. Our minister's wife advised me to take VEGETINE.
After taking one bottle, I was entirely relieved. This year, feeling a return of the disease, I again commenced taking it, and am being benefited greatly. It also greatly improves my digestion.

Respectfully,
MRS. A. BALLARD.

1011 West Jefferson Street. Safe and Sure.

Safe and Sure.

Mr. H. R. STEVENS.

In 1872 YOUT VEGETINE was recommended to me; and, yielding to the persuasions of a friend, I consented to try it. At the time I was suffering from general debility, and nervous prostration, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose; and under its persistent use I rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to give Vecttine my most anqualified indorsement so being a safe, sure, and powerful agent in promoting health and restoring the vasted system to new life and energy. Vectine is the only medicine I use, and as long at I live I never expect to find a better.

Yours truly, W. H. CLARK, 120 Monterey Street, Alleghany, Penn.

VECETINE.

The following letter from Rev. G. W. Mansfield, formerly pastor of the Methodist Episcopal Church, Hyde Park, and at present settled in Lowell, must convince every one who reads his letter of the wonderful curative qualities of VEG-ETINE as a thorough cleanser and purifier of the blood.

Hyde Park, Mass. Feb. 15, 1874 blood.

MR. H. R. STEVENS.

Dear Sir.—About ten years ago my health failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid-fever in its worst form. It settled in my back, and took the form of a large deep-seated abscess, which was fifteen months in gathering. I had two surgical operations by the best skill in the State, but received no permanent cure. I suffered great pain at times, and was constantly weakened by a profuse discharge. I also lost small pleces of bone at different times.

Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office, and talk with you of the virtue of Vegettine. I did so, and by your kindness passed through your manufactory, noting the ingredients, &c., by which your remedy is produced.

By what I saw and heard I gained some con-HYDE PARK, Mass. Feb. 15, 1876.

ingrements, &c., by which your tennesy is produced.

By what I saw and heard I gained some confidence in Vegeting.

I commenced taking it soon after, but felt worse from its effects; still I persevered, and soon felt it was benefiting me in other respects, Yet I did not see the results I desired until I had taken faithfully for a little more than a year, when the difficulty in the back was cured; and for nine months I have enjoyed the best of health. I have in that time gained twenty-five pounds of fiesh, being heavier than ever before in my life, and I was never more able to perform labor than now.

ilfe, and I was never more and to perform about than now.

During the past few weeks I had a scrofulous swelling as large as my fist gather on another part of my body.

I took Vegettins faithfully, and it removed it level with the surface in a month. I think I should have been cured of my main trouble sooner if I had taken larger doses, after having become accustomed to its effects.

Let your patrons troubled with scrofuls or kidney disease understand that it takes time to cure chronic diseases; and, if they will patiently take Vegetting, it will, in my jindgement, cure them.

them.
With great obligations I am
Yours very truly,
Q.W. MANSFIELD,
Pastor of the Methodist Episcopal Church.

THE ARRIE.

It is probably safe to say that the numbers of these birds which assemble at about it anywhere?' inquired the just-

bers of these birds which assemble at St. George are vastly greater than elsewhere on the globe. As a faint but truthful statement of the existing fact the following may be said:

When the females begin to squat continuously over their eggs, along by the end of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of June and the first of July, the lend of the lack. The coroner had the horse's hind leg inserted just below the man's shoulders. A real man, you know, built in that way, could knock the back of his head against the turns in keeping the eggs warm. Thus they feed alternately, going out to sea for that purpose. This constant going out and coming in during the day, give rise, at regular hours in the morning and evening, 'to a dark girdle of these birds flying just above the water, around and around the island, in an endless chain more than a quarter of a mile broad and thirty miles in length!'

This great belt of flying arries representations and the same of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them were as big as a walthat some of them turning back somersaults most of his time.'

'You say the coroner was not impressed with these views?'

'No, sir; he allowed that the man may have been a circus actor, and have had a hinge put in his back on purpose. cubation .- Ex.

A MILLION-DOLLAR FIRE. On the 2nd inst., a fire commenced lillings whose teeth slid down and bein some wooden buildings at the west gan to grow upon his ribs, with fatal end of the business streets, back of the Masonic Block, in the town of Beno, Nevada. A fearful gale was blowing, and before water could be got on the fire was beyond control. The flames had. The skeleton's left foot was comness of the wind and the intensity of the heat rendered it impossible to get close enough to do any good. In three hours all the business part of the town was in ashes, the only structures escaping being the Masonic buildings and one ether. Among the buildings destroyed Edge, and while I might think I could other. Among the buildings destroyed Eden, and while I might think I could are three freight depots, a bank, post get up a better one, he wouldn't trust office, eight stores, three hotels, two me to tack together an idol for a Dig-Whooping Cough, telegraph offices, railway baggage ger Indian, or words to that effoct.
