HIGGIN'S EUREKA SALT,

Made by **HIGGIN'S PATENTED PROCESS,** is the only salt from which Pansecale, Lime, etc. has been completely and entirely removed. It is the only salt upon which Dairy-men can rely for entire freedom from pansecale and lime in any shape or form.

It is made by the only known process which ensures the removal of pansecale and other impurities in large pieces, and prevents them from being broken up and becoming mixed with the salt; and that process is patented, preventing it being used by other manufacturers.

The maker of Higgin's "Eureka" challenges searching examinations of the salt, and is satisfied that years hence the truth of the statements now made respecting it will be verified by every maker of the finest dairy products.

The importance of good salt to Dairy-men cannot be over estimated, and since the introduction of Higgin's Eureka, a man has been supplied, so that those making choice butter and cheese, can always rely upon getting a thoroughly pure and perfectly uniform article.

The Eureka is used in the best creameries and cheese factories in Canada and the United States, and gives the utmost satisfaction, also at Her Majesty the Queen's Model Dairy Farm, Windsor, and by makers of the finest dairy products in Great Britain. It is also used extensively in Scandinavia, where butter-making has long been studied scientifically.

The first order of merit has just been granted to the Higgin's Eureka Salt at the Melbourne Exposition, **VERRET, STEWART & CO.,** Sole importers for the Dominion.
