## PROSTATIC TROUBLES.

In the prostatic troubles of men who are nearing or passing the meridian of life, as well as symptoms that are its concomitant, as difficult urination, sexual decline and premature decay, sanmetto is an indicated remedy. It is a remedy par excellence for these affections which befall men after the age of fifty. It is also a valuable remedy in case of ovarian and mammary affections in females. Sanmetto has been before the profession for a quarter of a century and has proved its right to stay. It is a soothing and building tonic to the reproductive organs and the mucous surfaces.

## GLYKERON.

A generation or more ago, the sentiment of the medical profession was in favor of descriptive names of ethical remedial agents; the opinion prevailed that names indicative of the composition of pharmaceutical agents offered ample protection against confusion. It was in conformity with this sentiment that Glyco-Heroin was selected as the most appropriate name for what has come to be one of the most universally esteemed respiratory sedatives.

But experience ultimately proved that the non-descriptive appellation affords a much greater measure of protection against confusion. Accordingly, Glykeron was selected as an alternative name for this preparation.

Glykeron and Glyco-Heroin now being synonymous appellations, and familiar as such to all dispensing pharmacists, the physician may use these names interchangeably when prescribing what was originally known only as Glyco-Heroin (Smith). Since Glykeron is the more distinctive appellation, its use is suggested to physicians when prescribing this well-known preparation for cough, bronchitis p,neumonia, phthisis, whooping-cough and kindred affections of the respiratory system.

## A RECORD OF GOOD WORK.

Cigarettes to the value of, in retail prices, of over half a million dollars. The boys at the front were most grateful for these gifts of cigarettes, which, in the words of one of their commanding officers, "Did much to alleviate and make the men forget the discomforts, incidental to active service".
