WARNING...

All Bicycle makers, sellers, users, owners, and riders are hereby warned that we have various patents, both mechanical and design, thoroughly protecting and covering the Burnham & Alsop "Crank Hanger for Bicycles," which embraces the especial feature of cranks having hollow or recessed Hubs adapted to receiving the Ball Bearings; thereby enabling us to build a narrower tread with a greater distance between Bearings.

The above Hanger is known and is manufactured by us as the

"Racyle Narrow Tread Crank Hanger"

and we will protect and defend the patents and prosecute all infringements to the full extent of the law.

Any and every one making, selling, using, or riding any Bicycle not manufactured by us, which have cranks of the above description, are infringing and are liable.
