A Woman Dusts

and sweeps and brushes,
thinking more of the dust and the dirt than she does of the Broom or the Brush she is using. That isn't the best and the quickest way to "clean house," because so much depends on the quality of the Broom or the Brush she uses.

When she buys a household Brush with the name "Boeckh" stamped on the handle she can rest assured that the bristles won't come out. The name "Boeckh" is not stamped on the brooms they make, but the dealer a woman buys of (if he is honest) will give a woman just what she asks for if she insists on having a broom made by Boeckh. The Corn Brush stays in

Boeckhs' Brooms.
