THE MONEYS OF THE WORLD.

"The Moneys of the World" is a little volume designed to enable bank officials and tellers to readily determine the value, in United States currency, of practically all foreign moneys. The tables are in compact form. The author believes country bankers would be justified in advancing 95 per cent. of the amounts given in the various lists, pending final adjustment. The book is of great value to bankers, brokers, and the financial world generally.

The Moneys of the World, by James P. Gardner. Published by the Bankers Publishing Company, New York, N.Y.

The Canadian and Foreign Investment Trust has been registered in London with a capital of £100,000 in £5 shares, to carry on the business of financiers, etc. The office is situate at 1 Church Court, Old Jewry, E.C. The first directors are R. M. Aitken, S. R. Marshall, and H. M. Hibbard.
