Composite Silver Binder Twine.

The Cheapest Harvester Binding Material ever offered to the Canadian Farmers or Farmers of any Country.

COMPARISON.

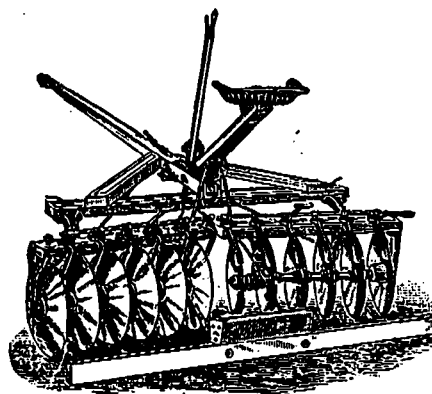

\$10.00 will purchase 100 lbs. "Composite" Twine, at 10c. per lb., running not less than 500 feet to the pound, equalling.	50.00
\$10.00 will purchase of "Manila" Twine, running 600 feet to the pound, which is fully 25 or 50 feet above the average of that generally sold, and estimate the cost at the low average of 15c. per lb., 66½ lbs., equalling	40.00

Difference in favor of "Composite" on an Investment of \$10.00 **10.00**

Equalling very nearly Two Miles more Twine in length, and will bind 5,000 more Sheaves for every Ten Dollars invested in "Composite" than in "Manila."

The Supply will be Limited. Place your orders early and secure what you want. Samples free upon Application.

For Sale by **ALL AGENTS OF THE MASSEY M'FG CO.**

THE HAMILTON HARROW

This is the most complete and perfect working Harrow made. It has no equal in reliability and effectiveness.

The disk gangs are connected with the main frame by a ball and socket joint, such a manner that each gang is free to conform to the uneven surface of the ground, and can be taken apart for transportation or storage, without the use of any tool, in one minute.

It is in all respects the very best harrow manufactured, and will give perfect satisfaction in every case. For further information and circulars, address

M. WILSON & CO., Hamilton, Ont.

For sale by the Massey M'fg Co's Agents at London, Stratford, Guelph, Galt, Whitby, Hamilton, and Toronto, and in the Province of Quebec.
