## FAILURE

The failure of a Life Insurance Company based on the principles and following the methods of business in use by the Equity Life Assurance Company is impossible. The fact is, there has been no other kind of an organization devised by man that has so much vitality as a properly organized and honorably conducted Life Assurance Company. Add to these general principles the most favorable conditions that can be conceived of in connection with each and every one of the important elements that enter into the business, and you have ideal conditions, such as exist in connection with The Equity Life of Canada.

To be convinced of this read its report for 1905.
