

Available details will be made known through diplomatic channels.

9. The Universidad Pedagógica Nacional [National Paedagogical University] (UPN) is interested in establishing contacts with Canadian institutions carrying on similar work, for the purpose of exchanging teachers and researchers in the areas of paedagogy, teaching systems, education psychology, and education administration and planning.

Available details will be made known through diplomatic channels.

In this regard, the AUCC expressed its willingness to offer assistance in establishing these contacts, and for this purpose will provide the Mexican side with a list of Canadian institutions that might be interested in such exchanges with the UPN.

10. The SEP expressed the wish to send two officials who are specialists in the development of education programmes on a three-week familiarisation tour so that they can study systems of higher education in Canada and identify areas in which cooperation and exchange programmes might be carried on in the future.

The AUCC will offer its assistance in order that this visit might take place.

The names and curricula vitae of the officials concerned, the dates of their visit, the working schedule to be followed, and other available details will be made known through diplomatic channels.

11. The SEP expressed the wish to exchange two officials specialising in school health, for the purpose of learning about the
